Writing Academy

Let these short practice illuminate the dark places of theory. A THOROUGHLY Progressive Practical Institution, in which young men and women are not only taught Book-keeping (with its applications to commerce) both in single and double entry, but are trained how to do business, by actual business transactions. The students act as buyers, sellers, traders, bankers, book-keepers and accountants, in actual business operations, and the currency issued by the College Bank and the notes issued from the Emorium, are used in bona fide business transactions, just the same as in mercantile and banking houses. Book-keeping is itself may be learned at home, but a knowledge of how to transact business, cannot be thus acquired. That our course system of training is eminently practical write for testimonials from business men, and from students who are now holding lucrative and responsible positions.
