### AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The attention of those who are the most effective and the easiest physicians I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes: "AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physicians I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers."

W. L. PAGE, of W. L. Page & Bro., Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS in numerous instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable."

J. T. HAYES, Mexia, Texas, June 17, 1882.

The REV. FRANCIS B. HARLOWE, writing from Atlanta, Ga., says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the costive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.

### LINES.

IN LOVING MEMORY OF MRS. DANIEL MACPHER, WHO DIED IN SUMMERSIDE, ON THE 19TH OF OCTOBER, 1885, AGED 41 YEARS.

Ye have gone up, beloved,  
Ye had obtained "a right,"—  
Right of abundant entrance  
Into the King's own sight.

Ye, His commands obeying,  
And loving to obey,  
Hasted His Kingdom's coming,  
To universal sway.

But willing hands are folded,  
The loving heart is still;  
A holy light is shrouded,  
That once obeyed His will.

"So shine, that others seeing  
The blessed light ye give,  
Shall glorify the Father,  
And love the life ye live."

Oh! wherefore are they taken—  
Lord of the harvest, why?  
Thou had'st us, without ceasing,  
To thee for labourers cry.

Thou seest the work increasing,  
And labourers so few;  
Oh! wherefore are they taken,  
Who loved the work to do?

We cannot doubt Thy wisdom;  
Thou dost all things well—  
We know 'tis right, but wherefore?—  
"Hereafter" Thou wilt tell.

Thy Truth shall be our refuge,  
Till shadows pass away;  
Thou knowest we love and trust Thee,  
But with sore hearts to-day.

JULIA.  
Ch'town, Oct. 23, 1885.

### Boston Markets.

BOSTON, Oct. 31.

POTATOES, &c.—Houlton Hebrons have been in light receipt, with sales at 55 to 85c per bushel. Houlton Rose have been selling at 53 to 55c per bushel, but market closes firmer, as buyers are taking Northern stock. Other Eastern stock rule at 48 to 50, and Northern at 40 to 45c.

EGGS.—The market sustains a strong and satisfactory tone, with receipts well sold up. Eastern extras command 26c, and New York and Vermont range from 23 to 24c, as to quality. Canada are in light supply and command 22½ to 23c. Nova Scotia and P. E. Island range from 23 to 24c.

FISH.—Receipts of Mackerel for the week have been 8,018 bbls, including 1,510 bbls from foreign and 6,508 bbls from domestic ports and fleet. A large number of vessels from the fleet arrived during the week and receipts at outports and here foot up 15,203 bbls, against 6,578 bbls for the corresponding week last year. The catch now aggregates 316,858 bbls as made up by the Boston Fish Bureau, a decrease of 94,230 bbls. Most of the vessels haul up as fast as they arrive, and the season is considered virtually closed, though a few vessels will probably remain out a week or two longer. The market for mackerel has ruled dull, and cargo lots have been forced off at \$6 to \$6.50 per bbl, with bbl. Some are held at \$7. Inspected lots are quoted at \$5 for No. 3, \$7 for No. 2, and \$16 to \$18 for No. 1, but very few rules. The jobbing trade is light and dealers find it difficult to sustain prices. There is no demand for Provincial Mackerel, and prices are most nominal. Codfish are in large receipt from home and foreign ports, 10,892 qtls. having been on the market this week, and prices are easier. Sales of dry Bank at \$2.87½ and \$3 for large, and \$2.62½ for medium. Pickle cured Bank from Provincetown are sold at \$5 for large and \$2.75 per quintal for medium, but cargo lots from other ports rule a shade lower. Pickle cured Shore are quiet at \$3.50, and dry Shore at \$4 per quintal. Hake are selling at \$2; Haddock at \$1.75; and Cusk at \$2 12½ per quintal.

### Problems for Atheists.

If you meet with an Atheist do not let him entangle you into the discussion of side issues. As to many points which he raises you must learn to make the Rabbi's answer, "I do not know." But ask him these seven questions:—

First. Ask him, Where did matter come from? Can a dead thing create itself?

Second. Ask him, Where did motion come from?

Third. Ask him, Where life came from, save the finger tip of Omnipotence.

Fourth. Ask him whence came the exquisite order and design in nature. If one told you that millions of printers' types should fortuitously shape themselves into divine comedy of Dante or the plays of Shakespeare, would you not think him a madman?

Fifth. Ask him whence came consciousness.

Sixth. Ask him who gave you free will.

Seventh and last.—Ask him whence came conscience.—Archdeacon Farrar at Philadelphia.

### Church Disestablishment.

Both Mr. Bright and Mr. Chamberlain have given their explicit approval to the disestablishment movement in Wales. Letters were read from those gentlemen at a recent meeting in Liverpool in connection with the Liberation society of North Wales. Mr. Chamberlain gave it as his opinion that in the principality the question had long been ripe for settlement, and hoped that in the next Parliament there would be an unmistakable expression of the wishes of the Welsh people. Mr. Bright's letter was to the same intent. The Established Church was in Wales an alien church, and holding that conviction, he trusted the episcopacy there would soon, like other denominations, be separate from the state.

King Alfonso has been ordered to take complete rest for a month.

### CURRENT NOTES.

Numerous cases of cholera are reported from Bilbao and Laredo.

The Mercers' Company, of Paris, has subscribed £1,000 to the Irish patriotic fund.

'Honest Tom Whitefoot,' Editor of the London Sportsman, is dead. He was 39 years of age.

Thomas FitzGerald, aged 27 years, was found dead in Donovan's sail loft, St. John, on Saturday last.

Prof. Huxley has resigned the Presidency of the Royal Society on account of ill health. He will be succeeded by Prof. Stokes.

Count Herbert Bismarck has been made Secretary of the Italian Legation, vice Count von Hatzfeldt, who has been appointed ambassador.

Ottawa is one of the most rapidly growing cities in Ontario, having increased 2,066 in population in the past year and now numbering within its limits 32,857 people.

The Peterboro Examiner learns that large numbers of men are leaving daily for the lumber camps, and there is every prospect of a lively season. Wages range from \$16 to \$18.

The Marquis of Bute, believed by some to be Disraeli's Lothair, has just finished, at a cost of \$5,000,000, another palace, to be known as Bute Castle, and described as in every way beautiful.

According to a French scientist, the world's annual output of paper is 1,560,000 tons, worth \$200,000,000, of which the note paper represents a bulk of 120,000 tons and a value of \$22,000,000. The steel pen bill is placed at \$4,000,000 a year.

The Merchants Bank has notified its savings bank depositors, says the Manitoba, that on and after the first day of November next it will only pay 3 per cent. per annum, instead of 4 per cent., which has been the rate for some years.

The production of raw copper in the United States during 1884 was larger than ever before, and the world's production was likewise. Since 1881 the United States' production of copper has nearly doubled, and the world's production has increased nearly one-fourth.

The permanent telegraph line which is now being constructed by the Great North-Western Telegraph Company along the line of the Gravenhurst-Caledonia extension, has reached Scotia; about 50 miles north of Gravenhurst, and the poles have been erected for some miles further on.

In going through a copper vein in the Colonial Copper Mines, Dorchester, the workmen found a peculiar formation of red marl, which, upon analysis, was found to contain gold averaging \$7 per ton, leaving as a residue fertilizer worth in New York about \$10 per ton.—St. John Globe.

The Saturday Review (Government) says: "Lenity to Riel would, in fact, be pure injustice to Riel's dupes. Of all laws there is none so clear and just as that which ordains that a man who strikes at the corporate life of a community shall pay for it with his own." The Times follows the Saturday Review.

Declaration of dividend for the half year has just been made by a number of Canadian banks. That of the bank of Montreal is at 5 per cent., and the Merchants' three and a half. The Dominion declares five per cent., the Bank of Hamilton four, the Ontario and the Federal each three. La Banque Ville Marie, three and a half.

The Archbishops of Canterbury and York have issued an address to the English electors. They expect the electors to think for themselves instead of trusting their associations. The Archbishops consider the church question of the highest importance. The address, though compulsory in tone, avoids direct discussion. It is regarded as a thrust at the Radical caucus.

English Methodist papers and correspondents speak with some anxiety respecting the health of the Rev. W. B. Pope, D. D., the leading English Methodist theologian. Dr. Pope was never very strong, but he has been enabled to render to Methodism and to the church at large services which will not soon be forgotten. He is a native of Horton, Nova Scotia, where his father was at one time stationed.

The Encyclopaedia Britannica must be a popular work in the Northwest. Not long since a real estate transaction was noted in St. Paul, the consideration being \$20,000 worth of the ponderous volumes. This led to enquiries, when a prominent bookseller made the statement that one dealer to his knowledge had within five years sold \$150,000 worth of the books, about half being disposed of to St. Paul and Minneapolis citizens.

The Marquis of Hartington has issued an electoral address, in which he says it is imperative that the union of Great Britain and Ireland be maintained at any price. He says, however, that he would be prepared to support measures looking to the extension of Local Government, and shall still vote with the Liberal party. He favors an equity into the subjects of taxation and education, and says explicitly that he is prepared to grant Local Government to Ireland.

"He was formerly a farmer, and is a very respectable man, who owns 150 acres land." Such is what we learn of Donald D. McAlpin, of Lobo, who began store keeping some eighteen months ago. He bought premises for \$1,600 cash and also paid \$1,400 cash for the stock of Edwards whom he bought out. His business appears to have fallen off and he made some losses through a relative. Falling behind, he has assigned to the sheriff, and probably wishes he were back on his farm.
