CATS AND DIPHTHERIA.

Evidence That the Animals May Spread the Infection.

We have had the golden age and the iron age, and various other ages, but the present will probably be known as the wooden or paper age. Paper [illegible] material masquerading as silk is the latest invention in the paper line, and threatens to drive the silkworm out of business. Spruce sawdust, cotton or jute waste, and alcohol are put into the machine, and come out at the other end shining, delicately colored, rustling silks, suitable for the most fastidious lady's gown. Of course, this paper silk does not wear so well as the real fabric, but think how much cheaper it will be!

Enthusiastic paper manufacturers say the new woman and the new man will dine off paper dishes. It is not improbable that the hat of the future will be an indestructable paper affair, impervious to fire and water. Over in Paris any enterprising milliner will be able to show you stylish bonnets and hats made entirely of paper, frame, trimming, ornaments and all. Parasols of paper, do not seem to have been thought of yet, but satchels and trunks of paper are common enough. The paper trunk, despite its frail sound, is the despair of the baggage smasher, it refuses to smash.

So do paper car wheels. They have been in use for years on some of the most prominent railroads in this country. It must not be supposed that the wheels are made entirely of paper. This material only forms the interior shell. Having been subjected to terrific pressure, it is moulded and firmly bolted to the outer rim, which is of steel. Greater durability and lightness are claimed for these wheels, but don't let the idea of lightness lead you to get under one. If you do you may possibly have use for one of the paper coffins which are being turned out at wholesale by a firm at Westfield, Mass.

The railroad train of the future is likely not only to have paper wheels, but to run on paper rails. These are made entirely of paper, and are formed in moulds under great pressure. They have been used to some extent in Russia and Germany and are said to be free from many of the defects of the ordinary steel rail.

Paper horseshoes are another European invention. Among the advantages claimed for them is that they maintain a rough surface, enabling the horse to get a good grip on the smooth pavements. German papermakers have put on the market a substance called "papier sculptor," which is used instead of clay for modelling. It is simply paper pulp kept soft enough to be worked.

Papier mache ceilings and wall decorations are very fashionable. They may look like leather or brocade, or a thousand and one handsome embossed effects, but they are wood pulp just the same.

The housefurnishing departments in the big shops furnish interesting evidence of the extent to which paper enters into ordinary life. Paper pails and tubs are appreciated by the suburban dweller who hasn't "set" tubs. They are much lighter and easier to keep clean, as well as cheaper than the old style. Water coolers are made of paper. So is the much-abused cuspidor.

Peach baskets, berry baskets, and butter boxes are made of paper and almost everything under the sun—salt, which used to come in pretty blue and white bags, oatmeal, crackers, ice cream, candy, shoes, corsets, dresses—is sent home in a paper box.

In Japan, they say, some folks live in paper houses, and in this country paper boats are in use. Nor must the necessary sewer pipe be forgotten. Paper pipes for carrying water, steam, or electricity are not uncommon. As conduits for electricity they are considered safe, even though the wire be not insulated.—New York World.

The Origin of "Schooner."

How many of you know the queer origin of the word "schooner," as applied to a ship? Webster says that it was originally written "scooner," and that it derived its name as follows:

It seems that the first vessel of this kind was built at Gloucster, Mass., by one Capt. Robinson, and that when it was launched, one of the bystanders cried: "O, how she scoons!" "A scooner let her be, then," answered Capt. Robinson, and a "scooner" she was until the name took in the letter "h" and became "schooner."

The use of the word "scon" is explained by its early New England sense of skipping along the surface of the water, as a flat stone does when thrown from the hand. The Scottish "scon" means the same thing.—Philadelphia Times.

Tennyson Squeezed Her Hand.

Tennyson was one of the party invited some years since by Sir Donald Currie on a yachting trip, the yacht provided being an ocean steamer on the South Africa line known as the Pembroke Castle. Mr. Gladstone was another guest. There was on board a young English girl, once married and dead, whose beauty and intelligence and charm were all remarkable. Tennyson attached himself to this brilliant and sympathetic creature. He was often asked to read, and it became his habit to read holding her hand, which, in the fervor of recitation, he often pressed. The ship put in at Copenhagen, and the princess of Wales and the Empress of Russia, then on a visit to her old home, came on board.

There was luncheon, and after luncheon Tennyson was asked to read, and did, sitting between the Empress on one side and the English girl on the other. When it was over and they had gone up on deck, he asked the girl whether she thought the Empress liked it. "Well," answered she, "her Majesty must have thought it a little unusual." "What do you mean?" "I mean that I don't think the Empress is in the habit of having her hand squeezed in public, even by poets." It seemed proper to Tennyson to offer to the Empress his most humble apologies for his mistake. The Empress laughed and told him she had enjoyed the reading extremely.

THE DINNER HOUR.

Domestic Worry and Business Cares Should Be Banished During Mealtime.

There is one great reason for this lack of conversational power, in too many cases the art is never practiced inside the home circle, writes Louise Royle in the August Ladies' Home Journal. No attempt at pleasant converse is ever made save when visitors are present; the various members of the family may gossip a little, or discuss purely personal affairs, but they make no attempt at entertaining talk. In point of fact, the art of conversation is like a game of battledoor and shuttlecock, one needs the quickness and dexterity of constant practice. In many busy households the only general gathering of the family is at mealtime—a time above all others when worry should be banished, if only for the sake of physical comfort. Yet this is the very time when the mother will complain of domestic worry, the father of business cares, and the daughters of shabby frocks.

All this should be changed; it ought to be a rule in all households that disagreeables are to be banished at mealtime. If complaints must be made let them come at a proper time, but do not imperil your digestion by eating while you are in an irritated and discontented frame of mind. Pleasant talk relieved by an occasional laugh will be more beneficial than pounds of pills. In the household there should not only be an avoidance of unpleasant topics, but an attempt to find agreeable ones. Each member of the family should come to the table prepared to say something pleasant. Any bright little story or merry joak, or any bit of world's news that will loosen the tongues and cause animated talk—how it will increase the brightness of the working day. There need be no profound discussion—it should be just lively touch and take.

Marriage on $50 a Month.

A young man asked me if it would be safe for to marry on five hundred and a salry of fifty dollars per month. I told him I could tell better when I saw the girl. There are girls who have grown up in ease and who have kicked great black and blue welts in the lap of luxury, yet who are more ready and willing to accept a little rough weather than the poor girl, who has stood for eighteen years looking through the solled window of life waiting for the rain to rinse it off and let the sunlight through that she might see her approaching lord.—August Ladies' Home Journal.

No Latch Keys at Buckingham Palace.

Queen Victoria evidently disapproves of young ladies carrying latch keys. The Princess Victoria and Maud of Wales recently paid a visit to their royal grandmother at Buckingham Palace. These young ladies are most democratic in their tastes, and they would have preferred to enter and leave the palace by a side door and thus dispense with the formalities of the royal entrance. Accordingly, they asked for latch keys. This request, after receiving the attention of several members of the household, was finally laid before the Queen, who spent little time in considering the question and sent word to the Princesses that she considered latch keys out of place in Buckingham Palace.

BABY'S BURNING SKIN.

Skin Peeling Off, Skin Literally Afire, Cooled and Soothed by Chase's.

The great feature of Chase's Ointment—Almost instantly it touches itching, burning, eczematic skin, relieving the pain—Is a boon to mothers whose children are sufferers—There is nothing uncertain about it or this way of speaking about it:

"My six-year-old daughter, Bella, was afflicted with eczema for 24 months, the principal seat of eruption being behind the ears. I tried almost every remedy I saw advertised, bought innumerable medicines and soaps and took the child to medical specialists in skin diseases, but without result. Finally, a week ago, I purchased a box of Dr. Chase's Ointment, and the first application showed the curative effect of the remedy. We have used only one-sixth of the box, but the change is very marked, the eruption has all disappeared and I can confidently say my child is cured. (Signed)

MAXWELL JOHNSTON,

A face that was a scab from forehead to chin cured in 10 days.

On behalf of the Fred Victor Mission Bible Class I wish to express our gratitude to you for the box of Chase's Ointment which you supplied in aid of our charitable work to the infant child of Mrs. Browning, 102 River street. Ten days ago the child was awfully afflicted with scald head, the face being literally one scab from forehead to chin, and in that brief time a complete cure has been affected. Surely your gift was worth more than its weight in gold.

AN EXCEPTINOAL SALE.

St John is much Interested in the Recent Medical Discovery.

ST. JOHN, N. B., Aug. 12—The many cases of marvellous restoration to health from various forms of kidney trouble which have been constantly appearing in the daily press of the Dominion have for sometime awakened the liveliest interest here, and the remedy by which the cures were effected namely, Dodd's Kidney Pills, are obtaining great celebrity throughout the province. The appearance of the testimonials of Drs. Rose and McCormick stating the benefits which they had personally derived from their use was considered a sufficient sign of the merits of the remedy, and the other interesting and wonderful cases which have since been chronicled has caused the specific to have an exceptional sale.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished for **35 cents**, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. **They are facts.**

The fac-simile signature of Chas. H. Fletcher. is on every wrapper.
