

## TO CALL TENDERS SHORTLY FOR CAUSEWAY ACROSS NORTH RIVER

It has now been definitely decided that a causeway will be built across the North River just below the site of the present North River Bridge and it is expected that tenders for construction will be called shortly.

The earth dam will be approximately 1,100 feet long and will have a sluice formed of two lines of steel sheet piling 20 feet apart. By this means the level of the water back of the causeway will be kept at high tide all the time and eventually will become a fresh water lake. The level can be lowered at any time. Provision will also be made to allow salt water fish to enter the man-made lake.

This is part of one of the largest road programs ever undertaken in the Province by the Department of Public Works and Highways. It is heavier than usual due to the many sections of the Trans Canada Highway now being done. The Department is sub-grading the section from Loughran's Bridge to Vernon on the Wood Islands section and at Cornwall through New Haven to Bonshaw. At the same time approximately three miles of concrete pavement is to be laid from The Barn towards Cornwall, and tenders will be called shortly.

Pavement will also be laid at Bedeque from Hogg's Corner to

## Coming Events

- St. Teresa's Picnic, Wednesday, July 21st.
- Dance Morell East school Wednesday, June 30th.
- Dance Kory Hall, Georgetown, Wednesday, June 30th.
- Reserve July 21st, Tignish Parish Picnic.
- Reserve July 1st for Ice Cream Festival, Marie Church grounds.
- Reserve July 14th for O'Leary United Church Picnic.
- Regular Dance Crapaud Rink, Wednesday night.
- July 12th, Orange Celebration at Crapaud.
- Dance, Fortune Hall, every Tuesday night.
- Turkey Supper, Crapaud Hall, July 1st, Crapaud United Church.
- Reserve Tuesday, July 20th for Kinkora picnic.
- Variety concert, Cambridge hall, Thursday, July 1, Curtain 8:30.
- Dance Lorne Valley Hall Tuesday, June 29th, Turner's Orchestra.
- Special Dance in St. Peter's Holy Name Hall, Thursday, July 1st, Burns Orchestra.
- Attention, St. Mark's Anglican Church, Rustico, ice cream festival Friday, July 2nd.
- Opening Dance, Howe's Hall, Brackley Point, Friday July 2nd, Music by Dolron Bros.
- Lobster Supper, Legion Hall, St. Peter's, Tuesday, June 29th, Dinner served 5 p. m.
- Dance in St. Andrew's Hall, Mt. Stewart, every Thursday. Good music. Canteen service.
- Weekly dance Winsloe Station Hall every Tuesday, Dolron Bros. Orchestra. Canteen.
- Dance South Rustico Hall every Thursday night, music Rolfe MacKenzie's Orchestra.
- July 1st, Lobster Supper and Dance, Mt. Stewart. Supper served 11:30 by St. Andrew's C. W. L.
- Hampshire United Church Supper on school grounds, Wednesday, June 30th. Supper served at 5 p. m.

- Holiday Dance, Rollaway Club, Wednesday June 30th, 1964. Dancing 10:15 p. m. to 1 a. m. (Standard Time). 11:15 p. m. to 2 a. m. (Day-light Time). Admission 60 cents.
- Kings County Farmers - Federation of Agriculture Semi-Annual meeting and election of two members to the Potato Board at Morell Hall, Tuesday night, June 29th, 8 p. m.

Ross' Corner, approximately two miles of standard pavement linking Summerside with Borden. In addition to this, light pavement has already been laid from Corran Ban to Dalvay thus providing a paved road all the way from the City to the National Park.

## Festival Opens

STRATFORD, Ont. (CP) — Governor-General Vincent Massey and Premier Frost of Ontario came to Stratford Monday, heading the distinguished first-night audience for the performance of "Measure for Measure," opening presentation of the second annual Shakespearean festival.

## B. C. Reports First Oil Well

VICTORIA (CP) — The first oil discovery of commercial importance in the history of British Columbia was made Monday 45 miles from Fort St. John in the Peace River area. Premier W. A. C. Bennett announced here that "B.C. is in the oil business," with the proving of Pacific West Buick Creek number 3. The premier said he was told of the discovery in a telephone call from George McMahon, head of Pacific Petroleum. Premier Bennett said the oil was of "good quality" with a gravity of 35-37. In 1951 a similar discovery was made near Fort St. John, but later tests showed the oil could not be separated from large quantities of water in the oil pool, and the well was later abandoned.

## Murder Charge Laid in Ontario Triple Slaying

PORT WILLIAM, (CP) — Raffael Esposito, 30, section hand at Kelly siding, Monday was charged with murder in the bludgeoned-death of Mrs. Hedwig Koppin, who was found dead near her two children in the burned ruins of the family home, at Kelly siding 80 miles west of here June 19. Esposito, who came to Canada from Italy three years ago, showed no emotion as he heard the charge read to him by an Italian interpreter in Port William police court. No plea was taken. Assistant crown attorney Bernard Black requested that Esposito be remanded for eight days to allow time for a thorough examination by psychiatrists.

The murder charge was laid by Inspector J. F. Craig, of the Ontario provincial criminal investigation branch, Toronto. Inspector Craig had been at the Lakehead conducting the investigation since June 20. Esposito, who has a wife in Italy, worked at Kelly siding with Horst Koppin, husband of the murdered woman, until about two months ago when he was transferred to Larsen, six miles west of Kelly siding.

## Hot in Moscow

LONDON (Reuters) — Moscow had its hottest June 28 since 1879 Monday — 91.4 degrees — Moscow radio reported. The heatwave is general throughout European parts of the Soviet Union, the radio said.

## Seek Shipyard Orders In Russia

VICTORIA (CP) — Nine representatives of the Canadian Congress of Labor are planning a trip to Russia to attempt to drum up orders for Canadian shipyards, a union official said here Monday. Jack Cornthwaite, business agent for the Victoria local of the Machinists, Helpers and Fitters Union OCL said the representatives will investigate the possibilities of handling multi-million dollar Soviet orders for ships and other equipment in Canadian yards.

"This is not a propaganda mission," he said. "We will strictly be after business." He said the delegates would investigate every angle of handling Soviet contracts, including how they would be paid for.

WANT ONE-YEAR CONTRACT LONDON, Ont. (CP) — Nearly 400 employees of Kelvintor of Canada Limited went on strike Monday against a company proposal that they sign a contract for five years instead of one. Most office workers and foremen refused to cross the picket lines, leaving the plant virtually deserted.

# Rio Grande Inundates Mexican Town In Record-Breaking Flood

## Greet Brother After 40 Years

After an absence of forty years from the Province, Mr. John M. Matheson was greeted yesterday at the Charlottetown Airport by his brother, Mr. Neil A. Matheson, M.P. and his sister, Mrs. John A. MacLeod of Charlottetown. Mrs.

Neil A. Matheson is at the right of the picture. Born in Rose Valley, Mr. John M. Matheson left the island as a young man. At present he resides in Edmonton, Alberta, where he is an inspector with the Provincial

Department of Health and Welfare. The trip from Winnipeg was made by plane. Unable because of illness to greet her brother on his arrival was Mrs. S. A. Blondin of North River. —Barter Film Lab.

## New Air Raids In Guatemala

By SAM SUMMERLIN TEGUCIGALPA, Honduras (AP) — Anti-Communist rebels again attacked the Guatemalan capital with their air force Monday night despite the change in governments there.

First reports quoted the Guatemalan government radio as saying 12 planes bombed the capital less than 24 hours after Col. Carlos Diaz and military junta had replaced leftist President Jacobo Arbenz Guzman and outlawed the Communist party. Arbenz was reported en route by plane to exile in Argentina. Other listeners to the Guatemalan broadcast, however, understood that only one or two planes attacked with bombs and machine-guns.

Three planes were the most the rebels used in previous raids on the capital. The rebel radio of Col. Carlos Castillo Armas, who set out to overthrow Arbenz 11 days ago, earlier Monday called the Diaz regime "usurpers" and broadcast an ultimatum to the new government to seek a cease-fire or face new air bombardments of the capital.

## Drew Making Tour of Europe

OTTAWA (CP) — Progressive Conservative headquarters announced Monday that Opposition Leader Drew is making a four-week tour of Europe. Mr. Drew, accompanied by his wife and daughter, Sandra, flew to London Saturday where they were joined by their son, Edward. The announcement said Mr. Drew will meet government and business leaders and study economic conditions and trade possibilities abroad. He also expects to visit units of Canadian forces overseas during his European visit.

## BOOMING FACTORIES

MELBOURNE, Australia, (CP) — Australian factories now are producing more than ever before, and demand for manufactured goods has never been greater, according to the federal ministry of development. Shortage of skilled labor however is already putting a brake on some industries.

## Indo-China Truce Runs Into Snags

HANOI, Indo-China (Reuters) — Efforts to arrange an Indo-China cease-fire ran into a series of snags Monday as scheduled truce talks between the opposing high commands were postponed for the second time. The date for a first meeting between Communist Vietnamese and French and Viet Namese negotiators was left up in the air after a new postponement cancelled a rendezvous planned for today. No reason was given for the second postponement. Delegates discussing an Indo-

community of tense and disturbed people. The invasion has brought an economic crisis. There had been a run on food and other supplies—eggs for instance—doubling in cost—while stocks of gasoline and other stores had declined steadily. The quetzal, unit of national currency, had suffered heavily from inflation.

## Crewmen Tell of Crude Surgery On Steel-nerved Skipper Caught By Hook

LIVERPOOL, N.S. (CP) — Fishing crewmen told Monday how they performed crude surgery at sea on their steel-nerved skipper after he was almost hauled into a trawl winch by a fish-hook driven through the bridge of his nose. Captain Warren Levy, 41, had been standing by the rail of his Janet Irene flipping aboard halibut as a winch drew in the trawl line with its dozens of dangling hooks.

Unexpectedly one of the big hooks flew up, caught Levy's forehead and was yanked through the bridge of his nose. Arthur Lalby leaped for the winch and stopped it seconds before Levy would have been drawn face first into the meshing gear. His teeth clenched against the pain, the stocky captain let his men grind the eye of the hook with a course file. They worked it

## Judge Rules Reynolds Libelled

By ARTHUR EVERETT NEW YORK (AP) — A federal judge held Monday that a author Quentin Reynolds was clearly libelled in a 1949 column by Westbrook Pegler, the tart Hearst columnist. The jury was told to fix damages. Judge Edward Weinfeld's ruling came at the close of a bitter seven-week trial, the first in which Pegler has been subjected during nearly 40 years as a hard-hitting, no-holds-barred newspaper man. Pegler claims he has never been assessed a penny even in out-of-court settlements of previous libel cases. Reynolds asked \$500,000 in damages, in the most celebrated U.S. newspaper feud in years. He claimed the column cost him a fortune in the magazine and entertainment fields.

## REBELS TOUCHY

Aim of the talks here is to outline arrangements for regrouping troops in neutral zones along with other technical details of the proposed armistice. The chief decision for war or peace still rests with senior Geneva delegates. Touchy rebels were said to have

DEL RIO, Tex. (AP) — The Rio Grande gorged itself on a foot of rain and thundered seaward Monday in its greatest flood in history.

Eight people were reported dead at inundated Ozona in the north ranch country.

The Rio Grande flood itself was not expected to take many lives, because river-wise dwellers knew what was coming and got to high ground. The Mexican town of Ciudad Acuna across from Del Rio was evacuated safely.

Rescue helicopters shuttled the 60 miles from Langtry to Del Rio, bringing out the last of 266 passengers of Southern Pacific's Sunset Limited stranded Sunday by track washouts. Fourteen helicopters brought them to Del Rio where they continued by train to their destinations.

## RECORD CRESTS

The weather bureau forecast record crests at Eagle pass, Laredo and every other point downstream from here. The river already had broken its record here by seven feet. And forecasters said so much water was pouring into the stream from the choked Pecos and Devil's rivers that they couldn't even guess what the climax might be. The river crest already had reached 42 feet here, and 1,000,000 cubic feet per second boiled past town.

That much water flowing that fast in the Rio Grande, normally a sleepy stream that can easily be waded, was unheard of until now.

## NO COMPARISON

The weather bureau at Brownsville said there is nothing on the records to compare with this flood—and the only comparison forecasters could make would be with legends about a great flood in 1835.

Cloudbursts flashing in walls of water down dry washes flooded Ozona, 112 miles north of here and one of Texas' richest ranching towns. Eight bodies were recovered.

Three buildings in Ozona, a little town of about 2,800, burned down Monday. All three were within five feet of a water main—but the flood covered the main and fire fighters couldn't get to it.

Marine reservists and national guardsmen were dispatched from San Angelo to guard against looting and help in rescue work at Ozona. Sanitation experts and nurses went, too, along with scores of boats and four highway patrol units.

## Report Huge Land Deal In Florida

TORONTO (CP) — Chemical Research Corporation Monday announced that it has signed a sales contract to buy 78,000 acres of land on the southern west coast of Florida from A. C. Frizzell, of Murock, Florida. Purchase price was not stated.

The announcement, made here by J. Bradley Streit, of Toronto, vice-president, quoted J. H. Buchanan, of Miami, the company's president, as saying he believed the purchase is one of the largest single transfers of land in Florida's history. The property, which will be opened for development into farms, groves, ranches, townships, industrial, business, tourists and residential areas.

## Truman's Condition Slightly Improved

KANSAS CITY (CP) — Former President Truman was reported Monday "a somewhat less serious condition than Sunday night," but additional medical experts are here to assist his treatment. A hospital spokesman told reporters at a mid-morning press conference that the enteritis (intestinal inflammation) from which the former president had suffered was greatly improved. He also said there was nothing to report that the 70-year-old patient had suffered a haemorrhage of the bowels.

## FIGHTING FLARES

Fighting continued to flare up in Indo-China as the talks stalled. The French high command announced that a French Union patrol suffered "appreciable losses" when it was ambushed by about 1,600 rebels Sunday near Seven Pagodas in the northern Red River delta. The French also have evacuated posts near Pul Li on the western rim of the delta and two others in the Thai Binh zone near the Tonkin Gulf.

## Need For Unity Stressed By Sir Winston

By C. R. BLACKBURN Canadian Press Staff Writer WASHINGTON (CP) — An "unbreakable unity of the English-speaking peoples is essential to the preservation of peace," Sir Winston Churchill declared here Monday.

He indicated to a wildly applauding luncheon audience that he believes that unity exists and will continue to exist. The British prime minister, nearing the end of his talks with President Eisenhower, emphasized the necessity of "a real good try" to achieve peaceful co-existence with the Communist world.

The alternative was a terror that would "baffle the imagination," he said. He added that if conflict came it would leave the western world victorious but "victorious on a heap of ruins." Earlier Churchill and President Eisenhower released a joint statement indicating their agreement to lay plans for course of action in Southeast Asia if the current efforts of the French government should fail to make peace in Indo-China. In a joint statement the two leaders said they would "press (Continued on page 2, col. 6)

## Sudden Floods In N. B. Subside

SAINT JOHN, N.B. (CP) — Sudden floods in central and southern New Brunswick were subsiding Sunday night after heavy rain early in the day caused numerous washouts. Lightning accompanied the storm, hit a few buildings and caused power interruptions in several centres.

Highway No. 2, a main route, was hard hit by a big washout near Meductic. It also cut a gorge under the nearby branch line of the Canadian Pacific Railway. The Nepesis river rose 14 feet in four hours and interfered with training of the 3rd Canadian infantry brigade at Camp Gagetown. An army engineer reported 15 bridges and culverts washed out. Another officer said the key bridges would be back in operation by noon today.

## Ottawa Eagerly Awaits Arrival Of Sir Winston Churchill And His Party

OTTAWA, (CP) — The Canadian government will offer views to Sir Winston Churchill on the European Defence Community and the pooling of atomic information, but will not take sides on varying proposals for the defence of southeast Asia, well-qualified sources said Monday.

Informants said the visit today of the British prime minister is eagerly awaited by Prime Minister St. Laurent and his cabinet. They are anxious to get a first hand report of the conversations between the British statesman and President Eisenhower and make clear Canada's own views that there is an urgent need for getting France to approve EDC in order to strengthen the North Atlantic Treaty Organization.

## ENDORSE WEST GERMANY

The Canadian government, therefore, is likely to endorse heartily one aspect of the Churchill-Eisenhower communique in which they expressed determination to make West Germany "an equal partner" in the western world and to put German soldiers into western defences.

Informants said the Canadian government will also endorse the Churchill-Eisenhower view that Britain and the U.S. would benefit from a technical co-operation in atomic energy "to the fullest extent allowed" by U.S. law and that this co-operation should be extended also to Canada.

But the Canadian cabinet likely will stand clear of British-American variations on plans for the defence of southeast Asia. The Churchill-Eisenhower declaration that they will "press forward with plans for collective defence of southeast Asia was interpreted here as merely agreeing to give urgent consideration to plans, but that this would not necessarily mean that the two countries have agreed to a plan. In fact, Mr. Churchill, at a

## Win Awards

EDMONTON, (CP) — Three Torontonians — Frances Loring, Ettore Mazzoli and Bernard K. Sandwell — have won the University of Alberta 1964 national awards in letters, music and painting and related arts. The University announced Monday.

The awards were instituted in 1951 to recognize outstanding contributions to the development of the arts in Canada. Miss Loring is the first woman and first sculptor to win the award in painting and related arts. A native of Idaho who settled in Toronto in 1912, she has exhibited in many important shows in Canada and abroad.

Mr. Mazzoli, recipient of the award in music, is a native of Switzerland. He was conductor of the Toronto symphony orchestra from 1943 to 1946 and since 1946 has been principal of the Royal Conservatory of Music, Toronto. The award in letters went to Mr. Sandwell, who retired in 1951 as editor of Saturday Night. Mr. Sandwell was a founder of the Canadian Authors Association and from 1943 to 1947 rector of Queen's University and a member of the board of governors of the Canadian Broadcasting Corporation.

Washington press conference following publication of the communique, supported the idea of a Locarno-type non-aggression pact between the Asian democracies and Communists, while the U.S. is known to favor a speedy NATO-type defence pact in that area.

Mr. Churchill, accompanied by his foreign secretary, Anthony Eden, is scheduled to arrive at suburban Rockcliffe airport at 8:45 p.m. EDT today.
