FURIOUS driving on our streets is becoming too common. An elderly lady was nearly run over yesterday by one of our bloods.

THIS rage for the antique is something astounding. We are always having old-fashioned snow storms. You never hear of any other kind.

DURING the recent thaw numerous cellars were inundated for the first time. The cause is supposed to be owing to neglect in having the gutters properly opened.

A WRITER says that the mating of human beings is beyond the science of man. Perhaps this is the reason why matchmakers are usually of the gentler sex.

WE see it chronicled that a girl in New York was "stabbed by a man whom she had never seen before." That was simply atrocious. It is bad enough to be stabbed by a bosom friend, but a total stranger, how rude!

LADIES and gentlemen taking part in the Carnival on Thursday evening next are again reminded that the rule relating to the handing in of a card with the stealer's name and character written thereon will be strictly enforced.

FOURTEEN women left widows, and 35 children fatherless, is the sad story that closes the chapter of the last unprofitable and disastrous season of the hardy fishermen of Gloucester. But men must work and women must weep.

IT is reported that a bill will be submitted at the ensuing session of our Local Parliament to provide a stringent license law in the event of the Scott Act being defeated in August next.

THE attention of the police is called to a number of young men who nightly loaf at Walker's corner, Great George Street. The language of these worthies is not what it should be.

LAST Friday morning, the little daughter of Mrs. Fraser, of Indiantown, N. B., went to the well a short distance from the house for a pail of water. The well was one of those sunken puncheons commonly used for collecting running water and the approach to it had been rendered slippery by the ice that had accumulated around it. A short time afterward a neighbor going to the well found the child lying in it, only the lower portion of her body being out of the water. She had apparently slipped on the ice while stooping to fill her pail and fallen head foremost into the well, from which position she was unable to extricate herself. When found life was extinct.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little shrub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gummy, allays all pain, regulates the bowels, and is the best known remedy for their use, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

THE Grand Division met at Stanley Hall on Friday morning and afternoon. There were a large number of representatives present. This organization continues to hold a strong position on this Island. The public meeting was held in the Methodist Church. S. H. Brown, Esq., occupied the chair. The speakers were Rev. W. P. Archibald, G. W. Simpson, Ralph Carr, J. Carruthers, Dr. McNeill and William Laird. An overflowing meeting was held in the Hall, the G. W. Patriarch, William Ramsay, Esq., in the chair. The speakers were Capt. James Welsh, John Simpson, Joseph Rogers, J. Heber Haslam and J. J. Clappell. Both meetings were crowded and enthusiastic, and we think indicates the present temperance sentiment of the Island. The delegates spoke highly of the kind and cordial reception they received from the people of Stanley, New London and Caven-

THE CAMPAIGN.

Blake a Failure

MONTEAL, Feb. 1. Blake's meeting held in this city last evening, was largely attended, but there was no visible enthusiasm. After a funeral attempt to be funny, Mr. Blake tackled the tariff question. He spoke for upwards of two hours, and managed to say nothing, effectually hiding his meaning in a multitude of words. He said that his opinions were the same now as in 1882, viz.: that he would use every effort to promote free trade. He also hinted at a tariff for revenue only with lots of taxation, but would not make any promises until he got into power and saw how things went. The old attacks on the Government were all rehearsed; but he did not say a word about the Maritime Provinces, secession, or anything of live interest. The audience knew about as much about his policy after he had concluded as they did before he began.

Unsuccessful Grits.

MONTEAL, Jan. 31. Sir Hector Languevin and Sir Adolphe Caron are busy organizing in the Quebec districts. The Grits have made an unsuccessful attempt to catch the influence of the Trade and Labor Council in Montreal.

A Conference Called.

OTTAWA, Jan. 31. Sir John A. Macdonald has invited the leading manufacturer's to meet him in conference in Toronto, and as a result the usual Grit howl has been raised.

Opening the Ball.

MONTEAL, Jan. 31. Hon. Thomas White, Minister of the Interior, opened the campaign in Lindsay, Ont., last night. There was a rousing meeting.

Personal.

OTTAWA, Jan. 31. Hon. Mr. Thompson, Minister of Justice, left for the Maritime Provinces to-day.

Affairs in Ireland.

LONDON, Jan. 31. Lord Randolph Churchill, in the course of the debate on the Address in reply to the Queen's speech, praised Sir Michael Hicks-Beach for his work as Chief Secretary for Ireland, and wished him the fullest measure of success. He further said that if juries refused to do their duty Parliament would grant additional powers, so that those who were following the no-rent plan of campaign in the agitation now going on would have to abandon it. He regarded the Liberal-Unionists as an exceedingly lame creature, and said he thought that the permanent preservation of the union would always depend on the Conservative party. It is believed that Lord Randolph aims at the formation of a Tory-Democratic party.

Parnell's amendment to the address is in effect that the increased agrarian disturbances in Ireland is due to the non-constitutional measures adopted by the Government.

What Gladstone Thinks.

LONDON, Jan. 31. Mr. Gladstone, in the course of a recent article in the Nineteenth Century, contends that, although Ireland, through fear, obtained many concessions from England, that an attempt by Ireland at the present time to repeat her former tactics would, to him, appear to be like warring against Heaven. In the same article he defends American contributions to Ireland, on the ground that they are for the purpose of staving off famine.

Warlike Preparations.

WASHINGTON, D. C., Feb. 1. In the House to-day, Lawlor, of Illinois, moved a resolution asking for information as to what the United States Government was doing in the way of warlike preparation, etc., considering the threatening attitude of Canada. Lovering presented a resolution from the Massachusetts Legislature approving of the Retaliation Bill.

The Stanley Expedition.

LONDON, Jan. 31. Henry M. Stanley, the explorer, telegraphs from Cairo that all is satisfactory there, and that he will probably leave there on Thursday next. Colonel Long, one of the staff of the late lamented General Gordon, says that Stanley's expedition is but a mere pretence for England to seize equatorial Africa.

Committed for Libel.

LONDON, Jan. 31. Messrs. Felserson and Wilkinson, the first named the proprietor, and the latter the publisher, of Life, have been committed for trial for libel. The plaintiff is Dr. Bird, Lady Colin Campbell's physician, and who, it will be remembered, figured so prominently in the Campbell divorce case.

A Cowardly Act.

QUEBEC, Jan. 31. A man named Guillel, last evening made improper and indecent proposals to his brother's wife and was repulsed with scorn. In revenge he set upon the woman, brutally beat her with a chair, kicked her about the head and face and threw her into the street. The woman is in a dangerous condition.

Another Shooting Affair.

NEW YORK, Jan. 31. There is great excitement in New York to-day as a result of the shooting of Raymond J. Belmont, the son of August Belmont. It is not yet decided whether the shooting was accidental or suicidal.

Three Hundred Persons Drowned.

LONDON, Jan. 31. The British ship Kapunda, which left London for Fremantle, West Australia, on

the 11th December last, with an immense number of immigrants on board, was wrecked in collision and three hundred persons were drowned.

The Pope Pleased.

ROME, Jan. 31. His Holiness the Pope expresses his very great pleasure at the efforts of Germany to establish amicable relations with the Holy See, and says that he would not be slow to reciprocate.

A Big Fast.

WABASH, Jan. 31. Mary Baker, the celebrated faster, last night completed ninety-eight days of fasting. It is said that she has received no nourishment, not even water, since last October.

A Provisional Regent.

ST. PETERSBURG, Jan. 1. Russia is inclined to favorably regard England's proposal to appoint a provisional Regent of Bulgaria. It is said that the Duke of Oldenburg is ready to act as regent.

Making things Lively.

DUBLIN, Jan. 31. The moonlighters are still making things lively in County Kerry. The Boycott against the Curtin family has had the effect of driving them out of the neighborhood.

Large Dividends.

LONDON, Jan. 31. Some of the English shareholders of the Pennsylvania Railway have demanded the payment of larger dividends than the earnings of the road would seem to justify.

The Cape Breton Railway.

OTTAWA, Jan. 31. The Government has decided not to call for tenders for the Cape Breton Railway from Point Tupper to the Narrows until the summer.

Special Telegraph Wires.

NEW YORK, Jan. 31. Special telegraph wires are being constructed from Chicago to New York for the benefit of the brokers and newspapers.

The Swedish Ministry Resign.

STOCKHOLM, Jan. 31. The Swedish Ministry has resigned, owing to the uncertainty of the majority in the Diet.

Quebec Parliament.

QUEBEC, Jan. 31. Lieutenant-Governor Masson will again open the House of Parliament on Wednesday next.

Belfast Quiet.

DUBLIN, Jan. 31. Belfast is quiet again for a little while. The rioters arrested have been remanded.

That Conspiracy Case.

TORONTO, Jan. 31. The famous Coal conspiracy case has fallen through without a defence.

Weather Bulletin.

TORONTO, February 1—10 a.m. Moderate to fresh west and north winds; fair and colder.

Effect of Non-Intercourse.

(Boston Herald.) The assertions made by the Canadian papers that in the event of an application of the non-intercourse theory the United States would suffer equally with Canada may be accepted as a correct statement of the matter. We have, however, this advantage over our northern neighbor, that our powers of resistance are a great deal larger, and a burden of losses that would annihilate the prosperity of Canada would not have a very serious effect upon the welfare of the people of the United States. We do not believe in the policy it is proposed that the United States government shall adopt for we think that more can be gained by exhibiting a spirit of fairness and willingness to accord all just rights to others than can be secured by a policy of retaliation. We are as a people in the present instance quite as much, if not more, at fault than our Canadian neighbors; still the latter will make a mistake if they can be indifferent to the ill-will of their nearest neighbors.

The Sale of Girls.

The Tangier press continues to call attention to the systematic and outrageous sales of young girls in Morocco. From the statements made it appears there are regular agencies in Paris and Brussels for the entrapment of girls for immoral purposes. The victims are lured to their ruin by seductive promises of lucrative situations as governesses, seamstresses and domestic servants, and once within the dominion of the polygamous monarch they are veritable slaves, without any chance of escape from a degrading life of lust. In some cases English girls are first lured to Paris and then drugged, put on board ship and taken to Tangier, where they are sold to procurers, who carry them into the interior, where they are imprisoned in the harems of wealthy natives. Resistance is overcome by systematic cruelty, and the lash plays an important part in reducing the deluded girls to abject obedience. The Sultan is greatly incensed at the exposure made by the press, and if it were not that he has some fear of foreign consular interference some of the editors would be quickly introduced to the disagreeable mysteries of the bow-string.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites

is not only very palatable, but the remedial power of these valuable specifics is greatly increased, and as a remedy for consumption, scrofula, emaciation, or where there is loss of flesh and nerve power, it is remarkable in its results. Take no other.

Porto Rico Sugar.

THE good old West India raw sugar is now hard to get—for the refined article is cheaper and has almost crowded it out of the market. We often hear the remark made: "The sugar sold now-a-days is not as sweet as that we used to get years ago." Whether this is so or not we shall not attempt to say—but we do know this, that those who taste our Porto Rico Sugar declare it to be the real article, and "something like the thing." It is sweet—and no mistake, but it is dear—seven cents per pound. Can we sell it cheaper than this? Not if we are to make any profit out of it. But we have promised to give some bargains this winter, and we will begin with this Sugar, and for a little we will offer it at 6 CENTS PER LB. Now this is a genuine bargain and much below the value of the Sugar,—and we expect those who want some of it to procure it without delay. It won't last long at this price.
