THE HOTEL RESPONSIBLE.—A case of considerable interest to hotel men was decided at Montreal on Friday. J. W. Hannan, dealer in men's furnishings, vs. Windsor Hotel. In June last "Phil Armour, Jr.," of Chicago, registered at the hotel. His bill amounted to $40. He, however, defrauded several firms in town, among them Hannan, to the extent of $138. The good were delivered at the Hotel C. O. D., and were sent to Armour's room, who returned the bill to the hotel clerk marked O. K. The clerk told the messenger it would be all right, and as the fraudulent Armour left without settling, Hannan held the hotel responsible, and Judge Archibald upheld the contention.

THE PROPRIETORS.

Make a Few Pertinent Remarks to their Patrons.

TORONTO, Jan. 28.—Dr. L. A. Smith & Co., of this city, whose name has become a household word through the Dominion, and in many states of the Union, in consequence of the wonderful cures effected by Dodd's Kidney Pills, desire to thank their patrons for the good words they have spoken for this remedy. During the past few months these expressions have been wired to nearly every paper in the country by grateful people whose lives have been prolonged. These expressions are straightforward and honest, and should convince any unprejudiced mind of their sincerity and truthfulness. You know now, reader, that Dodd's Kidney Pills will do all that is claimed for them. They have stood the test.

Richard—I don't understand what has come over Harry; he doesn't come to see me at all now.

Robert—Surely you cannot have paid him that ten dollars you borrowed of him last summer.

HOW TO TREAT A COLD.

Don't stuff a cold, as the old adage advises, if you do you will have a fever to starve. A genuine cold is a shock received by the many million nerves which approach near the surface of the human body, and which control the nearly seven million pores of the skin. This shock closes the pores of the skin, is transmitted to the nerve centre and back to the mucous membranes, forcing a great amount of blood to these membranes, creating more or less irritation and consequent fever, inflammation, dryness, then watery discharge and catarrh. The shock may have its cause from a chill, from improper eating, a nervous fright and various other causes which irritate the nerves of the skin and mucous membranes of the nose, throat and bronchial tubes. Excess of blood in the stomach still more clogs the system and pores of the skin, so that effete matter, which should be carried off by the natural courses is retarded; which is ample reason for not stuffing a cold. Experimenting with a severe cold is a dangerous custom, as most persons try one remedy until some friend suggests another "sure cure." When slight hoarseness or tightening of the nasal membranes warns one of a skin exposure or chill from whatever cause, act promptly, delays are dangerous; with children it may mean croup and strangulation; with adults, catarrh, bronchitis, perhaps pneumonia. Scores of mothers would as soon go to bed without matches in the house as without that old-fashioned remedy, Johnson's Anodyne Liniment near at hand for colds and croupy children. The proprietors, I. S. Johnson & Co., Boston, Mass., will send their new illustrated book entitled "Treatment for Diseases," free to any person for the asking.

A Difference—"You say you made money in business?"

"Certainly," replied the New York policeman.

"What was your stock in trade?"

"It wasn't a stock in trade; it was a trade in stock.—Washington Star.

A Comfort Sometimes.

When health is far gone in Consumption, sometime only ease and comfort can be secured from the use of Scott's Emulsion. What is much better is to take this medicine in time to save your health.

Fair Dealing—"I don't see why it is that Ethel is always so popular with the men," she remarked.

"Well," he replied, "it goes to show that business-like methods pay best in the end. She has a reputation for the greatest promptness in returning a ring when the engagement is broken."

This is Concentration:

One pill a dose, one box 25 cents. One pill relieves constipation. One box cures an ordinary case. One pill taken weekly neutralizes formation of uric acid in the blood and prevents Bright's Kidney disease and Diabetes. True only of Dr. Chase's Kidney-Liver Pills.

Parent—What did you learn to-day at school, Johnny?

Enthusiastic pupil—Learned how to cut up a toad. We're goin' to tackle a mud turtle to-morrow.

On the North Bridge, Edinburgh, stands a blind beggar wearing, suspended from his neck, a tablet with the inscription: "Bestow a glance and a copper on one who is unable to return you either."

"I have spent thousands of dollars and been in the best hospitals of Europe and America under treatment for catarrh," said a gentleman recently, "and have never received so much genuine relief as I have from a twenty-five cent box of Hawker's catarrah cure."

The Judge—I hope I shall not see you here again.

Prisoner (who is arrested weekly)—Not see me? Why yer ain't goin' to resign yer position, are yer?—Truth.

Success produces imitations. Genuine Pohd's Extract is sold only in bottles, with landscape view on buff wrapper.

Belle—And so you have accepted Harry. And you always laughed at the idea of marrying him.

Nellie—I know it. But when he proposed I was all taken aback, and I exclaimed, "Do you take me for a fool?" And he said, "No, I want you for myself." It so astonished me that he should say anything so bright that I said "Yes" before I knew what I was doing.

Business and professional men who suffer from tired exhausted feelings consequent upon mental effort, will find in Hawker's nerve and stomache tonic a sure conserver of the vital energies, relieving brain qire, restoring nervous energy and muscular vigor; renewing the blood, restoring lost appetite and aiding digestion

A Fictionist—What are you writing, Hawley?

"A story. I'm going in for fiction."

"Really? For a magazine?"

"No. For my tailor. He wants his money, and I'm telling him I'll send him a check next week."

DON'T DIE BEFORE YOUR TIME.

"Why will you die?" That is the question the scientist now asks the miserable sufferer from consumption or lung trouble. The answer naturally is "because I can't help it." But the consumptive *can help it.* Miller's Emulsion made from Norwegian Cod Liver, and combined with the hypophosphites of lime and soda will cure *nine cases* out of ten of consumption, and the tenth case can get a reprieve for a year or two. New blood is what the consumptive requires, and Miller's Emulsion of Cod Liver Oil, *when taken produces it.* Miller's Emulsion is the great nerve strengthener and blood maker, and cures Coughs, Colds, Bronchitis, Scrofula and all lung affections. In Big Bottles, 50c. and $1, at all Drug Stores.

Living Skeleton—What's the matter with the glass eater to-day.

LATEST NEWS NOTES.

Fortune is against Lord Rosebery. The district of Evesham has again returned a a Conservative by an increased majority.

At the annual meeting of the Swansea Chamber of Commerce, Sir John Jenkins, Chairman of the Harbor Trust, said that the serious condition of the tin plate trade with which they were threatened was due to severe competition frm America, where he added, ultimately tin plate would be manufactured more extensively. The falling off in the shipment of tin plate from Wales, he continued, was principally due to competition in America. But he believed that other markets would be opened which would compensate for this loss.

Two Classes to Satisfy.

Lactated Food Eminently Satisfactory to Both.

It should be remembered that the manufacturers of Lactated Food have two classes of people to satisfy and please. Mothers who have young babies to nourish must be convinced by results that Lactated Food is the best for their darlings. When the little face has a bright and healthy glow, when there is steady growth from week to week, when there is heartiness happiness and good nature, then are mothers satisfied that they are using a food that is indeed a life giver.

The physicians of our country also require to be convinced by results. Knowing the great interest that the medical profession take in prepared food, the manufactrners of the popular Lactated Food use every precoution to maintain the high standard of their Food, and to insure perfect satisfaction to the profession who recommend it so freely.

Every tin of Lactated Food is fully guaranteed, and mothers are assured that there is never the slightest variation in strength or quality. Mothers will be careful to see that no other food is substituted when the Lactated is asked for.
