

**GOOD REASON FOR IT.**

**The Success and Popularity of the New Catarrh Cure.**

The remarkable success and popularity of the new catarrh cure, Stuart's Catarrh Tablets, is largely because it not only cures catarrh, but because catarrh sufferers who use these tablets know what they are taking into their system; no secret is made of what they contain. They are composed of Hydrastin, blood root, guaiacol and red gum, are pleasant to the taste and being dissolved in the mouth they take immediate effect upon the mucous lining of the throat, nasal passages and the whole respiratory tract.

The cures that Stuart's Catarrh Tablets have accomplished in old chronic cases are little short of remarkable, and the advantage of knowing just what you are taking into your system is of paramount importance when it is remembered that the cocaine or morphine habit has been frequently contracted as the result of using secret catarrh remedies, as so many of them are well known to contain these injurious drugs.

Stuart's Catarrh Tablets meet with the approval and cordial support of physicians because their anti-septic character renders them perfectly safe for the general public to use and their composition makes them a common sense cure for all forms of catarrhal trouble.

With nearly all advertised catarrh cures it is a matter of guess work as to what you are taking into the stomach, as the proprietors, while making all sorts of claims as to what their medicines will do, are very careful to keep it a close secret as to what they really contain.

This is one reason why Stuart's Catarrh Tablets have been so widely recommended, because they are not only pleasant and convenient to take, but the patient also knows he is not putting into his stomach anything of an injurious character.

These tablets are sold by all druggists everywhere in the United States and Canada at 50 cents for complete treatment and probably there is no better remedy ever devised for the permanent cure of catarrh whether located in the head, throat, bronchial tubes or in the stomach.

**Politics in Denmark.**

COPENHAGEN, Dec. 24.—A great sensation has been caused throughout Denmark by an article in the government organ, Berlingske Tidende, written by the Crown Prince Frederick, defending the prime minister, H. DeSehested, from the attacks of Count Frijs. The action of the Crown Prince in mixing in party politics has made a bad impression.

**THE TEMPERANCE QUESTION.**

Pointed Letters From Mr. John Anderson.

EDITOR EXAMINER.—The Guardian hints that if you knew about the thanks I gave the editor of the Guardian for not publishing a letter sent that paper you would not ask him to publish the one of the 18th inst. The statement is untrue. The letter in question was written before I was nominated to contest this district, and as it would not appear till afterwards I was glad it was not then published. The fact of accepting a nomination would alter matters and the letter might be misconstrued. However, I enclose you the letter and you can use it as you see proper. It will speak for itself, and if the Guardian tries to make any further capital out of it I shall send you the editor's letter and my reply in full.

A few words about Mr. Leslie's letter and I am done of it. Nearly every statement in it is untrue except the one that the prosecutor needs all the support and sympathy he can get. Mr. Leslie had that from me to the full extent of my power. But when I saw him fraternizing every day with open, notorious offenders against the C. T. A., and then found him acting the part of the ward politician it was time to expose him. The charge of partisanship against me is silly. I don't claim to be other than a party man, but I always helped to enforce the law regardless of the politics of the offenders. My conduct was always temperance first. But the way the Act is now used, and the lamentable results we are having should cause all the friends of the cause to cry shame. It is amazing that the Guardian should be silent, and in fact encouraging the use that is made of the law to make votes for the Liberal party. In drawing public attention to the way we are drifting, I am satisfied I was doing a public duty and can well await results.

I would rather be called a partisan when pointing out the pass we are coming to than to remain a silent spectator. I thank you in advance for the valuable spruce for this letter, and although you never posed as the temperance advocates,

Recently there have been several cases of prominent men suddenly falling in collapse just after eating a hearty meal. These men have all been under treatment for gastric "trouble," and yet the result shows that the treatment they had received had smothered the symptoms but had not retarded the progress of the disease.

There is a real danger in the use of palliatives when there is disease of the stomach and its allied organs of digestion and nutrition. The disease in such cases goes on, while the distressing symptoms alone are stopped. Presently, like a smothered fire, the disease breaks out in new places, involving heart, lungs, liver, kidneys, or some other organ.

The use of Dr. Pierce's Golden Medical Discovery results in a radical cure of diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, lungs, liver, kidneys, etc., when the disease of these organs has its origin in the diseased condition of the stomach and digestive and nutritive system.

"I will tell you what myself and family think of your medicine," writes Mr. M. M. Wardwell, of Linwood, Leavenworth Co., Kansas. "It will do all you say and more. I was taken sick nine years ago. I got so weak I couldn't lie down, nor hardly sit up; was that way two or three months. I picked up one of Dr. Pierce's Memorandum Books one day and saw your description of catarrh of the stomach. I thought it hit my case. We had a bottle of Dr. Pierce's Golden Medical Discovery in the house that was got for my mother. You recommend it for catarrh of the stomach, so I went to taking it. The one bottle nearly cured me. I got two bottles next time and took one and one-half and was well. Your medicine cost me three dollars and the doctor cost me fourteen dollars."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 31 one-cent stamps, to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

**THE LAPSE OF TEMPERANCE SENTIMENT.**

TO THE EDITOR OF THE GUARDIAN.  
SIR—, Your heading to my letter in the Guardian of the 14th inst. "Is Temperance on the Decline" not being in accord with my view of the case as implying a doubt in the matter I give the above as my text.

I observe that your editorial comments and those of a writer in the Daily Patriot and "Civis Sum" in this day's issue, are in the same strain. You all attribute partisanship either directly or indirectly, as my motive in writing and whilst wholly untrue and false it will serve to draw attention away from the real issue. I may also say here that I have never received nor asked for a cent from any party nor any personal advantage or favor of any kind. And, further, in assisting to enforce the Scott Act either as a worker or as a J. P., I never hesitated to push any offender because he was grit or tory, a fact that bars my way to political honors even had I ambitions that way, whilst were it not for the liquor business I might be in good circumstances today. And having given time and made sacrifices for the temperance cause it is discouraging to see ground lost and the current running strongly against us. In fact we are in full retreat, and no security is yet in sight.

Now, sir, I hold firmly to the view that everything is hinged on an honest enforcement of the C. T. A., and everything that raises a suspicion or convinces the public or a portion of the public that the fines are not collected, or if collected not going into the public treasury, has a baneful effect. As you understand that the burden of procuring evidence against and fighting the liquor sinners falls in every community on a very few who do it as a sacrifice and in many cases danger to themselves and their property, and when they feel their labor all lost through the political pulls of the offenders, why they lose courage and abandon the fight is plain.

Then, to point out the causes of the discouragement is the duty of all who take an interest in the question even though a political party is hit in doing so. You advise leaving the shots in the guns till the elections are over and the politicians safe in their places for another four years. After the elections we can resume the fight for the amusement and delight of the politicians. I confess I don't see the duty that way. But it is said, why not strike the Conservative party as well as the Liberal party. The answer is plain: it is the Liberal party that is in power, and whose actions are in question. If anyone wants to go back and review the conduct of the

Hon. W. W. Sullivan as Attorney-General they can do so. But as he is not in politics now I cannot see the sense of doing so.

Now what are the discouragements complained of and what has shaken confidence in the enforcement of the Act? These should be set plainly before the people, and if they are genuine the guilty parties should have to answer to the people, and if not true clear statements should be made and help to restore confidence among the friends of the law among all parties.

"(1) Why are the fines not accounted for?"

"(2) Why are convictions not enforced?"

"(3) Why should drinking men be appointed as officers to enforce the law?"

"(4) Why should an attorney-general refuse to pay a J. P. who tried Scott Act cases because he was supposed to be a tory and paid when it is known that he was a liberal?"

"(5) Why should an illicit seller be given a bonded warehouse for his own convenience?"

"(6) Why should an offender be put in gaol just before an election who would vote tory and liberated in a few days after the election?"

"(7) Why hold the election just the day before the Scott Act election and effect its defeat?"

"(8) Why pass a license law against the wishes of the temperance community?"

"(9) Why strike every important feature out of the Prohibition Act and refuse every offer of improving it?"

"(10) Why substitute the name of the bar tender instead of the name of the proprietor in the Hotel Davies case?"

"(11) Why is it that nearly all the liquor men who formerly were tories are now liberals, neither pay fines, so far as we can learn, or go to gaol?"

The above questions will show you, Mr. Editor, what has destroyed confidence in the enforcement of the C. T. A., followed by the deplorable outbreak of drunkenness in the land.

In conclusion, if placing these facts before the public will awaken interest and do good it will be a satisfaction indeed. But if the drift continues we shall see the prohibition act repealed and the license act the law; and although no party would at present advocate a license law for the country it will come in another way. First make a farce of the C. T. A.; then people as a supposed relief will say better have the licensed taverns and when the country is prepared for such they will come. We must remember that the liquor interests are now an organized body with power in a quiet way to drive out of public life every man they wish to, and in fact hold the fate of our Governments in their hands. I venture prediction that if the Manitoba Government strictly enforces their prohibition law at the next election will see them wiped out.

Thanking you in advance for your space

I am yours truly,  
JOHN ANDERSON.

**A Minister's Experience.**

So far as is known there is no other treatment for piles so wonderfully prompt and effective as Dr. Chase's Ointment. This preparation has never yet been known to fail to cure piles. It stops the itching at once, and positively and thoroughly cures piles of every form.

Rev. J. A. Baldwin, Baptist Minister, Arkona, Ont., writes:—"For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair, I was told to use Dr. Chase's Ointment, and did so, finding relief at once. I used three boxes, and am almost entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them, as it has me."

**A Victim of Bright's Disease for Many Years—Cured by Dodd's Kidney Pills.**

NEPEAWA, Dec. 24.—Mrs. T. H. McKee, formerly of Listowel, came here as a last resort. Had suffered ten years with Bright's Disease. Reported to be past help and dying, her re-appearance on the street in apparent good health was a pleasant surprise. The explanation given was that her little boy had insisted that she should use Dodd's Kidney Pills and prophesied that they would cure her. She says:—"From the first few doses I began to feel better, and after taking four and a half boxes, I say it with heartfelt gratitude, I am perfectly cured." Dodd's Kidney Pills is the only medicine in the world that has ever cured a case of Bright's disease at such a stage.
