BRANTFORD REFRIGERATORS
Give You the Lowest Temperature For the Least Ice
These Refrigerators are guaranteed to maintain a lower temperature than other Refrigerators of equal size filled with the same quantity of ice and to do this on the smallest consumption of ice. Properly proportioned ice chambers give the largest amount of provision space and give it at the bottom where the temperature is lowest.
BEST IN USE—BEST IN TEST
This is how the Brantford stood a special test of the Canadian Government, Department of Health. In a temperature of almost 100 degrees, inside the Brantford the temperature was below 40 degrees. This test lasted 72 hours. The food was as fresh as when it was put in and there was twice as much ice left as had been consumed. These Refrigerators will do the same in your home. OLD AGE AND HAPPINESS

Old age should mean experience, knowledge and wisdom. Not poor digestion, sluggish liver and a general feeling of ill health, despondency and misery. One of Chamberlain's Tablets taken immediately after supper will improve the digestion, tone up the liver and regulate the bowels. That feeling of despondency will give way to one of hope and good cheer. Try Chamberlain's Tablets. You'll like them.

Worms, however generated are found in the digestive tract, where they set up disturbances detrimental to the health of the child. There can be no comfort for the little ones until the hurtful intruders have been expelled. An excellent preparation for this purpose can be had in Miller's Worm Powders. They will immediately destroy the worms and correct the conditions that were favorable to their existence.

Lund, and two small children, namely Phyllis age 5 and Lawrence age 2 1-2 years.
He also leaves to mourn two brothers, Thomas of Match and James of Fitchburg.

LONG SKIRT, WASP WAIST TABOO BY ENGLISH WOMEN; PARIS FASHIONS SCORNED
LONDON, June 6.—Fashions direct from Paris have caused a tremendous agitation in women's circles because the English women refuse to adopt long skirts or anything suggesting the wasp waist.
Already the fashionable West End shops and complaining that the latest models are unacceptable here, and that women are casting them aside, having their own models made along the old lines. Short skirts and free waists are regarded by English women as the only sensible styles, and for the first time they refuse to bow to a Parisian decree.
The result of such English independence may be seen at the race track, where there is a curious variety of old and new ideas in dress. While there will be long skirts at Ascot and other fashionable race meets, there is every indication that the shorter kind will predominate during the season.
The shops, which as usual are stocked with Parisian models, declare that the are not selling very well. They say it looks like a war between the Parisian edict and the London idea of what fancy the more.
Younger women particularly decline to yield to the rise of the hem, say the modistes.
DIAMOND IN CHICKEN CROP.—Occasionally a chicken proves to be a "diamond in the rough." Such a one was purchased from Mrs. Truman by Mrs. L. E. Roy, of Pilot Rock, Oregon, the past week. Mrs. Truman's lost diamond was found in the chicken's crop. The stone, which was recently lost from its setting in a ring, was returned to the owner, none the worse from the experience than was Jonah after a brief residence in the whale.
Vacation is coming and then the school teachers will earn enough money to teach on again next year.
