## ATLEE-TRUMAN AGREE EUROPEAN DEFENCE TOP NEED

### No Sign China To Heed 13-Country Appeal

### Expiry Date Of Feed Grain Subsidy To Be Extended

OTTAWA, Dec. 6—(CP)—A Government official said today the federal subsidy on the movement of Western feed grains will in all likelihood be continued until at least July 31 next.

Fears have been expressed by farm groups across the country, including the 400,000-member Canadian Federation of Agriculture, that the subsidy, first started in 1941, would be ditched in the Government's current economy drive.

The official said that although funds have been set aside for the payment of subsidies to March 31 only, it is expected that supplementary estimates will be passed at the next session of Parliament to continue the payment until the end of the 1950-51 crop year. The crop year ends July 31.

What comes after that will depend on conditions which prevail then and on the recommendations of the Royal Transportation Commission, which is expected to report to the Government next spring on its Canadian transportation investigation.

The official said the Commission

### Reinforcements Continue To Pour Into Korea

TOKYO, Dec. 7—(Thursday)—(AP)—Chinese Communists streamed south Wednesday from Pyongyang toward a new Allied defence line in western Korea, despite scorching attacks from U.S. planes.

In Northeast Korea a Chinese Communist attack blocked a U.S. rescue column trying to reach trapped U.S. marines and infantrymen near the big Changlin reservoir. Gen. MacArthur's headquarters had nothing to support unconfirmed reports that the American forces had burst out of the trap.

Red Reinforcements

Reinforcements continued to pour into Korea from Manchuria for the already overwhelming mass of Chinese Communist troops pressing back the United Nations forces on both fronts.

MacArthur reported additional Red in at least divisional strength moving toward the northeastern and possibly the western sector of the battle area.

There was no indication that the Chinese Communist forces had any intention of heeding a 13-country appeal to halt at the 38th parallel. The one separated Red North Korea from Republican South Korea.

(At Lake Success, N. Y., Russia's Andrei Vishinsky told the United Nations General Assembly that Red China wants peace in Korea but added that it must come after the withdrawal of U. N. forces.)

U. S. Eighth Army headquarters reported a Chinese Communist force of about 5,000 was spotted by aerial observers Wednesday moving south and southeast about four miles south of Pyongyang, North Korea Communist capital abandoned by the Allies.

The Reds were moving on trails and secondary roads. They had not yet reached the new defence line, the location of which was not disclosed.

The Eighth Army forces of Americans, South Koreans, Britons, Australians, and Turks halted their mass withdrawal south from Pyongyang Wednesday and dug in for a new stand against oncoming Reds.

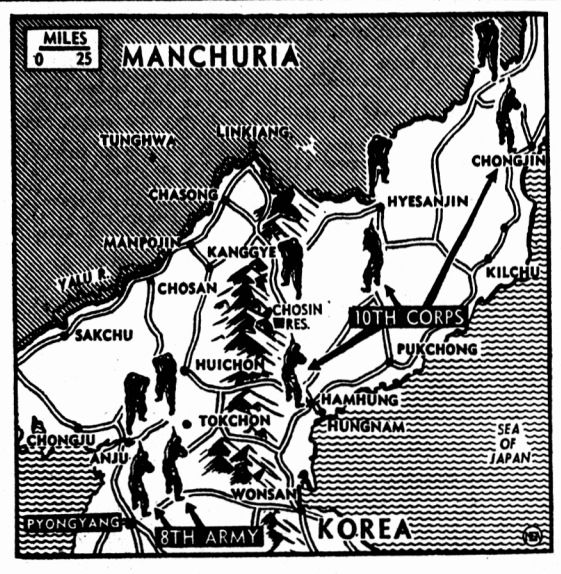

As to the location of the new Allied line, a spokesman for the Eighth Army said only that it ran from a point south of Pyongyang toward the southeast.

News Sketchy

The news was sketchy from the northeastern front.

AP correspondent Tom Stone reported.

(Continued on Page 5 Col. 1)

**DIVIDED COMMAND**—Map above shows how almost impassable mountain range down the centre of North Korea fences off Lt. Gen. Walton Walker's Eighth Army in the west from Maj. Gen. Edward Almond's 10th Corps. Liaison between the two armies is sketchy and maneuvers for mutual aid difficult. Coordination of the two forces is directed from Gen. MacArthur's headquarters in Tokyo.

### "No Appeasement" Of Communist China, Atlee Says

WASHINGTON, Dec. 6—(CP)—President Truman and Prime Minister Atlee tonight served notice on the Communist world that the Western Powers will move urgently and "with energy" in building up Atlantic defences against Soviet aggression.

A White House communique announced that the President and the British leader have reached "full agreement" on that phase of the world crisis.

It was the first real pronouncement of the three-day talks that began Monday when Atlee flew to Washington to confer with Truman on the grave turn of events arising from intervention of a 1,000,000-man Chinese Communist army in Korea.

Behind the formal words of the communique, diplomatic experts read a determination to seek to bind together the all-out strength—manpower, material and weapons—of the 12 North Atlantic treaty powers.

Europe, First Concern

It underscored the British view—shared by many officials here—that the no. 1 concern must be with Europe as the prime centre of defence against Soviet Communism. These officials hold that the Western Powers must avoid, if at all possible, tying up their main military strength in any all-out war with China.

(Reuters' New Agency said it had learned from informed sources that Atlee and Truman have both agreed that any thought of U. N. forces willingly withdrawing from Korea is out of the question.)

They also agreed that the U. N. position of condemning aggression by any power can never be compromised and that any proposed settlement of the Korean crisis cannot involve in any way direct or indirect condoning of aggression.)

May Extend Talks

Officials tonight said the President and Prime Minister probably will have to continue their conference Friday; they had found more problems to consider than originally anticipated.

Atlee originally intended to leave for Ottawa Friday, possibly stopping off in New York for courtesy conferences with United Nations officials. It may now be necessary for him to delay his travel arrangements by one day.

In a speech to the National Press Club earlier in the day, Atlee rejected any "appeasement" of Red China and pledged that his country will fight beside the United States in Korea "in fair or foul weather."

Officials said President Truman also is bent against appeasement as a solution of the Korean crisis. They said Truman firmly believes that if there are any negotiations to settle the Korean warfare, they must be limited to Korea.

They said, for example, the United States Government would turn down any suggestion to buy off the Chinese Communist regime by giving them access to Formosa or surrendering Indo-China to Red conquest.

Will Not Quit Korea

Informants said Truman has made it clear throughout the talks that the U. S. will never willingly withdraw its troops from Korea.

The President was described as believing that such a voluntary withdrawal would violate what he regards as an extremely serious and deep-rooted commitment to help the United Nations halt aggression.

It was also learned that Truman and the British leader agreed to re-examine controls to

### S'ide Firm Gets War Contract; Will Supply 1,600 Machine Gun Chests

### Remanded On Murder Charge

William Weeks, 42-year-old city laborer, appeared yesterday morning before Stipendiary Magistrate K. M. Martin charged with murder in connection with the slaying of James J. Mullins, 80-year-old resident of St. Douglas Street, whose body was discovered by City Police in his dwelling house early Monday morning. The accused was remanded in custody for one week pending a preliminary hearing before the Stipendiary Magistrate.

Mr. John P. Nicholson appeared for the Crown yesterday and Mr. R. E. Bell, K. C., for the accused.

### Suggests Subs As Arctic Troopships

BUFFALO, N. Y., Dec. 6—(AP)—Sir Hubert Wilkins says submarines travelling under the Arctic Ocean can carry troops within striking distance of Russian industrial centres.

The Arctic explorer, in a talk last night, said:

"The potential of using the Arctic as an underwater route to Russia is great. By any other approach foot soldiers would have to go overland about 300 miles in Arctic conditions."

The Australian-born consultant to the U. S. Military Planning Commission said there are no icebergs in the Arctic that would disturb subs. He added:

"Radar won't work in the Arctic to detect the subs, either. And there's no limit to the size of submarines. We can deposit our troops on the doorsteps of the Russians."

### Major Uranium Find Possible

REGINA, Dec. 6—(CP)—Dr. J. B. Mawdsley, head of the geology department of the University of Saskatchewan, said today that a major new uranium source may have been discovered at Charlebois Lake in Northern Saskatchewan. He made the statement in a preliminary field report prepared for the Provincial Natural Resources Department.

Charlebois Lake is roughly midway between the Alberta and Manitoba boundaries, about 50 miles south of Saskatchewan's northern border. It is nine miles northeast of Black Lake, site of another important uranium field.

Late in 1949 a number of radioactive discoveries were made in the Charlebois Lake area. Dr. Mawdsley reported that last summer 50 square miles of territory near the lake was mapped. Within this area, six main radioactive occurrences were investigated and a number of minor ones encountered.

### France To Call Meeting Next Month To Draw Up Plans For European Army

PARIS, Dec. 7—(Thursday)—(AP)—France announced tonight she will call a meeting of the Western European countries in Paris next month to draw up plans for a European army.

The announcement was made by Information Minister, Albert Gazier, who confirmed that France had agreed to immediate formation of West German combat teams in Atlantic-pact forces which would defend Europe against Communist aggression.

Previously the French had held out for creation of a unified European defence ministry before using German troops.

Faced with the worsening Korean situation, the French officials said the German units would be accepted as an emergency measure.

The French also up to now, insisted on the pooling of Western Europe's coal and steel resources under the Schuman Plan as condition for German participation in the defence setup.

The change in the French attitude represented a clear victory for the United States. The Americans want to get the Germans into a European army as soon as possible.

### France To Call Meeting Next Month To Draw Up Plans For European Army

OTTAWA, Dec. 6—(CP)—The Board of Transport Commissioners today concluded hearings on an application of the Newfoundland Government for lower freight rates for the new Province.

The commissioners reserved decision, declaring judgment would be delivered as soon as possible.

### High School Student Charged With Murder

TRAIL, B. C., Dec. 6—(CP)—Leo Meislin, 17-year-old Trail high school student, today was formally charged with murder in the slaying of 15-year-old June Bradshaw here Nov. 29.

He appeared in city police court and, without plea, the case was remanded until Dec. 14 for preliminary hearing.

Leo was arrested a few hours after the Bradshaw girl's body was found in the basement of her home. A blood-stained ax was found near the body.

### Nfld. Freight Rates Case Is Concluded

OTTAWA, Dec. 6—(CP)—The Board of Transport Commissioners today concluded hearings on an application of the Newfoundland Government for lower freight rates for the new Province.

The commissioners reserved decision, declaring judgment would be delivered as soon as possible.

### News In Brief

OTTAWA, Dec. 6—(CP)—Hearings on a New Brunswick case involving Federal-Provincial jurisdiction over highway transport will be held by the Supreme Court of Canada Feb. 6. The case was due to open tomorrow, but it was deferred by agreement of the parties involved.

HALIFAX, Dec. 6—(CP)—The aircraft carrier Magnificent leaves tomorrow morning for drydock at Saint John, N. B., for scraping and painting of the hull. The Maggie was to leave earlier but dangerous currents formed by strong freshets in Saint John harbor postponed the sailings.

NASSAU, Bahamas, Dec. 6—(CP)—Maj.-Gen. Robert Arthur Ross Neville was sworn in as Governor of the Bahamas today by Chief Justice Oswald Bancroft. The General and his wife arrived from England aboard the motorship Queen of Bermuda several hours earlier.

OTTAWA, Dec. 6—(CP)—Prime Minister Atlee's visit here this week-end is expected to open the way for inter-governmental talks going beyond the immediate perils of Korea into the more long-range problems of building Western security. But Korea will be the key issue.

WASHINGTON, Dec. 6—(AP)—The United States Air Force disclosed today that 29 commercial airliners, dropped from the Pacific airlift in September, have been called to duty to handle the increased needs for Korea. This brings the number back to 66.

REGINA, (CP)—The Saskatchewan Highways Department has built nine reinforced concrete bridges and... over-pass this season. It has also built or improved 33 bridges of other types.

### Ottawa Conference May Adjourn Today

OTTAWA, Dec. 6—(CP)—The Federal-Provincial conference on fiscal and social-security matters probably will adjourn tomorrow to allow the governments to study views propounded since discussions opened Monday.

Prime Minister St. Laurent said today after emerging from a closed session that he believes that in another day the government representatives can accomplish all they can usefully do at this time.

He did not think any one had expected that agreements would be concluded at this phase of the conference. Delegates would have to consult with their governments.

He believed that all the realities of the situation were fully realized. It now was a question of framing matters to give recognition to those realities.

The conference has not decided whether a public session will be held before it adjourns.

Mr. St. Laurent and the 10 Provincial Premiers were members of one of two committees which worked behind closed doors. The committee discussed renewal of Federal-Provincial taxation agreements.

Study Pension Scheme

Another committee, composed of Health Minister Martin and representatives of the Provinces, studied a Federal proposal to establish a contributory old-age pension scheme.

The committee was given illustrations as to how the pensions might be financed. These include

### Vishinsky Doooms Appeal To Communist China

LAKE SUCCESS, N. Y., Dec. 6—(AP)—Andrei Vishinsky today attacked a 13-country appeal to Communist China to stop at the 38th parallel in Korea. His opposition and reported objections by Red China's envoy here apparently doomed the desperate plea of Asian and Middle East countries for an end to the fighting.

Informed diplomats said Wu Hsiu-Chuan, Ambassador of the Chinese Communists, Tuesday night unofficially asked why the peace appeal was being sent only to his government. He was said to have insisted it should be sent also to the United States, Red China and Russia both charge the U. S. is the aggressor in Korea.

There was no word from Peking.

\*Mayfield Hall, Bean Supper, Five o'clock, Friday, December 8th. Adults 60 cents. Children 25 cents. Aid of Hall.

\*Final Dance, East Royalty Rink Hall, Thursday, December 7th. George Chappell's Orchestra, P. E. Islanders Hockey Team as guests. Bus leaving Bus Stop 9.45.

\*Come to Kingston Hall, Friday, December 8th, to hear Crapaud L. O. B. A. present their variety concert. Fun for all. Sale of candy.

\*The Annual Meeting of the Murray Harbour Credit Union Ltd. will be held in Murray Harbour Legion Hall on Friday, December 8th, 1950, at 8 P. M.—All visitors welcome.

\*Regular Tuesday night Dance at the Bonshaw Inn was postponed on account of the weather, but will be held Friday night instead, December 8th. This may be the last dance of the season.

### Ford Announces Increased Prices

WINDSOR, Ont., Dec. 6—(CP)—Ford Motor Company of Canada announced today that pressure of rising costs has forced abandonment of its policy of holding the price line on its passenger cars.

The announcements of price increases in the United States yesterday highlighted a careful review of our position," said Rhys. M. Sale, Ford of Canada president.

"We cannot escape the conclusion that it is unrealistic for us to attempt to hold our present price levels."

In the United States, Ford's price increases ranged from \$5.00 and \$90.00 on light models to \$15.00 on its most expensive line.

Mr. Sale said increased demands on United States production forced by the Korean war, together with recent wage increases given by Ford and many of its supplier plants, were the main reasons for increasing prices.

New prices would be announced early next week.

Change in company policy came so sharply that an earlier company statement today saying it would hold the price line on 911 Ford and Meteor models had been printed in some newspapers before it was ordered withheld.

Price increases would also affect Mercury and Monarch cars. The company announced last month that it would not increase prices on the two cars unless forced to by rising production costs.

Price increases will go into effect on all 1951 model cars shipped after midnight tonight, Mr. Sale said.

In the General Assembly, Vishinsky took a dig at the 13-country appeal in these words:

"American armed forces crossed the 38th parallel with the approval of, among others, the authors of a statement published in the press and emanating from certain powers which now appeal for a halt at the 38th parallel. These powers supported the campaign of the MacArthur legions beyond the 38th parallel northward to the Manchurian border at the time, but now they make appeals for a halt at the 38th parallel."

The 13 countries are India, one of the prime movers; the Philippines, Pakistan, Afghanistan, Indonesia, Burma, Egypt, Iran, Iraq, Lebanon, Saudi Arabia, Syria, Yemen.

Six of these—Egypt, Iraq, Lebanon, Saudi Arabia, Syria, Yemen—plus Hashemite Jordan make up the Arab League whose secretary-general put in a plea today for a Stalin-Truman meeting.

### Sir Stafford Cripps To Enter TB Centre

ZURICH, Switzerland, Dec. 6—(Reuters)—Sir Stafford Cripps, former British Chancellor of the Exchequer who is suffering from an infection of the spine, shortly will enter the world-famous tuberculosis centre at Leysin, Switzerland, it was learned today.

PRINCETON, Ill., Dec. 6—(AP)—Farmer Fred Perdelwitz asked the sheriff's office for help today in tracking down a huge, mysterious animal that, he said, has killed more than 50 head of his livestock. Perdelwitz said the monster had an "awful roar" that sounds something "like a lion's" and that it has left tracks "as large as your hand."

### Indians Hear Himalayas No Barrier To Invasion

NEW DELHI, India, Dec. 6—(AP)—The Indian Parliament heard a warning today that an aggressor can surmount the mighty Himalayas as easily as the Germans pierced the French Maginot Line.

J. B. Kripalani, leader of a rebel group within the ruling Congress Party, said India must not depend upon the mountain chain for her northern defence. He called the Himalayas as flimsy a barrier as the line of military installations which failed the French in 1940. Kripalani predicted Nepal, a buffer state between India and Tibet, will be the next Communist objective. Invasion there will surely drag India into war, he said.

Prime Minister Nehru also said the Himalayas are less a barrier than they once were. He warned India will not tolerate infiltration across the border into Nepal, nor conditions in Nepal which weaken India's frontier.

These statements recalled recent reports that Russia had surveyed possible airbase sites in Tibet. Nehru said only negotiation can settle the Korean crisis and "the fate of the world depends on the big powers."

"It depends more on the United States, the United Kingdom, Russia and (Communist) China than all the other nations in the world put together," Nehru told Parliament in a debate on foreign policy. "I make an earnest appeal that those countries make every effort to solve the present tangle by peaceful methods."
