SALES REPARATIONS ARE LIFE OR DEATH.

ESSEN, Germany, June 10.—At a meeting called by the Essen Chamber of Commerce today, Hugo Stinnes told a conference of Germany's leading industrial and economic experts that should the Paris committee of bankers decide to grant the Reich only a small loan, it will only aggravate the situation. He believes such an advance would tend to increase the value of the paper mark, but this was only "artificial stabilization," temporary over-estimation of the value of the mark and consequent suffering would result, he declared. "Reparations," Herr Stinnes went on, "is a question of life or death for Germany. In order to live, pay reparations, take up our loans and pay the interest, we must increase production to the extent of 2,000,000 marks more annually. Workmen must work more, but they won't as long as a life sentence is the goal held out to them and their families are taken away by pay reparations.

"A small loan means more misery and uncertainty. We must urge, even at the risk of further invasion, that reparations be considerably reduced and fixed so they can be recovered by a long-term international loan."

CHICKEN LAKE TABLE LEG AT EACH CORNER

FORT WILLIAM, Ont., June 9.—A four-legged chicken was hatched out here today by a Red Wyandotte hen belonging to J. Macdonald, 119 East Gore Street. The bird has a leg at each corner, arranged so as to scamp around on all fours like a cat, and is apparently quite normal otherwise. The owner is wondering whether the breed may be perpetuated, so his roast chicken may yield four drumsticks.

West Kent--4
Summerside--2

The above is the result of the second game of baseball between West Kent School and Summerside High School, played at the Absegweit grounds on Saturday afternoon. The game was a well contested and interesting one right from the first innings. After the second innings was over the game became more or less of a pitchers battle, ably supported by both infield and outfield players of each team, thus the last seven innings saw air tight ball not a man from either sides getting across home plate.

The West Kent boys made four runs in the first two innings, while the Summerside boys were only able to get two men home.

The line up was as follows:—

Position	Player
Catcher	Warren
Pitcher	McAleer
1st Base	Cameron
2nd Base	Croke
3rd Base	Johnson

Many Entries for Kensington Races

The Kensington horse racing association are advertising their list of classes for June 21st in The Guardian. These are in three number: the 2, 19 mixed trot and pace; the 2, 25 straight trot and a three-minute trot and pace. These three classes were decided upon after consultation with the various horsemen of the province, the idea being to furnish classes which would bring together good fields of horses and afford fast racing with close finishes.

The Kensington track is always in the pink of condition for a race meet and it would be hard to find anywhere grounds more perfectly kept or more beautifully situated. Then again the people of Kensington are very hospitable and horse men and spectators are always pleased when they attend a racing meet there. The air of friendliness is very apparent and it is no doubt this factor, in addition to the excellent programme they always put on which is the cause of such tremendous crowds at the Kensington races.

People will no doubt be surprised

Big Production That Lowers the Cost

Large scale production is one of the chief reasons why Firestone Tires are sold this season at such low prices yet give mileage greater than ever before.

The advantages are two-fold. Firestone is able to give more in the product—better materials and finer workmanship—and to sell at a closer margin of profit.

Investigate Firestone prices now in effect and ask any user about the mileage he gets from Firestones. That will convince you of the economy of using Firestone Tires exclusively.

Firestone resources have made possible the most economical buying of raw materials, reduced freight costs and more efficient manufacture.

FIRESTONE TIRE & RUBBER COMPANY OF CANADA, Limited

"MOST MILES PER DOLLAR"

Firestone

At the early date, June 21st, the reason for this is that Kensington, whose date in the Island circuit was allowed as July 19th, have withdrawn their claims in favor of the Scottish Catholic celebration. They did not wish to have any conflict in dates so they have taken the earlier one. However, this early date will no doubt mean just as big attendance, as farmers will be through planting and people seeking recreation will find it convenient to attend the races on that date. A large entry list of horses is expected, including quite a few from Charlottetown.

PRINCESS MARY BETS ON THE ENGLISH RACES

LONDON, June 10.—The killjoy will have another shock by the report that Princess Mary, who made her debut Saturday night as a London hostess, told some of her friends last night she had backed the Derby winner, Captain Cuttle, adding: "But only for 10 shillings, although Harry won quite a lot."

By laying ten shillings on Captain Cuttle, Princess Mary cashed in £6, as the winner was 10 to 1 against.

FIRES IN NEWFOUNDLAND QUENCHED BY RAIN

ST. JOHN'S, Nfld., June 10.—Heavy rains have quenched fires which for several days burned over large areas of forest land in Newfoundland, causing great loss of timber.

For a time the pulp mills at Bishop's Falls and the Northcliffe Co.'s shipping pier at Bowwood, nine miles distant, were threatened.

OLD WORLD BARBERS.

Their Prices are low and Methods in Some Cases are Crude.

The barber shops of the United States and Canada are the finest in the world and charge the highest prices. Comparatively few cities of Europe use American chairs, and many of these run their barber shops in connection with men's furnishing stores.

In most European cities a hair cut and a shampoo cost 6 cents, and in Paris of London a shave cost 4 cents. In some Italian cities 1 cent is charged for a shave and 2 cents for a hair cut, and in Turkey barbers take their entire pay in tips.

Many German barbers make wigs and switches which would cost 4 cents. In some French barbers ladies' hairdressing, Australian barbers are compelled to serve apprenticeships of four years on pay beginning on forty one cents a week and ending at \$1.02 a week, before they can own their shops.

Syrian barbers seat their customers in straight backed chairs before tiny wall mirrors and fix queer shaped pans about their throats. Then they rub on with their fingers lather made from cheap soap.

In India your barber calls at the house and shaves you every morning for \$2 a month.

In China the barbers carry
