**Brownie Hawkeye Camera, \$7.95.** In just a few years it has become the world's most popular camera. And the reason? Because, while it's just as simple and sure as you expect a Brownie to be, it gives you daylight snaps and flash shots... in black-and-white or full color. It's the slickest, most talented Brownie camera ever. Flashholder, \$4.50.

**Kodak Duaflex III Camera; Kodak Lens, \$17.95.** You line up your picture in that big hooded viewfinder at the top and there's your subject big and clear... just as it looks in a finished snapshot. As easy to use as a Brownie camera. Safety shutter prevents double exposures, so you don't take one picture over another. With Kodak f/8 Lens, \$26.75. Flashholder, \$4.50.

**Kodak Pony 135 Camera, Model B, \$41.25.** Here's a "miniature" with new, easy, no-thread loading. Its sharp lens gives you crystal-clear black-and-white prints—and (with Kodachrome Film) those wonderful color slides, so crisp and brilliant you can hardly believe your eyes. You can project them and also have color prints made from them. Flashholder, \$9.
