The solemn observance of Corpus Christi was carried out yesterday by the parishioners of St. Dunstan's Basilica and the Church of the Most Holy Redeemer beginning with Solemn High Mass at the Basilica, at 10 a. m. The celebrant was Rev. Father Richard Ellsworth, assisted by Rev. David McTague as Deacon and Rev. James Smith as Sub-Deacon, and Rev. Patrick McMahon, D.D., as Master of Ceremonies.

An impressive celebration was held yesterday at St. Theresa's Church to mark the silver jubilee of the ordination of Rev. J. B. Croken with Solemn High Mass being celebrated by Father Croken, assisted by Rev. Patrick Rooney, Alberta, as deacon, and Rev. L. Buote, Idaho, as subdeacon, both former classmates of Father Croken who was ordained on June 26, 1927. Rev. Phalen McKenna officiated as master of ceremonies.

An automobile accident at Chepstow early yesterday morning sent two Charlottetown men to hospital and caused considerable damage to the car. In the Prince Edward Island Hospital here is Mr. Les Hooper, well-known barber of this city, who suffered a broken leg and a broken arm. Taken to Souris Hospital where he was treated for serious facial injuries was Buddy Bell. A third man, Mr. John Harding, received only minor scratches.

The North Side lobster fishermen were badly crippled by loss of gear this season, according to reports received from fishing stations between Rustico and Alberton.

At Rustico more than 5000 traps were lost with a replacement value of not less than \$350 each for the material alone. The fishermen make the traps themselves during the winter, and to lose them, in addition to the loss sustained through poor catches, has created a bad situation for the lobster fishermen in this area.

The special hardships faced by lobster fishermen this season, coupled with the suggestion of setting up a Disaster Fund to which fishermen would contribute their share on a check-off basis in preference to direct government relief, were emphasized in a brief sub-

mitted by the Prince Edward Island Fishermen's Association to the Fisheries Development Committee of the Province at a meeting held in the Law Courts building on Friday. Presiding at the meeting was Hon. Thane A. Campbell, Chief Justice, who is chairman of the Committee.

The brief was presented by Mr. Harold Cormier, President of the Association, supported by the Field Secretary, Charles F. Richards, and other members of the executive.

A crowd said by Air Force officials to have been a minimum of 13,000 visited R. C. A. F. Station Summerside on Saturday afternoon to attend the Air Force Day program.

Perfect weather, and a truly wonderful air and ground show made a most interesting and entertaining afternoon for all.

A highlight of the afternoon was a fly-past by formations of Sabre jets and Vampire jets which made several passes at a low altitude over the runway in front of the crowds.

On Saturday morning, thousands were tuned to the Summerside radio station for a unique air to ground broadcast that described the activities over many towns and communities within a wide radius of Summerside.

Many people peered out the windows at the plane as it passed overhead with the commentator describing scenes or activity on their own property, and others stood in doorways waving greetings at the low flying plane as they listened to the broadcast.

In the afternoon from 1 to 6 P. M. the public were guests of the R. C. A. F. and the gathering proved to have brought forth the largest number of people to attend an Air Force Day program on Prince Edward Island.

A free ride over Prince Edward Island in a Dakota aircraft for 12 delighted children was undoubtedly for them the highlight of Air Force Day at R. C. A. F. station Summerside on Saturday.

Ranging in age from 6 to 16, only one had previously been up in an aircraft but each of them thoroughly enjoyed the new and thrilling experience of seeing Prince Edward Island from high up in the air.

A day or so previously to Air Force Day, planes from the Summerside station dropped leaflets over several communities on P. E. I. inviting the people to attend the big air show. The leaflets also stated that at least six persons turning in the greatest number of leaflets would get the reward of a flight over P. E. I.

The keen interest displayed in the contest influenced the authorities to allow two more winners to the six who were originally promised the free ride, and these eight, with three children from Mt. Herbert and St. Vincent's Homes, and two other persons who accompan-

ed the younger children, together with members of the press, made up the civilian members of this most enjoyable flight.

OTTAWA, June 18—(Special)—Extension of the spring lobster-fishing season in Prince Edward Island waters will depend on reports of the catch to date, the Guardian learned this afternoon. A flat increase of 26 per cent in all water accounts which are not metered in this city will go into effect on July 1, according to information received from the Water Commissioners. Generally speaking this will mean only an extra 31 cents per month to the average household.

Mr. Les Hooper, well known barber and sports figure of this city, died in hospital here yesterday. He had been severely injured in an automobile accident at Chepstow last Sunday morning. Also hurt in the same accident was Buddy Bell, of this city, who was treated at Souris Hospital for facial cuts. A third man, John Harding, received only minor scratches. An inquest has been ordered by Coroner Dr. L. E. Prowse for 3:30 this afternoon at the MacLean Funeral Home.

OTTAWA, June 19—(Special)—In the House of Commons today, W. Chester S. McLure, Conservative member for Queen's followed up his plea earlier this week to Fisheries Minister Mayhew for extension of the lobster season until July 12.

"If the fishermen say they should have the extension in view of circumstances this season, I feel they should have it," Mr. McLure told the Chamber. "Take the people of Prince Edward Island on the North Shore and on the South Shore. There, the season opens the first of May. Their first loss this year was from ice conditions, something that rarely happens. On top of that they had the worst storms of many years."

"Out of some 12,000 traps that the fishermen put out in Rustico Harbor, I understand that over 6,000 were lost. On the South Shore where the storms were not so bad the fishermen lost about 25 per cent of their gear. That does not happen every season, but it did happen this year. If the fishermen do not get their traps repaired or if they do not know that they are going to have an extension of 12 extra days in July, they will not have any traps fit to put out."

"I urge the minister to make his decision early so that the fishermen can put out some extra gear to take advantage of the extra time I hope the minister will grant."
