THE PUBLIC HEALTH. LETTERS TO THE EDITOR.

A VOICE FROM THE COUNTRY.

SIR,—In the country at the present time, the question is frequently asked: Do the Charlottetown Doctors who attend small-pox patients, also attend patients in the Charlottetown and the P. E. Island Hospitals? Also, do your City Doctors attend patients indiscriminately as they did previous to the outbreak of small-pox? By replying to the above enquiries through THE EXAMINER you will confer a favor on

THE PUBLIC.

Lot 40, Dec. 8, 1885.

[The physicians employed for the small-pox patients have relinquished all other practice, including the Charlottetown and P. E. Island Hospitals; and other physicians keep as far away from small-pox patients as possible. So that persons requiring their assistance may feel confident that they do not carry the infection.]

PRECAUTIONS AT MURRAY HARBOR.

The Board of Health for Murray Harbor met on the 7th inst. All the members of the Board were present. It was unanimously

Resolved, That all persons leaving any of the School Districts over which this Board has jurisdiction and going to any infected district, and all persons coming into any of the districts over which this Board has jurisdiction from an infected district (excepting mail carriers or any person having a certificate from the Chairman of this Board, or persons who on oath taken before a Justice of the Peace, can prove that they have not been near any infection for twenty-one days previously to being examined, and also all persons removing, destroying or disobeying the yellow flag or any of the rules of this Board, will be fined in a penalty of not less than Five Dollars or more than One Hundred Dollars; and

Further Resolved, That a notice of the foregoing resolution be posted on all the School Houses within the jurisdiction of this Board, and also at each cross road and every other public place where it is thought necessary; and

Furthermore Resolved, That this Board hereby appoint two men in the vicinity of Murray River Bridge to act as special constables in case any members of the Board of Health call upon them to arrest any persons for violation of the rules and regulations heretofore adopted by this Board of Health.

On motion, it was carried unanimously that Mr. Alex. McKenzie and Mr. Thomas Keenan be appointed to act as such; and further, that all Crown constables or any other persons upon whom any member of the Board of Health may call, will be in duty bound to arrest or assist in arresting any person guilty of a violation of the rules and regulations as heretofore mentioned.

The Board of Health take this opportunity of denouncing certain parties who contemptuously make an effort to obstruct them in endeavoring to suppress the small-pox epidemic, and in the meantime tender their heartfelt thanks to those who have so generously assisted them in carrying their rules and regulations into effect.

ROBERT WHITEWAY, Secretary.

PRECAUTION IN LOTS 51 AND 66.

The following persons having been appointed a Board of Health for Lots 51 and 66, viz: C. A. Shaw, New Perth, Chairman; R. Dewar, Esq., New Perth; A. Smith, New Perth; J. McLean, Esq., J. A. Moar and John Kenney, Baldwin's Road; Peter E. Campbell and John McLean, Head of Montague; P. J. D. Edmonds, Summersville and P. Keoughan, Brothers' Road, held their first meeting in New Perth Schoolhouse on the 30th ult., and were duly sworn.

The Board are taking every precaution to prevent the introduction of the small-pox within their jurisdiction. Having passed various regulations for this purpose, they appointed a committee of five persons in each school district to assist in carrying out the instructions of the Board.

Measures have been adopted to prevent parties from infected districts coming into the locality over which the Board has control. All meetings for religious, political, social or gambling purposes are prohibited, under a penalty of \$25 upon any person engaging therein. The schools are closed for 15 days. Communication with infected districts is also regulated, and strict rules adopted for the guidance of the committees. The Board also adopted a resolution making it compulsory that all persons four months old and upwards, be vaccinated within fifteen days, under a penalty of \$5; and any parent or guardian refusing or neglecting to have vaccination performed will be proceeded against as the law directs.

Since the organization of the Board, they have held meetings in Summersville, Victoria Cross, and New Perth, so that with the general oversight of the Board, the co-operation of the committees, and the willingness of the people to have the measures of the Board carried out, we trust the fearful disease will be prevented coming in our midst.—COM.

TIGNISH BOARD OF HEALTH REGULATIONS.

Resolved, That the Superintendent of Vaccination for this District be requested to vaccinate generally, and all parents and guardians of children not already vaccinated be at once vaccinated, under a penalty of ten dollars.

By order of the Board.

BENJ. HAYWOOD, Chairman.

BENEDICT RICHARD, Secretary.

Tignish, Dec. 8, 1885.

As an indication of the progress of the Malagasy in the arts as well as in Christianization, the fact is mentioned that a Malagasy-English dictionary has been printed and bound altogether by native hands. The printing is said to be clear and good, and such as would be creditable to an English firm, while the binding is strong and satisfactory. What an outrage it is against civilization that the French should treat the Malagasy as if they were savages!

Justin Huntley McCarthy, the Home Rule M. P. for Athlone, Ireland, will soon marry a daughter of Toole, the actor and manager.

Bushing the Ice.

SIR,—With winter weather comes winter duties—among them the duty of bushing the ice on our bays and rivers. And as anything that is worth doing at all is worth doing properly, I have a suggestion to make to our Road Supervisors, which at first sight may appear trifling, but is nevertheless worthy of their consideration. Any one who has ever been caught in a blinding snow storm on the ice knows how difficult it is to find the way. With bushes far apart and often thinly limbed, it is extremely difficult to travel—to the clearest headed it is bewildering, and has too often led to loss of life. In bushing the ice, therefore, care should be taken to have suitable bushes, thickly limbed, placed firmly in the ice and not at too great a distance apart. But the point to which I wish to draw special attention to is this: About a foot or a foot and a half from the ice let the two sides of each bush be "blazed" in a line with the ice and not at either side of it. If this was done it would prove a great help in trying to follow the right track in a storm, or in the night time. In a snow storm at night, the bush nearest may be the only one visible. Just where the next one is, is often a matter of serious consequence to the bewildered traveller. A "blaze" on each bush, as I have suggested, would guide him, and prove the means, perhaps, of saving his life.

Hoping that our Road Supervisors may make a note of this,

I remain,

Yours truly,

SNOW SQUALL.

Dec. 9, 1885

Boston Markets.

BOSTON, Dec. 5.

EGGS.—Trade continues slow and it is difficult to get outside figures except for very choice lots. Sales of Eastern extra at 27 to 28c per dozen. Provincial grades are quiet at 25 to 26c. Lined are selling mostly at 18 to 19c.

POTATOES, &c.—There continues to be a liberal supply of wheat stock, but there is a firmer tendency and outside prices can be more readily obtained. Sales of Houlton Rose at 55 to 58c. Hebrons ran up to 65c. Burbenks rule at 50 to 53c. For most of the Nova Scotia stock 45c is an outside price, and some were sold last week at 43c.

FISH.—Receipts of Mackerel for the week have been 5,396 bbis, including 366 bbis from domestic and 2,030 bbis from foreign ports. As usual at this time of year, the market is very quiet, and it is difficult to give reliable selling prices for round lots, as dealers are indifferent about buying at present. Shore Mackerel are held at \$5 to \$5 50 for No. 3; \$7 to \$8 for No. 2; and \$18 to \$20 per bbl for No. 1. Jobbing lots of extra No. 2 and No. 1 range higher. Codfish are in liberal supply, receipts for the week being 4,528 qtls from Provinces and 1,595 qtls from domestic ports, and prices are easy. Dry Hake are held at \$2 87 1/2 to \$3 but if forced off might not realize over \$2 74. Pickle cured Hake rule at \$2 50 to \$2 62 1/2 for medium and \$2 75 for large, with very few sales. Nova Scotia dry Shore sold at 23.25 per qtl. Sales of Hake at \$1.75 per qtl.

Of Interest to Doctors.

PECULIAR OPERATIONS ON A PATIENT IN A CHICAGO HOSPITAL.

CHICAGO, Dec. 4.—Dr. James M. Hutchinson, one of the surgeons at the Cook County hospital, performed a peculiar operation, which he thus describes:—"A young man of the city was taken to his mother's home on Lefflin street on Nov. 4th, sick in a peculiar way. On November 6th I was called to see him. He had led the rapid life of a bachelor, and had a fat, paunchy stomach. I made an incision, and drew off three quarts of a milky white fluid. I could not account for it. I kept tapping him, and in twenty-seven days drew off eighteen gallons of the strange fluid. He was dropping, but why the fluid was milky white I could not tell. I decided upon an investigation, and on Tuesday I made an incision in the abdomen. I drained him out and made an opening six inches in length, laying the intestines bare. They looked natural, but I reached in after his liver and found a malignant sore. Then I went for the spleen, but could not account for the milk color of the secretions, and I traced up the lactical duct, which empties into the left sub-clavical vein, and found a rupture. The fluid, instead of going to nourish the body, had been going to color the matter in the abdominal cavity. I was satisfied. I closed up the opening in the duct, washed the man out, carbolized him, stitched up the opening but left a vent tube, and the man will get well."

The Queen attended Craithie Church on a recent Sunday morning, accompanied by Princess Beatrice, the Duke and Duchess of Connaught and the Duchess of Albany, when the service was conducted by Dr. George Matheson, of Inellan. Although totally blind, Dr. Matheson went through the whole service, reciting the psalms and lessons from memory. He preached from the words—"Ye have heard of the patience of Job." In the evening, Dr. Matheson was presented to Her Majesty at Balmoral Castle.

A CARD.—To all who are suffering from errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c. I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America and sent self-addressed envelope to Rev. Joseph T. Inman, Station D, New York.
