

FALSE TEETH
That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little **FASTEETH**, the alkaline (non-acid) powder on your plate. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get **FASTEETH** at any drug store.

doing. Just at the instant that Flip was sure that in another minute he would have that squirrel Happy Jack was up on the tree. He didn't climb way up, he climbed only far enough to be safely out of reach of that excited dog. Then he turned around, head down, and began to bark. In squirrel language he was calling Flip all sorts of names, and trying to catch him. How those tongues flew! Each seemed to be trying to bark the fastest.

All the time Happy Jack was hoping that Mrs. Happy Jack would take this chance to get out of that tree in which she had been a prisoner. Perhaps she would have had it not been that just then Red-tail the Hawk lighted in a neighboring tree. Fortunately she saw him come, and knew still that he didn't see her. He had brought a small member of the snake family for dinner, and he wasn't doing any looking around. Perhaps when he finished his dinner he would fly away.
