RELEASE OF THE ST. ALBAN'S RAIDERS.

The grounds for the release are briefly as follows:—

Mr. Justice Coursal said the matter in question was most important, since his authority had been denied. He had given the arguments on both sides his most serious consideration, and had come to the conclusion that the case came under the Imperial act, and that he was bound to obey the Imperial authority in a national question like the one under consideration. The Imperial act was supreme and must be his guide. Under our own Provincial act to carry into effect the Ashburton treaty had not received the special Royal sanction requisite.

The case was a most exceptional one, and being a treaty matter between the two nations, he could not do other than allow our own act to give way before that of the Imperial legislation. The revised Imperial act must rule herein, and that act required that the warrant under which the prisoners where arrested should be signed by the Governor General. If the Court could have reserved the point for a higher tribunal, it would most gladly have done so; but since the liberty of the subject was involved, there admitted no delay. And since he had not the warrant of the Governor General, he had come to the conclusion that the Court possessed no jurisdiction in the case, and he must order the immediate release of the prisoners.

This decision evidently created great astonishment in Court. There are two Canadian acts, one passed May 30, 1849, the other 18th of May 1861, especially to meet the difficulty, but the Judge held that as these had not received the assent of the Queen, he could not regard them in opposition to the Imperial act. The following despatches are published:—

QUEBEC, Dec. 15.—The discharge of the St. Alban's raiders surprised the members of the Government, and the ground of the discharge is pronounced ridiculous. The Magistrate, it is likely, will be severely dealt with. New warrants have been issued by the Superior Court Judge, for the re-arrest of the raiders, and constables are in pursuit. An effective military force is to be sent to the border towns immediately to prevent further depredations.

MONTREAL, 15th.—The conduct of Coursal, the magistrate, and Lemothe, the Chief of Police, is denounced. Lemothe is accused of complicity. An investigation is going on by the Council. It is thought that Lemothe will be dismissed.

TORONTO, Dec. 15.—There is a profound sensation in regard to Coursal's decision in the case of the raiders. The best legal authority pronounce it contrary to law, and it meets with general condemnation.

The following is General Dix's Order. The last paragraph in it is a curious one, and may be meant as a hint to those on the border to do what they are advised not to do:—

HEADQUARTERS DEPARTMENT OF EAST, NEW YORK, Dec. 14, 1864.

Information having been received at these headquarters that the rebel marauders who were guilty of murder and robbery at St. Alban's, have been discharged from arrest, and that other enterprises are actually in preparation in Canada, the Commanding General deems it due to the people of the frontier towns to adopt the most prompt and efficient measures for the security of their lives and property.

All military commanders on the frontiers are therefore instructed, in case further acts of depredation and murder are attempted, whether by marauders or persons acting under commissions from the rebel authorities at Richmond, to shoot down the perpetrators if possible while in the commission of their crimes, or if it be necessary with a view to the capture, to cross the boundary between the United States and Canada, said commanders are hereby directed to pursue them, wherever they may take refuge, and if captured they are — under no circumstances—to be surrendered, but are to be sent to these headquarters for trial and punishment by martial law.

The Major General commanding the Department will not hesitate to exercise to the fullest extent the authority he possesses under the rules of law recognized by all civilized States in regard to persons organizing hostile expeditions within neutral territory, and fleeing to it for an asylum after committing acts of depredation within our own, such an exercise of authority having become indispensable to protect our cities and towns from robbery and murder.

It is earnestly hoped that the inhabitants of our frontier districts will abstain from all acts of retaliation on account of the outrages committed by the rebel marauders, and that the proper measures of redress will be left to the action of the public authorities.

By command of Major General Dix.
D. I. VAN BUREN,
Col. and Ass't Adj. General.

The resolutions introduced into the Senate are as follows:

Mr. Chandler, after making some extended remarks relative to the discharge of the St. Alban's raiders by the Canadian authorities, offered the following:

Whereas, recent raids have been organized in the Canadas and Nova Scotia, and men enlisted in the British Provinces by men purporting to hold commissions from the rebels for murdering and robbing peaceable citizens of the United States, for burning cities and villages, for piratically capturing merchant vessels and murdering their crews, and for a general system of murder, arson, robbery and plunder of peaceable and unarmed citizens of the United States, and

Whereas, the people of the British Provinces seem disposed to protect these thieves, robbers, incendiaries, pirates and murderers not only in their individual capacity, but by quibbles of law, therefore

Resolved, That the Committee on Military Affairs be directed to inquire into the expediency of enlisting an Army Corps to defend our territory bordering on the Lakes and Canadian line from all hostile demonstrations and incursions.

Mr. Johnson objected, and the resolution lays over.

Mr. Chandler said he hoped there would be no objection, and offered another, as follows:—

Whereas, At the commencement of the rebellion the United States were at peace with all Governments of the world, and upon terms of amity and good will with Great Britain, and

Whereas, That nation, before the arrival on her soil of our minister, accredited to the administration of President Lincoln, precipitately acknowledged the rebels as belligerents, thus recognizing their flag upon the ocean, without which recognition it would have been regarded and treated as piratical by the other powers, and

Whereas, She then proclaimed perfect neutrality between a Republic, with which she had entertained friendly relations for upwards of half a century, and its treasonable subjects, and

Whereas, Numbers of her subjects with the full knowledge of her Government, commenced fitting out fast sailing British ships loaded, with munitions of war, for the purpose of running into our blockaded ports to the rebels, thus furnishing them with means of organizing and continuing in rebellion, without which it could not have sustained itself six months, and

Whereas, In addition to the above and with the knowledge of their Government, British subjects and members of Parliament are engaged in the manufacture of piratical English ships, owned by British subjects, manned by British seamen and sailing under British colors, for the purpose of burning, destroying and utterly driving from the ocean all peaceful vessels sailing under the United States flag, and

Whereas, Many private American ships have been burned by these English pirates from English ports, thus causing great damage to citizens of the United States, therefore

Resolved, That the Secretary of State be instructed to make out a list of each ship and cargo thus destroyed, with a fair and separate valuation thereof, and interest thereon at the rate of 6 per cent from date of destruction to date of presentation, and that he be directed to demand from the British Government in full for all ships and cargoes destroyed as aforesaid.

Mr. Johnson objected, and the resolution lays over.

Both of the above resolutions were subsequently ordered to be printed.

Advices from Pernambuco (Brazil), are to the 29th of October. There is nothing new from Rio in regard to the capture of the Florida, and the Pernambuco papers only contain copies of the order issued by government, that all the ports of the country be shut against the Wachusett. The papers also contain copies of the reports made by Captain Mancebo, the officer who was in command of the Brazilian naval force at Bahia, at the time of the capture, and of Lieutenant Varelle, who was sent by him in a boat to order Captain Collids to desist from acts of hostility.

The Toronto Globe says:—These Provinces as compared with other countries, are something like those societies in the old world, which, started by poor mechanics on a capital of a few pounds, have swelled into proportions of which none dared to dream when first the scheme was projected. Our wealth, our capital stock, our population are all small, and our difficulties are great also. By united action, by wise government, by patriotic self-denial, we may elevate ourselves to a position in the world which the very greatest nations will not despise, and which very many will assuredly envy. But if we are determined to stand alone, to know no common interest, to own no common aspirations, to make foreigners of one another, and by inaction to foster the growth of envy and to cherish groundless prejudices, we cut ourselves off from the only future to which we can look forward with patriotic hope, or with just national pride. We may fail, but at any rate the great object to be gained is worth an effort.

Of the Dry Goods trade in New York, the *Tribune* of that city, says:

"The market is generally in a very inanimate condition. The retailers complain of the dullness of trade, and are buying less than was expected; and the jobbers are consequently realizing less demand than they had anticipated. The generally light stocks of goods, however, enable the package merchants to maintain their prices firmly, and especially on cotton goods, so that prices show no change from last week. The commission merchants and importers have nothing to fear, even if the present dullness should continue to the close of the season, as their supply is on the most rigidly conservative basis. The trade in foreign goods moves on slowly and continuously. The auctions are fully attended, but the sales are without spirit, and prices are weak, and at each succeeding sale rather low."

AWFUL DEATH OF A YOUNG WOMAN BY FIRE.—At Hartford, Monday night, Mrs. Amanda Brough, a woman about 24 years of age, was writing a letter to her husband who is at present in Taunton, Mass., by the light of a kerosene lamp. From the appearance of the body and the room it would seem that she had risen to go either out or across the room, and the lamp, being loose in its socket, had fallen out, and the contents igniting, set fire to her dress. She then must have set down in a chair endeavoring to put out the flames, but inhaling them fell over on the floor dead. The body presented a sickening sight, the clothes being entirely burnt off, and the skin scorched until it peeled off. Mrs. Brough leaves one child—a boy—whose second birth-day was the day on which his mother met her untimely end.—*Boston Herald.*

EVERYBODY INTERESTED.—The glory of woman is a fine head of hair, one in which the natural softness, colur and glossiness, are preserved, free from any tendency to falling off and disposition to greyness. Mrs. S. A. Allen's World's Hair Restorer and Zylobalsamum, or Hair Dressing, are the best articles for attaining that end, and no lady's toilet is complete without them. This is the testimony of those who use them, both in the United States and Europe. Millions of bottles sold every year. Every Druggist sells them.—W. R. WATSON, Agent.

ELEVEN CHILDREN IN FOUR YEARS.—We met a widow woman yesterday, only 21 years old, and yet the mother of eleven children. She was a refugee from Tennessee, and married when she was but 15 years old, and in nine months thereafter was the mother of three live healthy children. In the next twelve months she gave birth to twin girls; then inside the next twelve months, she was the mother of triplets again, two boys and a girl; then, after a pause of eighteen months, she presented her husband with another round of triplets, two girls and a boy; and she arrived in our town with the entire lot. Her husband lost his life at the battle of Stone river, and she and her interesting and bright-eyed little merry group were left to find their way, upon the charity of our people, to her friends in the middle portion of Illinois, where she expects to be placed beyond all such humiliating necessities.—*Cairo Democrat.*

The effect of the present unhappy war is showing itself upon the maimed limbs of Canadians, as well as Americans. Last night, four once strong and healthy young men passed through the city *en route* to their homes. One had a broken leg; one was minus an arm; another had a wooden leg, and the fourth was wounded in the head. Sad effects of war!—*London Advertiser, C. W.*

The papers say that the rapid growth of the city of Philadelphia renders it difficult for the gas works to yield sufficient gas for the wants of the consumers. In 1860 there were 639,500,000 cubic feet manufactured.—In 1861 the quantity fell off about 6,000,000,000 feet. It went up again in the year 1862 to 656,987,000 cubic feet, and in 1863 to 735,000,000 cubic feet. The number of consumers appear to have fallen off, however, since 1861.—In that year there were 11,100 applicants, while in 1862 there were only 9507, and in 1863, 9581. As compared with 1869, when there were 3523 applicants, the increase in 1863 was very decided.

Ayer's Cherry Pectoral,

For the rapid cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in the advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other expectorant is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits upon the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

We can only assure the public, that its quality is carefully kept up to the best it ever has been, and that it may be relied on to do for their relief all that it has ever done.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparralleled usefulness of our remedies, but space here will not permit the insertion of them. The Agents below named furnish, gratis, our AMERICAN ALMANAC, in which they are given; with, also, full descriptions of the complaints they cure.

Those who require an *alterative medicine* to purify the blood, will find AYER'S COMP. EXT. SARSAPARILLA the remedy to use. Try it once, and you will know its value.

HOLLOWAY'S OINTMENT AND PILLS.—Marvellous cures of sciatica, stiff joints, paralysis of the limbs, and other crippling diseases of the bones, sinews, and muscles, have been accomplished by Holloway's Ointment. It is the only Unguent which produces any impression on these complaints. The pills also work wonders. The Ointment and Pills should be used at the same time, for the action of the one is greatly assisted by that of the other. Why should any human being suffer from the above-mentioned maladies, when Holloway's Ointment and Pills are to be found in every city and town in the world? These noble medicaments are composed of rare balsams, and are as benign and safe as they are powerful and efficacious.

NEGLECTED COUGHS AND COLDS. — Few are aware of the importance of checking a Cough or "Common Cold," in its *first stage*; that which in the beginning would yield to a mild remedy, if neglected preys upon the Lungs. BROWN'S BRONCHIAL TROCHES, or COUGH LOZENGES, afford instant relief.

JUDSON'S MOUNTAIN HERB WORM TEA.—The following is an extract from a letter received by us from Dr. Rush of this City. it speaks in trumpet tones for this great remedy; read it—"As I before remarked I have used Your WORM TEA in my practice:—now I never said a word in favor of a Patent Medicine before, but I think it just to say to you that your medicine is no humbug, I have tried it and I know it will do all it claims. It must be one of the most successful medicines of the day, for it is most valuable, those who have children should never be without it.—Sold by all Dealers,—25 Cents per Package.

Richmond papers of Wednesday last have reached Washington. The *Examiner* of that date has the following:—

"The military drama in Georgia is drawing rapidly to a close. Gen. Sherman is at last approaching the coast, whither he has been travelling for twenty five days. Whether he completes his journey or not depends very much upon events to happen this week.

There are troops in his front who will resolutely dispute his further advance towards Savannah or Darien after he passes a certain point. It is reported that his advance was skirmishing yesterday (Tuesday) morning with our outposts. We do not know what Sherman may do when he finds a formidable force in his front, but are disposed to believe that he will discard strategy and attempt to break the lines of his opposers. Let him do what he will he will certainly feel that never was a general in a more critical position.

The New York *Tribune* says, "The reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced." &c.

The *Tribune* just hits the nail on the head The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size. At least twenty imitations and counterfeits have sprun up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an *immediate* beneficial effect. Facts are stubborn things.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefitted by their use.
Thy friend, ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y."

"* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.
SYKES, CHADWICK & CO.,
Proprietors Willards's Hotel, Washington, D.C."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldier's Home, Cincinnati, O."

"* * * The Plantation Bitters have cured me of liver complaint, with which I was laid up prostrate and had to abandon my business.
H. B. KINGSLEY, Cleveland, O."

"* * * The Plantation Bitters have cured me of a derangement of the kideys and the urinary organs that has distressed me for years. It acts like a charm.
C. C. MOORE, 254 Broadway."

NEW-BEDFORD, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicines failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner. Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.
Respectfully, JUDITH RUSSEL."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself, and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume The best evidence is to try them. They speak for themselves. Persons of sedentary habits, troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of re-filled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an impostor. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.
