Workman Injured On Wharf At Montague

A drowning fatality was prevented at Montague yesterday shortly before noon by the prompt action of Mr. Henry Munroe, when Mr. Raymond Dewar fell ten feet unconscious into the water at Stevens Wharf, which is at present undergoing repairs.

Mr. Dewar, at the time, was engaged in removing the old top walings on the wharf, and had cleared one end. It is unknown exactly what took place then, but Mr. Munroe, who was working nearby, heard the splash and ran to investigate. Seeing Mr. Dewar in the water, he ran to release the raft in which he was assisted by Mr. George McKeeman. Mr. Munroe pulled the unconscious Mr. Dewar aboard the raft, and proceeded with artificial respiration, in which he was assisted by Mr. D. A. MacLennan of Dredge 115. Dr. Preston MacIntyre arrived on the scene in a few minutes, and Mr. Dewar was taken to his home.

Mr. Dewar had received a cut near the right ear, which seemed to indicate that he had struck his head in the fall rendering him unconscious before he struck the water, which would also account for the small amount of water present in the lungs. Such rescue work is a familiar thing to Mr. Munroe who served on the navy short patrol at Halifax during the last war, during which time he participated in several swimming rescues. His many friends wish Mr. Dewar a speedy recovery, and hope to see him back at his work soon.

Roseneath Man Injured Last Night On Road

An unfortunate accident occurred last evening about 6:30 on the highway approximately two miles from Montague, when a truck driven by Mr. Syd Munn of Murray River crashed into a horse drawn wagon going in the same direction. Mr. Harold Gordon, Roseneath, driver of the wagon, was taken to the King's County Hospital, where he received treatment. His condition was described as not serious. Both vehicles were proceeding towards Bell's Hill, when a car approached coming towards Montague. Mr. Munn was unable to see the wagon ahead, which did not carry a reflector, and the three-ton truck crashed into the rear of the wagon, demolishing it. The horse broke away, but was later found, and taken to Mr. Gordon's farm. Mr. Gordon was immediately removed to the hospital. The Montague detachment, R. C. M. P. investigated the case.

INCOME LEVY

(Continued from Page 1)

Income tax the new levy means that he will pay an extra two per cent on his taxable income for pension purposes.

For example, the man with a taxable income of \$1,000 will pay \$20 over and above his normal taxes, the man with a taxable income of \$2,000 will pay \$40 and the man with a taxable income of \$3,000 will pay \$60—the limit. This payment will be made by the weekly pay-cheque deductions along with ordinary income taxes. Income tax exemptions at present are \$1,000 for single persons and \$2,000 for married, with additional married exemptions of \$150 for each child eligible for family allowances and \$400 for those who don't receive allowances.

Effective Next July The new income tax levy, for the individual, doesn't come into effect until July 1 next because of Mr. Abbott's plans to drop the 20 per cent defence surtax and to set the basic tax rate "as appears to be necessary in the light of the situation next spring."

In this connection, with possibly a ghost of a hint of a lower tax rate in personal income, he said:

"It is no secret, of course, that current revenues are exceeding somewhat my expectations of last spring due to a higher level of national income and production than anticipated."

"However, I shall look at the picture next spring in the light of expenditures for the year and shall decide at that time what to recommend. Certainly, I make no predictions now as to what the budget of next spring will have in store for us."

Corporations Tax Turning to corporations, he noted that the present tax in this field is 15 per cent of the first \$10,000 of profit and 38 per cent on the excess, with a 20-per-cent surcharge on the 38 per cent only, making the effective rate of 45.6 per cent on profits of more than \$10,000.

The additional two per cent will bring the rates to 17 per cent on the first \$10,000 and 47.6 per cent on profits above \$10,000. In addition to the federal tax, there are corporation income taxes of five per cent in the eight provinces with which the Federal Government has tax agreements and levies of seven per cent in the two remaining provinces—Quebec and Ontario.

Here, too, he plans to repeal the surcharge next spring and decide "in the light of circumstances at that time what rate structure to recommend for the calendar year 1952."

At the same time, he recalled that he has made "no secret of my concern over a system of taxation under which more than half of company profits are taken away by governments."

"The effects on incentive and efficiency can be extremely dangerous at a time when maximum output and economy in operations is so important as it is today."

Plan Hallowe'en School Parties At Montague

Extensive plans were made for the sponsoring of the annual Hallowe'en parties at the Home and School meeting held last evening at the Montague School. The meeting was presided over by Mrs. J. D. MacLeod, in the absence of the president, Dr. G. S. A. Inman. There were twenty-six present, including a number of teachers and parents who were attending for the first time, and who were cordially welcomed by Mrs. MacLeod.

Following the reading of the minutes of the last meeting by Mr. Vernon MacLean, secretary, considerable discussion ensued respecting the proposed activities for the Hallowe'en parties.

It was decided to hold three parties this year, and that the teachers would make the necessary divisions in grades. Several committees were appointed: Senior committee, Mr. Vernon MacLean, Mrs. E. H. Stewart, Mr. Ralph Beck, together with two student representatives from grades nine, ten, and eleven. Intermediate committee, Mrs. H. T. Jamieson, Mr. Cecil Beck, Mrs. C. J. Boudreaux, Junior committee, Mr. Carl Bochner, Miss Evelyn Underhay, Miss Shirley Jenkins, Miss Eileen MacKenzie, Mrs. Elsie Waterworth, and Mrs. A. D. MacKenzie.

It was also moved and seconded that Mr. Lorne Wigginton be in charge of the costumed parade from the school to the United Church hall, and which will take place the earlier part of the evening. During the next week all plans respecting the Hallowe'en parties will be finalized by the several committees at a joint meeting with the president.

Mr. Carl Bochner presented a report of the Amateur Cavalcade, which he described as a huge success, and which showed an improvement over that held last year. A vote of thanks was extended to the Shur-Gain representative, Mr. Charles Fraser, who sponsored the program.

The financial report was read by Mr. Archie Hitchey. He also reported that the proceeds from the Cavalcade were very gratifying. Mr. Bochner reported that several classes had been held to teach as many as possible how to operate the projector, in order that it may be placed at the disposal of the different organizations of the community.

The question arose as to what constitutes membership in the Home and School Association, and it was stated that every parent, or anyone interested in school work, is not only eligible, but also urged to attend the regular meetings of the association.

The great necessity of a school library was stressed, owing to the fact that books of reference and children's books were completely lacking in the school. It was decided to leave the question in abeyance until a later meeting.

It was felt that greater stress should be given to sporting activities on the school playground, and that at this time of year the football field should be in operation, and that the volley ball courts should be in readiness for the students. At the conclusion of the meeting two films were shown, one on the Leslie Bell Singers, and the other on Newfoundland.

structure to recommend for the calendar year 1952."

At the same time, he recalled that he has made "no secret of my concern over a system of taxation under which more than half of company profits are taken away by governments."

"The effects on incentive and efficiency can be extremely dangerous at a time when maximum output and economy in operations is so important as it is today."
