A GENTLEMAN who had been to New Glasgow says that Doughty did not meet with a very warm reception in that town, but took occasion to inform the people that Windsor was the "meaneast and most contemptible place he was ever in," and mind you Doughty has travelled some too!

FIVE men were run over by a hand-car on the Caraqueet Railway, near Bathurst, on Monday. While going along at a fair rate of speed the planks with which the car was seated gave way and broke, precipitating the five men on the rails directly in front of the car. One was instantly killed, and the remaining four were more or less injured.

A CORRESPONDENT writes:—"A challenge fight took place, a short distance from Mount Stewart, on the evening of the 5th inst., and a crowd of spectators from all parts, between the champion pugilist of Mount Stewart and that of Hillsboro, resulting in the defeat of the latter, very much to the joy and delight of the former.

ONLY THINK OF IT.—The bay colt "Aegon," foaled April last by "Nutwood," 2 1/2, was sold a few days ago from Highland Stock Farm, where "Nutwood" is now owned, for \$2,500, to N. M. Hubbard, Cedar Rapids, Iowa. Also, the "Nutwood" colt "Coast Ranger" was sold recently from same farm for same price. These figures surely prove it pays to breed the very best.

BATHURST, N. B., had a visit from a victim or morphine last Saturday. His name was C. Locheon. He hailed from France, and said that he had tramped all the way from Shediak. He was in a very destitute condition, and despondent. He was lodged in jail, and on Monday night was sent away by the poor authorities to Rimouski, where he wished to go. Locheon was known to many people in Charlottetown, having been on the Island since last year. He was an expert with the pen, and did some work for several prominent citizens. He disappeared rather suddenly about two months ago.

SALVATION ARMY NEWS.—Capt. Wolley writes to the War Cry from Campbellton: "I wish you could only see the change God has wrought in this town I am sure you would thank God for the Salvation Army. Since our coming here nearly two hundred and fifty sinners have been saved, and a great number of Christians have been sanctified. The other night one of the soldiers said he felt as happy as a frog in a mud puddle. Captain Armstrong, of the Salvation Army, formerly in charge of the Kentville corps, was convicted at New Glasgow, N. S., recently, for assault on a man named Simpson. The Carleton Sentinel is inclined to think that it is a reasonable objection to the street parade methods of the Salvation Army, that their noisy demonstrations may, and frequently do, disturb seriously, persons who are ill, living on the line of march.

The Alberton correspondent of the Halifax Herald writes: "We have exciting times here putting down the sale of liquor. The government inspector, who is prosecutor under the Scott Act, gives his whole attention to the rum sellers of Alberton, although in a large county like Prince, one would think he ought sometimes have business in other parts of it. I have been informed that Alberton is the stronghold for whiskey selling in the county and when the illicit sale of it is stopped in this village, other parts of the county will have to cave in at once. Too much credit cannot be given Mr. McCaull, the prosecutor, for the way in which he handles his cases, especially in the lawyer like manner in which he cross-examined some of our backward witnesses. In listening to Stipendiary Gordon giving his decision in Scott Act cases, you would imagine you were transported to New York listening to Justice Duffy in the police court of that city."

TELEGRAPHIC NEWS.

(SPECIAL DESPATCHES TO THE EXAMINER.)

QUEBEC.

Islanders Ahead in "A Shift."

GOOD SECONDS IN OTHER COMPETITIONS.

QUEBEC, Sept. 8.

In the Big Gun Competition on the Island of Orleans, the Island team made the "A" Shift in ten minutes and forty seconds; the Montreal team coming next in 11:28; Halifax 14. New Brunswick has yet to compete.

The Island team made the "B" shift in 10:40; Montreal, 10:16; Halifax 17. In the 64-pounder rifle muzzle loading gun competition, the Island team made 158 points; Montreal, 163; Quebec, 149.

In the 40-pound rifle breech-loading gun, the Islanders made 138 points; Montreal, 145; Quebec, 110; Halifax, 128. Other teams are yet to compete.

ANOTHER ACCOUNT.

QUEBEC, 7.

The New Brunswick Artillery men will shift tomorrow, and will fire the same or following day. The scores so far are as follows: P. E. I. Brigade "A" shift, time 10:40. P. E. I. Brigade "B" shift, go-as-you-please, time 10:40. Montreal G. A., "A" shift, time 11:28; Montreal G. A., "B" shift, time 10:16. Firing scores: No. 2 Battery, Quebec, 64 gun, 117 points—40 gun, 91 points.

No. 1 Levis, 64 gun, 149 points; 40 gun, 110. No. 2 Levis, 64, 110 points; 40, 75 points. No. 5 Halifax, 64, 139 points; 40, 128 points. No. 1 P. E. Island, 64, 141 points. No. 2 P. E. Island, 64, 158 points; 40, 112 points. No. 1 Montreal G. A., 64, 94 points. No. 4, Montreal G. A., 64, 66 points.

It will be seen that some wonderfully correct firing has been made, and the shifting has been done at marvellously good time. The Halifax detachment is now going through their shift. They are able men, but judging by their drill cannot succeed, at least in the "A" shift.

The Hackett-Perry Case.

SUMMERSIDE, Sept. 8 (3 p. m.)

The Court opened here this morning at 11 o'clock, Mr. Justice Hensley presiding. Mr. Hodgson, after the usual preliminaries, opened the petitioner's case, and concluded an able address at half-past two. Mr. Fred. Peters then opened for the respondent, and is now addressing the Court. The points he is elaborating are: 1st. That Perry was not a member of the Provincial Legislature, because he had not been sworn in. 2nd. That the ferry contract with Crasman vacated the seat.

His speech will probably occupy the largest part of the afternoon, and the sitting of the Court will probably be continued to-morrow.

There is a large and interested crowd in court.

Another University.

BALTIMORE, Sept. 7.

A meeting of the trustees of the proposed German Catholic University at Cardinal Gibbons' residence to-day, selected Washington as the site. Plans were adopted and work will begin this fall. Right Rev. Dr. Keane, Bishop of Richmond, was elected first rector. The building committee consists of Archbishop Williams, of Boston; Bishop Keane and Thomas Waggaman and a collecting committee, including all the Archbishops and Bishops in the United States was appointed.

Political Activity.

LONDON, Sept. 7.

The Union-Conservative Clubs have arranged an autumn campaign to cover the whole country. Meetings will be held in 220 towns, 65 members of Parliament have consented to take the stamp. This will be the greatest effort ever made by the Conservatives.

The Liberal leaders have decided to challenge the legality of the proclamations forbidding the League and other meetings.

Terrible Storm.

UTICA, N. Y., Sept. 7.

A terrible storm passed over Worcester County to-day. Amos Cornell was lifted off his feet by the wind and thrown against a barrel 25 feet distant and killed. Two other men were severely injured. Houses, barns and crops were destroyed. At Norwich, N. Y., houses were unroofed and overturned, hop fields devastated, and several barns struck by lightning and burned.

A Sad Funeral.

LONDON, Sept. 8.

The public funeral of the victims of the Exeter Theatre fire occurred yesterday. There were 52 caskets, containing the identified bodies, and fourteen, containing unrecognised remains. The streets through which the funeral passed were lined by a silent crowd.

Scarlet Fever Epidemic.

LONDON, Sept. 7.

There is a scarlet fever epidemic here. Eleven hundred and twenty cases are reported. The fever hospital is full.

Weather Bulletin.

TORONTO, Sept. 8—10 a. m.

APPLICATIONS for admission to the National Conservatory of America (128 E. 17th St., N. Y.) will be received up to noon of Sept. 10th. After that date no further applications can be entertained before January 1st. The session extends to 1st of June. Tuition free, on certain conditions. aug13

The Century.

The Century Magazine for September contains two very interesting articles by Frank R. Stockton and J. G. Nicolay on "Monticello," the home of Thomas Jefferson. Mr. Nicolay, in his paper, writes of the earlier years spent by Jefferson at his beautiful and unique home, and Mr. Stockton treats of the later days of Monticello. The articles are both fully illustrated and show with much completeness the interesting and curious features of the house designed by Jefferson—as well as the University of Virginia, also planned by him. An admirably executed portrait of Jefferson, engraved by Harry Fenn, accompanies the papers, and forms the frontispiece to the magazine. Two attractively illustrated and well written papers are those on amateur photography by Alexander Block, and D. W. Huntington. Mr. Block sets forth the increasing interest taken in amateur photography and Mr. Huntington relates the doings of the Cincinnati Association, for the "Increase of amateur photography." The illustrations, all specimens of amateur work, are very beautiful, and embrace a number of subjects. The second and concluding part of Mr. Hopkinson Smith's and J. B. Millet's description of a summer trip, bearing the significant title, "Sketches through Jersey," is even more entertaining than the first instalment. Not only do the writers succeed in presenting the holiday humor and "good times" generally of the excursionists, but they also give a clear insight into a world little known, that of the canal folk. The illustrations, by Hopkinson Smith, George Wharton Edwards and C. H. Perry, realize and supplement the text. The Constitutional Centennial to be celebrated this month, 1887, is taken note of by an article in the "Framers and Framing of the Constitution," contributed by Professor John Bach McMaster which contains an exhaustive account of the original constitution and its framers and also of all the amendments and changes made up to the present administration. The Lincoln History reaches a period of special current interest, the nomination and election of Lincoln. The two Baltimore conventions and the Chicago convention that nominated Lincoln, the campaign that followed, and a number of famous letters pertaining to the subject at hand are included in the present instalment. The numerous illustrations consist of representations of men of the time and of drawings of some of the more important places connected with various escapades in Lincoln's life. Professor Atwater, in his fourth paper on the "Chemistry of Food and Nutrition," deals with a much discussed, much abused subject, the digestibility of food, and gives the results of his own experiments and also a summary of the latest scientific knowledge on this point. Charts and tables illustrating certain important facts add interest to the paper. The next papers take up "The Siege of Petersburg," and consider it thoroughly from all points of view, and are carefully and valuably illustrated. "The Hundredth Man," by Frank R. Stockton, does not lose in interest as it draws to a near conclusion. Joel Chandler Harris contributes the second part of his powerful story "Azalia," and Harriet Lewis Bradley writes up or rather down the overworked young American girl in an amusing story entitled "Helen." Among the poems and contributions from Robert Underwood Johnson, T. W. Higginson and M. Virginia Donaghe. In "Topics of the Time" the First Century of the Constitution, the late Dr. Hopkins, and the query "Shall we plant native or foreign trees?" come into consideration. In "Open Letters" the Centennial interest is continued by two communications on the relations between the state and the general government. Other letters on timely and interesting subjects are also printed. "Bric-a-Brac" has its usual fund of wit and wisdom, supplemented by a cartoon by Kemble. Published by the Century Publishing Company, New York.

Why the Columbus Watch is the Best

THE Main Spring barrel is completely covered, making the watch perfectly dust proof.

There can be no interference between the Balance and the Barrel. The Regulator is nearly double the length of others, rendering accurate regulation a very simple matter.

To replace a broken Main Spring, the Barrel can be removed without disturbing the Balance or interfering with the regulation.

The pins of the Regulator are so formed and located that two or more coils of the Hair Spring cannot catch between the Pins and cause the Watch to stop or gain time at an unusual rate.

The Balance comes under the round, or edge, the strongest part of the case, not as with all others, under the center and weakest part.

The Main Spring Power is the lightest used in American Watches.

The calculation of the Train is such that this Watch runs 8 to 10 hours longer than others, with one winding, giving more uniform power and rate.

These are improvements that cannot be claimed by any other manufacturers, and once seen, all must agree with us in saying that this is the strongest and best Watch made; and with all the above improvements, the Columbus Watches cost no more than others.

G. H. TAYLOR, Jeweler, Charlottetown, P. E. Island.
