East Prince Junior Farmers Hold Meeting

The regular meeting of the East Prince Junior Farmers Association was held at the Department of Agriculture offices in Summerside on Thursday evening with the president, Glenford MacLean in the chair. Despite the inclement weather there was a good attendance.

After considerable discussion the meeting decided that a business and social meeting would be combined on the second Thursday of each month. They will be held in the members' houses for the winter. Allison and Glenford MacLean offered to have the next meeting on February 13th.

Immediately after the meeting the group left for a tour of Maritime Greenhouses Ltd. With arrangements being made by a committee headed by Bruce Small. The proprietor, Mr. Wally Walwyn, conducted the tour and explained the origin and management required for successful flower growing. He said they sterilize the soil annually with steam, by covering the soil with tarps to raise the temperature to 160 degrees which insures soil purification. The best results are obtained by using 20-20-20 fertilizer and island soil is best for flowers.

Mr. Walwyn told the Junior Farmers that there were only four graduates in horticulture at the Ontario Agricultural College at Guelph in 1957, therefore the demand is greater than the men available in the field.

Canada imports 120 million dollars worth of flowers from December to April. He stated that the flowers in Tampa, Florida were heavily damaged by frost recently. Mr. Walwyn concurred the tour with a demonstration on packaging mums and was thanked on behalf of the group by Urban Laughlin.

Doukhobors Seek Russian Home

MOSCOW (Reuters) — Four Sons of Freedom Doukhobors from British Columbia have arrived here to negotiate with Russian authorities on the possibility of a mass move of the sect to new homes in the Soviet Union. "It is true that we are here to talk about settling in the Soviet Union but it is improper for me to make a statement at this stage," delegation leader Bill Mooljelsky said Thursday.

Preferential

(Continued from page 2) was more or less a foregone conclusion that when the new quota of 600,000 bushels was reached, shippers would be required to pay the 75 cents tariff instead of the 37 1/2 cents enjoyed under the quota. He said the present system of an intermediary tariff of 60 cents made a happy situation for island shippers which enabled them to still continue shipments to the States.

Music Critics Have Praise For New Opera

NEW YORK (AP)—The music critics generally agree that Vanessa, a full-length opera written by an American and given its world premiere Wednesday night at the Metropolitan Opera House, has the beauty, style and melodic depth to make it a major operatic work.

It was the first American opera produced by the Met in 11 years. The music was written by Samuel Barber. His close friend, Gian-Carlo Menotti, provided the libretto. John Chapman of the New York Daily News hails the production as a work of considerable vitality, both musically and dramatically.

Howard Taubman of the New York Times says Vanessa... "is professional; it has atmosphere; it builds to a moving climax." Paul Henry Lang of the New York Herald Tribune terms the new work "a major contribution to the international operatic repertory."

Eleanor Steber sang the title role, Nicholai Gedda was in the male lead. Dimitri Mitropoulos conducted.

The period of the opera is in 1905. Beautiful Vanessa (Miss Steber) pines for her missing lover, Anatol (Gedda). Anatol's son, of the same name (and also sung by Gedda) comes to see what his father's glamorous mistress is like since Erik's return. He has after a brief romance with her and falls in love with her himself.

Units of the Sixth Submarine Squadron will join the fleet for the manoeuvres. A squadron of twin-engined Trackers and helicopters make up the 20 aircraft. No Y. M. C. A. In S' Side But Lots Of Enthusiasm

January 19th, to January 26th, has been set aside in Canada as national Y.M.C.A. week, although Summerside does not have an official Y.M.C.A. as such, the Green Street "Y" center, owned and operated by the Summerside Y's Men's Club has been fulfilling many of the functions of a "Y."

Under the direction and sponsorship of the Y's Men, three Boy Scout troops, four Wolf Cub packs, and three Hi-Y groups, as well as the Y's Menettes and the Y's Men themselves, use the Y Center as their meeting place and as a base for their many community service projects.

Y-CENTER

The Y Center is used by some 300-400 people, with 13 meetings scheduled per week, not to mention many committee meetings necessary in carrying out the Y.M.C.A. program in Summerside.

The Summerside Y's Men's Club, which had its beginning back in 1937, has just finished one of its busiest years in its 21 year history. Besides being the sponsoring body for Boy Scout troops and Wolf Cub packs, the Y's Men supply the leaders for this youth work, which includes conducting a summer camp at Fernwood. Three Hi-Y groups, begun and sponsored by the Y's Men, have proven to be very popular with the youth of the town. Regular Saturday night dances are held by the Hi-Y groups, with Y's Men and Y's Menettes acting as chaperones.

CLASSES HELD

Of late years, swimming and water safety classes have been jointly sponsored by the Y's Men and the Red Cross, and have been instrumental in teaching hundred of youngsters and adults how to swim and conduct themselves in the water.

The Y's Men's nativity scene has become a familiar landmark during the Yuletide season in Summerside — a reminder of the true meaning of Christmas while the patients of the Prince County Hospital are yearly treated to the sight of their own Christmas tree, erected and decorated each year by the same group.

The hospital patients also enjoy movies at regular intervals which are brought to them by the Y's Men, and shown on the club's projection equipment. Little League Baseball and Little League hockey both benefit from the support and leadership supplied by the Y's Men as one of the sponsoring groups. Besides all these service activities, and projects — wherever the need arises.

SUPPORT To pay for all these undertakings, which must include the upkeep of the newly enlarged Y Center, the Y's Men annually conduct a radio auction, fiddling and street-dancing contest, sell automobile license "booster" plates, life savers, and carry out the distribution of business circulars throughout the town, as well as by sponsoring an occasional movie or live show deemed to be worth while.

In late years, the club has, along with other local groups, backed the now famous Lobster Carnival, and worked to help make it a success.

From such an enthusiastic club, it is not surprising that several of its members have, at one time or another, held posts in the Y's Men's movement at district, regional, and international levels.

The present district governor for P. E. I. is Summerside club member Frank Cameron, while another member, Charles Linkletter, was international young adult work director.

Four charter members still remain with the club, George T. Clarke, Harry Holman, Dick Hinton, and Summerside's Mayor, Bill Currie.

This week marks the inauguration of yet another Y's Men sponsored group, SO-ED, which can-
