

Little Sands And Vicinity

Mr. John Dan MacLean who spent part of the winter with his son, Mr. MacPhee MacLean in Cornwall, has returned to his home in Little Sands this week.

On Thursday, many people here saw the Prince Nova crossing from Pictou to Wood Islands in readiness for May 1, sailing.

Mr. Frank Panting who is employed on the Prince Nova was at his home in Wood Islands East on Thursday evening.

Mr. Willmot MacLeod, one of the Prince Nova employees, was also at his home in Iris, Thursday evening.

Miss Mary MacPherson, teacher at Orwell, spent the week-end at her home in Little Sands.

Miss Ellen Munn, teacher at Winsloe, was also at her home in Little Sands, over the week-end.

Mr. John Bruce, High Bank, Mr. Montie Livingstone, Little Sands, and others attended the funeral of Mrs. Annie C. Nicholson, Orwell Cove, on Wednesday. Mrs. Nicholson is Mrs. Bruce's mother-in-law. Mrs. Bruce had been there from Saturday when she had been visiting her sister in Pownal at which time she received the sad news of her mother's sudden passing. Sincere sympathy goes out to all the sorrowing ones.

Mr. Carleton Hume, accompanied by several residents of Little Sands attended the show at Murray River, Friday night at the Mayfair Theatre.

Mr. John Bruce, High Bank and Mr. Hugh MacNeill, Little Sands, accompanied Mr. Carleton Hume, Little Sands to Charlottetown, on April 30. One of the party reported seeing about 60 wild geese on way to Town in about a four acre field of last year's potatoes. On the way home he saw a ring-necked pheasant.

Messrs. Orin and Lester White, Wood Islands East, are employed in Murray Harbour, fishing.

Mr. Hugh MacNeill, Little Sands was in Village Green on business on April 30.

Once again on May 1, the carrier of the "Prince Nova" and the "Charles E. Dunning" started on their schedule trips between Wood Islands and Caribou. It is good to see this continuous link during the spring and summer months. At least, thus fulfilling the terms of Confederation in the eastern part of the island with the mainland.

The traffic has increased greatly since May day. On the highway and due to the dryness of the weather the dust is like the middle of summer.

On Sunday, great crowds of people in cars and trucks from many places were seen going and coming to and from Wood Islands. The Ferry seems to be a great gathering place on Sunday.

Mr. Donnie Livingstone, son of Mr. and Mrs. Donald Livingstone, Hopefield, is at his home on a 14 day leave from the navy.

The road machine scraped the Queen's County part of Little Sands on Monday, May 3.

Mr. Rowan Sencabaugh, Oak Valley accompanied by his brother, Mr. Benjamin Sencabaugh, Murray River, left Monday morning for Halifax, where Mr. Rowan Sencabaugh is seeking Doctor's treatment. Mr. Sencabaugh is a brother-in-law of Mrs. Alex Blue. His friends here hope he will soon be able to return to his home.

May 1 was a grand calm day for the fishermen, but a cold one.

Lines and many traps were set on Saturday and Friday afternoon. There are still lots of traps to be put out. Here's hoping for good fishing and warmer weather for the fishermen.

On an early day in May, the writer and her little five-year-old daughter went to the woods to pick Mayflowers. They were rewarded with the loveliest bouquet of the prettiest mayflowers, ranging in color from pure white to the deepest imaginable shades of pink. They also gathered some beautiful varieties of lions paw and other varieties of evergreens which the writer is not sure of their correct names. How pretty these are when one stops to examine them with their beautiful shades of green. What a lovely combination color.

Although the weather has been cold, with ice every morning, it is wonderful, the growth in the wild plant life of the woods. How near one feels to the Creator in gathering the first wild flowers of the Spring! Only God can make the mayflowers grow. They also noticed many bees among the flowers. They, too, have their work to do, while they unknowingly help with pollination, they are gathering honey for their storehouse. How God planned it all! Tiny lichens were also seen growing on stone and bark or dead stems, etc. What a wonderful display of the power of God.

What joy and happiness a little child gets out of just picking the little flowers. How she would claim when she would find a pretty cluster, hiding in the ground. How this little girl looks forward with anticipation when she can pick violets.

Country children have many pleasures that city children know nothing about which compensates for many privileges the country children are deprived of. On returning home, with this beautiful bouquet of mayflowers and evergreens, the little girl surprised her mother by saying, "Wouldn't they be lovely for wedding." Quite an idea!

The Women's Institute of Little Sands and High Bank met at the home of Mrs. William D. MacDonald, Little Sands, on Tuesday, May 4, with a good percentage of its members in attendance. Next meeting to be held at the home of Mrs. Alexander Blue, Little Sands on June 2.

Mrs. William MacKay and Mrs. Reuben Moore both of High Bank were in Valleyfield on May 3.

The M.V.C. A. Roland with Capt. Royal White docked at Wood Islands Monday, with the

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place. And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And

among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

Now this new healing substance is offered in ointment form for hemorrhoids under the name Preparation H. The price is only \$1.19 a tube including an applicator. The name to ask for is Preparation H—at all drug stores. And remember—if not entirely satisfied—your money will be refunded promptly.
