

Local and Other Items.

THE HAYDN QUARTETTE are in Moncton to-night.

WARM.—It was 94° in the shade at Fredericton on Sunday, and 92° at Shediac.

YOUNG LADIES' JOURNAL.—This excellent monthly for June is at the Diamond Bookstore.

SUMMER CARNIVAL.—The 22nd July—two months from to-day—has been set apart for the opening of the Summer Carnival in St. John.

SHOULD BE REMOVED.—The pile of rubbish on Richmond Street, alongside Queen Square fence is not calculated to add anything to the beauty of the surroundings.

NEW COURT HOUSE.—Toronto is to have a new Court House. A by-law to add \$900,000 to the \$100,000 already voted for that purpose, was carried on Saturday.

SHOOTING.—The annual shooting competition of No. 3 Co., 82nd Battalion, for the Company's Silver Cup, will take place on Wednesday next, 29th inst., at one o'clock, sharp.

THE Merchants Bank of P. E. Island will do business on and after to-morrow in the "old bank building" on Great George Street. The premises have been thoroughly repaired.

MILITARY.—Officers and non-commissioned officers of No. 3 Co., 82nd Battalion, are requested to meet at Capt. Stewart's this evening, at 8 o'clock, sharp. A full attendance requested.

THE BUILDING BOOM.—A large number of new buildings are being erected in New Glasgow, N. S., this summer. Last year the expenditure was \$40,000; the amount of this season is expected to fully equal last year's.

GONE FISHING.—A number of sports left town last evening and this morning on a fishing expedition. Some tall stories may be expected when they return. We trust that none of the fishermen will cut up the wrong boots.

PUNISHING DRUNKENNESS.—Nine arrests were made last week, says Saturday's Chatham World, and four have been made this week, all for drunkenness and creating a disturbance in the street. The men were fined \$5 each, and given two weeks to raise the money. That's how they do it in Chatham.

THE SHORT LINE SURVEY.—Mr. Vernon Smith, C. E., who is charged with the duty of surveying the route of the Short Line from Harvey, in York county, to Salisbury or Moncton, is in Moncton, and will enter upon the work at once. A thorough survey will be made to enable a close estimate of the cost and saving of distance to be made. The work will be commenced at the Harvey end of the line.

ASSAULT AND BATTERY.—John B. Ball, of Rice Point, had six young men named John A. McDougall, James Taylor, Malcolm McClellan, Wm. Taylor, David Taylor and Duncan Campbell, belonging to the same place, brought up for assault and battery yesterday. The case was heard before two Justices of the Peace in the office of J. T. Mellish, Esq. The alleged offence was committed on the 10th inst. A number of witnesses were examined and judgment was deferred until Friday next.

BROUGHT HOME FOR INTERMENT.—The body of the late Mrs. Joseph H. McNeill (nee Sadie Wilson) arrived here last evening at 8.45. A large number of citizens, together with a goodly representation of Oddfellows, of which institution Mr. McNeill is a member, assembled at the station. The Committee took charge of the body, removing it to the hearse and from the hearse to the residence of A. McNeill, Esq. This afternoon at 3 o'clock all that was mortal of this popular young lady was laid to rest in the People's Cemetery. A deputation of Oddfellows attended the funeral, each wearing a crape badge on the left arm.

HOLIDAY IN THE STORES.—A whisper has reached us that there is a disposition on the part of some of our business men to keep their stores open on Saturday next. We hope this is not well founded, as the employees have, no doubt, worked well through the busy spring—many even sacrificing their usual holiday (Good Friday) for their employers' benefit. It is, we think, as usual that they should be given a holiday, but that on the Queen's Birthday, we understand a movement will be made to secure the co-operation of all the leading stores to this effect, and trust that it may be successful. (Since writing the above the advertisement in another column has come to hand.)

PERSONAL.

James Lawrence Carew, member of parliament for North Kildare, Ireland, imprisoned for offences under the Crimes Act, has been liberated a month in advance of the expiration of his sentence, on account of ill health.

Nepotism appears to afflict President Harrison. To date his record is: "The appointment of his brother to be a United States Marshal. The appointment of his son's father-in-law to a \$5,000 place in Utah. The appointment of his own father-in-law to a Federal office in Washington Territory. The dismissal of a man in the Pension Office at his father-in-law's request."

An exchange says: We are proud of our schools, but after all the printing office is the world's best school. It has turned out some of the world's best and most brilliant men. Was Whitman, David R. Locke (Petroleum V. Nasby), Joaquin Miller, Bret Harte, Mark Twain, William D. Howells, Horace Greely, and John Chandler Harris (Uncle Remus), once worked at the case and were known as jour printers.

The Empire's special cable, dated London, May 15, says: Lord Sudely raised the question of the Esquimaux defences in the House of Lords to-night. Lord Edinborough, on behalf of the Government, admitted the importance of the subject, and said that last year's agreement between the Imperial and Dominion Governments had been modified. The Dominion Government find it difficult and expensive to provide a garrison; the Imperial Government has therefore decided to provide a Royal Marine Artillery garrison, under command of three officers, at the annual maintenance charge of £7,000 to the Dominion Government. The men and officers left for Esquimaux three days ago, excepting the submarine miners who have not yet completed the drill. Armaments are now on the way. His Lordship could not say exactly when the fortifications would be completed. Lord Sudely gave notice that he would renew the question when enough time had elapsed for the completion of the defences.

SPECIAL DESPATCHES TO THE EXAMINER.

Our Halifax Budget.

HALIFAX, May 21.

Advices from St. Pierre to the Herald state that two French fishing vessels, the Ella and Quatre Freres, which left France some time ago for the Newfoundland fisheries, with 175 men on board have been lost. All hands are undoubtedly drowned.

C. W. Knowles, a leading citizen of Windsor, died to-day of consumption, aged 40 years. He was edited and edited the Windsor Mail and Windsor Tribune, and carried on large bookstores in Windsor and Halifax.

The cruiser Vigilant, Capt. Charles T. Knowlton, sailed to-day on fishery protection service. Her headquarters will be Canada.

Members of the Vanderbilt family propose spending the summer in Halifax. Negotiations are going on for renting a residence.

Rev. Walter Cristinis, the proformer lecturer, reaches Halifax on the steamer Peruvian this week, to deliver a lecture in the leading cities on coming wars, revolutions and other momentous events predicted by Daniel to occur during the next eleven years before the end of this age in 1901, commencing with the greatest war ever known in Europe next year.

Venerable Canon Gilpin will shortly resign the principalship of the Halifax Academy. The names of Principal McKay, of Pictou, and Prof. W. H. Waddell are mentioned as his successors.

MISS MAITEL, a French Canadian artist, now sojourning in Paris, has fallen heir to \$4,400,000 by the death of a friend in the mother country.

As a clerk for Thos. May & Co. was about to deposit \$3,300 to-day in the Bank of Montreal, some unknown rascal drew the boy's attention in another direction, while a probable accomplice snatched the money and cleared out. No arrests have yet been made.

Win. C. Turpsel, of Boston, has arrived in Montreal, it is said, with embezzled funds to the amount of \$30,000, and may be the first to test the Weldon Extradition Act.

There is a visible falling off in the amount of city letters since the inauguration of the two cent rate. Some merchants are now delivering their invoices by office boys. The revenue of the post office will, however, it is said, show an increase.

The Haytian Treaty.

NEW YORK, May 21.

Advices from Cape Hayti, under date of May 6th, contain a copy of the treaty entered into between the Legitimate Government and the French Republic. Hayti cedes to the French the Island of Gouaives, also a site at St. Nicholas made for the establishment of a coal depot. French vessels will be exempt from light dues, tonnage and water duties. French goods will be 25 per cent. less duty than others, and French capitalists and contractors will have a preference over those of other nations' enterprises of all kinds. In return for those advantages France will assist the Government to suppress the rebellion and accord a subsidy of five and a half million francs with two war vessels of the first class arms and equipments.

Ottawa Notes.

OTTAWA, May 21.

Chief Superintendent Pettinger is here, and it is understood that he and Mr. Schreiber are engaged in a re-arrangement of a special intercolonial service to make close connection with the C. P. R. line at St. John. The proposed additional service will incur a large expenditure, but as the ocean mails will hereafter be brought to the Upper Provinces via the Short Line, the service is considered a most essential one.

Thomas Skinner, of London, the new director of the Canadian Pacific and also of the crofter commission, is here to-day and will shortly proceed to the west to visit the crofter settlements.

Weather Bulletin.

TORONTO, May 22.—10 a. m.

Moderate to fresh winds; cloudy and rainy.

The heavy cut in the price of iron by one of the leading Pennsylvania companies, making the price the lowest since the panic of 1873, renders it apparent that the northern producers have no intention of being driven out of the market by their new southern rivals without a struggle. The reduction brings the price down to a point where there can be but a small margin of profit for the producers in any part of the country. Nevertheless, the development of the iron industry in Alabama goes on at a rapid pace. The daily output of iron from twenty furnaces in Birmingham is now 2,310 tons, and six new furnaces now under construction will raise it to 2,800 tons per day. The Pennsylvania companies have some powerful rivals to cope with.
