Grain

WINNIPEG, Aug. 10 - (CP) - Following the trend set on the Chicago market, all grain prices on the Winnipeg Grain Exchange today marked up early losses and failed to recover sufficiently to gain before market close.

The late buying was stimulated by upturns in United States mar- kets. Earlier, fairly liberal offer- ings on the Winnipeg Grain Ex- change led to price drops which were not totally recovered by late trade.

Commercial interests made mod- est purchases of oats and barley futures and fair buying by out- side interests was evident.

Some export business was re- ported in barley. There was no wheat export reported today.

Class two wheat, for export to countries other than the United Kingdom, was unchanged.

Range on oats was 1-2 to 3-4 lower on barley 1 to 1-2 lower; on rye 3-4 to 1 lower; and flax, unchanged.
