SECOND EDITION
THE DAILY EXAMINER.
MAY 14, 1880.
Island Indians.

Mr. JOHN O. ARSENAULT, Indian Super-
intendent on this Island, reports to the
Department of Interior as follows:—
"Our Indians here are industrious and
hard-working. A good number of them
cultivate the land. They have planted a
good share of potatoes, and sowed a little
wheat and oats in the spring, and I am
happy to be able to state that their crops
look well.

"There has been a diminution in the
population in this superintendency during
the year. There have been twenty-six
deaths, and only six births. Many died
with consumption, which is characteristic
to the Indians, particularly to those living
in wigwams. Two of them had attained a
remarkably old age when they died. Mr.
Toney, who died in December last, was 103
years old, and Mr. Dominick Nowcut
who died in February, was 102. I am
pleased to be able to report that there are
very few sick among them at present.

"I found last winter that nearly all the
Indians of Lennox Island were destitute,
owing to the difficulty in procuring stuff for
their manufactures—baskets, axe-heads
and butter tubs, and also for want of a
compensating market. Under these trying
circumstances I distributed with the
utmost care the means you placed at my
disposal, which were thankfully received.

"The Indians residing on the Morell Re-
serve seem determined to become independ-
ent farmers in some few years; though not
long settled there, they have already cleared
many acres of land.

"I found in the spring two of them who
had saved their seed from last year's crop.
I encouraged them by giving their share of
the money given by your Department for
buying seed, to help them in hiring teams
to put in their crops.

"Our Indians avail themselves of the
help given by your Department in building
Nine houses and one barn are being built
this summer.

"The Indians of Lennox Island are very
temperate, with the exception of a few.
They have taken the pledge this year, and
formed a temperance society among them-
selves.

"Goose hunting is carried on during
part of the months of March and April.
No less than 800 geese were killed during
the season.

"I have taught school on Lennox Island
since first October last. The children are
intelligent, and are learning well, principal-
ly reading, writing and geography. The
average attendance is small at present. The
children are often away with their parents."

Notes from Kensington.
(By our own Correspondent.)

Times are lively; the young folk are
coupling off and going housekeeping—a
sure sign.

Weddings are the order of the day. One
just past and several in prospect—especial-
ly one to be next week.

Fast horses are plentiful here. Some-
times they run away and smash wagons,
spilling the contents.

Quite a large quantity of potatoes have
been shipped by rail to Summerside the
last three weeks, to be re-shipped to Eng-
land.

Twenty-five fine beef cattle were shipped
by rail to Charlottetown, to Blake Bros.,
one day this week, averaging 1,340 lbs.
each, from Malpeque and Margate.

New goods are coming in by each train
to the merchants. Farmers are busy pre-
paring for planting large crops and every-
thing is wearing a busy appearance.

The following is given by an exchange as
the lengths of the various sessions of our
Canadian Parliaments since 1874:—

Year.	Parl. met.	Prorogation.
1874	March 26	May 26
1875	February 4	April 8
1876	February 10	April 12
1877	February 8	April 25
1878	February 7	May 10
1879	February 13	May 16
1880	February 12	May 7

LARGE SHIPMENT OF FISH TO JAMAICA.
Messrs. J. S. Cochran & Co. shipped per the
steamer "Alpha," Capt. Crowell, for Jamaica,
620 tons, 500 bxs, 500 half do codfish, 600 bbls
herring and 331 bbls mackerel, valued at
\$20,000. The same firm shipped by the last
steamer for Jamaica, fish to the value of
\$15,000. The "Alpha" has a full cargo, and
will sail after the arrival of the English mail
from Rimouski.—H. Herald.

A BERLIN despatch reports the marriage of
the Princess Pauline of Wurtemberg, with
Dr. Wilm, a medical practitioner of Breslau,
of whom she became enamored. The King of
Wurtemberg, Pauline's father, gave his con-
sent to the marriage on condition that the
lady should abandon her princely title, which
she evidently did.

ANGUS McMILLAN, Esq., arrived home yester-
day after a three months' sojourn in Eng-
land and France.—Journal.

MISCELLANEOUS.

The old mausoleum of Augustus Caesar at
Rome is being converted by an architect
into a splendid modern theatre.

"Who can say," says London Truth,
"that our army is under officered? The
other day, not far from Portsmouth, a regi-
ment fell in on parade with thirteen men
and seventeen officers."

The Montreal Gazette states that Mr. Hol-
ton, while he lived, stood between Mr. Mac-
kenzie and the section of his party that wished
to depose him. If this be so, it is probable
that were Mr. Holton still alive Mr. Mac-
kenzie would still hold the party leadership.

It is stated that the inhabitants of Lon-
don at the present time consume annually
2,000,000 quarters of wheat, 400,000 oxen,
1,500,000 sheep, 130,000 calves, 250,000 pigs,
8,000,000 head of poultry and game, and
40,000,000 pounds of fish.

Mr. Swinburn publishes a new volume,
"Songs of the Springtides," containing other
poems a remarkable birthday ode to Victor
Hugo, a sonnet on the proposed desecration
of Westminster Abbey, invoking scorn ever-
lasting and eternal shame on the Dean for the
projected insult to France and England.

Mr. Greenwood, within 48 hours after
his retirement from the Pall Mall Gazette,
received offers exceeding half a million dollars
to establish a new journal. Politicians,
horse guardsmen, financiers, judges, and
others in high social positions, were among
the subscribers. The arrangements are nearly
completed, and the paper will probably ap-
pear within a few days. The name is still
uncertain, but the form, typography and
general features will be similar to those of
the Gazette.

Judging by the number of petitions pre-
sented against the return of members to
the new British Parliament, bribery and
corruption must have been practised to a
very considerable extent. Already petitions
have been presented against the return of
the members for Canterbury, Macclesfield,
Tewkesbury, Wallingford, Worcester,
Knaresborough, Poole, Boston, Dungeness,
Athlone, Herford, Horsham, Ipswich and
Plymouth.

Lord Archibald Campbell, son of the Duke
of Argyll, and brother of the Marquis of
Lorne had a long interview with Cyrus W.
Field, recently, at the Brevoort House. Lord
Campbell somewhat resembles his brother.
He has always been a great traveller. Un-
like his brother, he is not in public life, being
a partner in Coutt's Bank. He was formerly
in the wine trade in Bordeaux, and latterly
was in the cotton business in Liverpool. In
manner, he is affable and pleasant. When
asked by a reporter this morning if there was
any truth in the report that the Princess
Louise would shortly return to England, as
her recent accident was more serious than at
first believed, he said he did not believe the
report. His brother had just written to him
saying that the Princess and himself would
remain in Ottawa until the 18th instant, and
then go to Quebec. As to his first impres-
sions of this country, Lord Campbell ex-
pressed himself as being charmed.

Among the many gigantic enterprises of
the present, there is none of greater politi-
cal importance than that—if carried out—
of a great ships canal connecting the Bay
of Biscay with the Mediterranean, and thus
to a great extent, depreciating the value of
Gibraltar. Such a Canal, M. Duclere, Vice
President of the French Senate, has reason
to believe, might, without any very stuper-
dous difficulty, be constructed between
Bordeaux and Narbonne, with the effect of
saving six or seven days in the steam tran-
sit between the former city and Marseilles,
Geneva, Leghorn or Spezia. In the event
of war it would give France an immense
advantage, by enabling her suddenly to
throw her whole naval force either upon the
Mediterranean or Atlantic. Whether in
time of peace this canal would be used by
England as a short cut to the Suez Canal,
would depend entirely upon circum-
stances at present scarcely within view.

WHAT THE STARS FORETELL FOR 1881.
Those who study the stars will have plenty
of occupation in the coming year. The
index hand on the celestial dial-plate points
to events of momentous import. The four
great planets reach their nearest points to
the sun more nearly together than they
have done for almost 2,000 years. It is not
unreasonable to suppose that with their
strong pull and pull all together they will
create some unusual disturbance in the
chaotic elements that make up the sun's
fiery mass. The forces of the new spot
cycle are now in active operation, and those
who have closely watched the influence of
the solar disturbance on climate conditions
predict a hot summer from the heat waves
that follow the commencement of the tremen-
dous solar outbreak. The hidden cham-
bers of the Great Pyramid have given forth
in oracular fashion momentous prophecies
for 1881 to the few disciples who have faith
in their teachings, and astrologers cast
strange horoscopes from the unusual plan-
etary combinations.—Providence Journal.

August Flower.
The immense sale and great popularity of
Green's August Flower in all towns and vil-
lages in the civilized world has caused many
imitators to adopt similar names, expecting to
reap a harvest for themselves at the expense
of the afflicted. This medicine was introduced
in 1865, and for the cure of Dyspepsia and
Liver Complaint, with their effects, such as
Sour Stomach, Sickheadache, Indigestion,
Palpitation of the Heart, vertigo, etc., etc.,
it never has failed to our knowledge. Three
doses will relieve any case of Dyspepsia. Two
million bottles sold last year. Price 75 cents.
Samples 10 cents.
