

Col. Secretary, from John Bell and others, residents of Covehead. By Mr. Perry, from inhabitants of Lot 17.

Correspondence.

To THE EDITOR OF THE EXAMINER. Sir.—May I be allowed a small corner in your next issue for the purpose of defending myself against the unwarrantable attack made on my conduct as a public man, by Mr. Kenny, for daring to oppose a petition from the Third Master of the Academy, praying for a higher salary than he is at present receiving.

Mr. Kenny, your memory is unsurpassed, your talent and wit unequalled by any one in this Colony! Why, Sir, you show a little of it even in the division on Mr. Lepage's petition. You keep your real friends in the back-ground. Why not bring out in bold relief the names of Messrs. Douse, Yeo and Longworth? But you would rather write against me than make free with their names.

Now, Mr. Editor, from the statement made by Mr. Kenny, you would suppose I am an enemy of education; that assertion I leave to the public, who are the judges, and not to Mr. Kenny. How sore he feels at not being well paid, I have seen a paper, dated the 6th of February, entitled the "Educational Gazette," in which appears the following notice:—"The head mastership of a grammar school in Melbourne, Victoria; salary (guaranteed for three years) £100, with a suitable residence. Candidates to be graduates of Oxford or Cambridge, and if married, and having had experience in the conducting of a public school at home, preferred. The appointment to be for five years, and renewable for a like period. Application to be made to the Rev. T. Cooper, Trinity College, Cambridge, by the 20th instant. The names of three clergymen, or other gentlemen, to be given as references. Not more than two written testimonials will be attended to."

And, Mr. Editor, these applicants must be competent persons to instruct the youth in Greek, Latin and Elementary Mathematics. There is, Mr. Kenny, a fixed salary in Great Britain and Melbourne; and in Prince Edward Island—a poor, poor Colony, comparatively speaking—it is not proper for you to come out grumbling about your salary. If you were acquainted with the country people's wants, you would be ashamed of your letter. Although you are a good swimmer, your chin was well held up. I came to this country twenty-four years ago, made Flinty Glen my home, and reared my young hopefuls, as you call them, independent of your shaving establishment, or any other establishment of the kind; and if my young hopefuls will only take their father's counsel, whether their acquaintance with books is on a large or small scale, they will be no disgrace to the land that gave them birth.

I am, Sir, yours, &c., ROBERT MOONEY, Flinty Glen.

THE EXAMINER. CHARLOTTETOWN, MARCH 17, 1856. Our readers will perceive that our present No. is almost exclusively taken up with a record of the proceedings of the House of Assembly. We trust it is not necessary to offer any apology for devoting so much space to those proceedings, as we are satisfied the great majority of our readers must be desirous of knowing how the business of the country is progressing; at a period like the present. On our first page will be found the debate which occurred on Mr. Haviland's motion for the production of the whole of Sir George Grey's despatch respecting the rejected Bills. The views of the supporters of the Government, as well as those of the minority, are therein fairly shadowed forth, and it is therefore unnecessary to occupy space here in recapitulating opinions advanced on either side. On the fourth page will be found the debate on the choice of a site for the Ferry Wharf, in which affair many of our country readers are greatly interested; and on the same page will be found the scale of road appropriations for Prince County, which will, of course, be found interesting to our readers in that quarter. The scales of appropriations for King's and Queen's Counties will be given in our next No.

There was very little business done in the House of Assembly during the past week, owing to the absence of many members attending the Georgetown Court. We are rejoiced to say, however, that the actual work of the Session is so far completed, that the Legislature may be expected to be prorogued in a fortnight hence.

New MAIL ROUTE.—We are happy to be able to announce to our readers that the Government have had in contemplation for some time the propriety and necessity of changing the Mail route between this Island and Nova Scotia, selecting Tatamagouche, which is directly opposite to us, instead of Pictou, as the place for landing and receiving the Mails; and running a Steamer daily to that place. We believe the views of the Government are so far matured upon this very important subject, that they may be submitted to the Legislature in the course of a few days; and we have no hesitation in saying that

on a subject involving so many important public interests as a rapid and efficient mail communication with the other Provinces, the two Houses of Legislature will promptly and almost unanimously co-operate with the Government. One of the many great advantages of the proposed route is, that Tatamagouche will be a convenient rendezvous, and far more so than Pictou, for persons travelling towards the Island from either Nova Scotia or New Brunswick.

BENEVOLENT IRISH SOCIETY.—The annual meeting of this Society was held at their usual place of meeting on the 10th instant, when a report of the proceedings of the Society for the past year was submitted, embracing a detailed account of the numerous persons relieved out of the funds of the Society. Office Bearers for the ensuing year were then elected as follows:— President—William S. Mitchell.

ARRIVAL OF THE ENGLISH MAIL. The English Mail, with dates to the 1st instant, arrived here on Saturday night, about half past 11 o'clock. There is no news of any importance. The Peace Conference had commenced their sittings in Paris, and an armistice was concluded, to extend, however, only to the end of the present month. Any other acts or proceedings of the plenipotentiaries were wholly unknown. There was no news from the Crimea. Our readers will find below such items of general intelligence as appeared to be worthy of note.

LATEST FROM ENGLAND. Corals improved on the announcement of the new loan, 914, but afterwards declined to 904 & 903, at which quotations they closed. Baron Brunow is reported to have said that Russia is sincerely desirous of peace, but if peace be not made within three or four weeks, as gathered from the opening of the conference, serious difficulties might interfere with the final settlement of the question.

UNITED STATES. GREAT LOSS OF LIFE BY SHIPWRECKS.—A letter from Capt. Freeman, of the barque Yarmouth, of Boston, dated Gibraltar, 12, says that there were nearly one hundred vessels ashore between Cape de Gat and Cadiz, and it was estimated that five hundred lives were lost. Capt. Freeman's vessel was also lost in Gibraltar.

THE INDIAN WAR IN OREGON.—The Commissioner of Indian Affairs has received a letter from Superintendent Palmer, dated Dayton, Nov. 12, in relation to the hostilities with the Indians. He says, in the popular phrenzy the peaceful as well as the hostile bands of Indians are menaced with extermination. Should the present campaign in Washington Territory and Middle Oregon prove unsuccessful, it will be well nigh impossible to save the Indians of this valley from the fury of the inhabitants.

THE NEW YORK AND ERIE COMPANY are paying \$2000 a day for forage for cattle detained on the road by snow.

COLONIAL NEWS.

HALIFAX, March 1. Capt. George Lewis, of P. E. Island, who came passenger in the America, reports having passed on the 19th inst., when three days out, a steamer which having no bowsprit and a straight stem, was supposed to be one of the Collins' line. She was standing to the eastward and appeared to be going slow. The distance between the two steamers when they passed each other was about thirteen miles. There is some difference of opinion as to whether the stranger did or did not show her colours in the rigging. There was of course no apprehension as to the safety of the Pacific in England, which fully explains why the latter did not alter her course, and ascertain the name of the steamer sighted on the 19th. We are happy to think that there can be no doubt, that the ship thus seen was the missing one making the best of her way back to a port in either Ireland or England. The next steamer at New York will solve the problem.

NEWFOUNDLAND.—The weather is intensely cold in Newfoundland—the harbour of St. John's was frozen over down to the narrows, and there was ice a mile off the coast.

MECHANICS' INSTITUTE.—On Tuesday evening last the Rev. R. S. Patterson, A. M., delivered a very useful lecture on "The acquisition of Knowledge."

MARRIED. On Thursday, 6th instant, by the Rev. Charles I. Burnett, at the residence of the bride's father, Mr. Peter McLaue, Lot 49, to Miss Catherine Stewart, Lot 48.

DECEASED. This morning, 17th March, at Haydensville, in sure and certain hope of the resurrection to eternal life, Jane, wife of Mr. Alexander Hayden, aged 63 years. Her loss will be greatly felt and deeply deplored by her bereaved husband and their numerous family, but "The memory of the just is blessed."

DECEASED. At Thomesford, Canada West, on the 25th Jan., Rev. N. Bothune, formerly of Murray Harbour, Prince Edward Island.

PASSENGERS. In the Ice Boat, on March 15th, from Cape Tormentine to Cape Traverse.—H. E. Starbird, Boston; George Butcher, England.

SHIP NEWS. The Schr. Romp, Swain, Master, from P. E. Island for Boston, with cargo as per bill of lading, put into Yarmouth Sound, 19th inst., with five feet water in her hold and in a disabled condition, having lost bowsprit and head sails, in a gale off Mount Desert the previous day. The leak was about the bows, occasioned by carrying away the bowsprit; and as both anchors and chains had been thrown over to lighten the vessel forward, when she came round Cape Island under foremast, wind N. W., an attempt was made to run her ashore as far up the Sound as the wind would permit her to go. Owing to the drift ice, she only got within hauling distance of the shore, and the vessel lies afloat in the ice above Sandy Point. The crew got on shore on the 1st inst., having a line from the vessel to the shore. The probability is that both vessel and cargo will be lost, unless the Steamer Eastern Star can reach her—annatempt is being made to cut the steamer through the ice. This is but one of a series of disasters that have befallen the Romp, on her present voyage. She left P. E. Island, some eight or ten weeks ago, and has since been into both Halifax and Cape Negro, for repairs.—Yar. Tribune, Feb. 20.
