THE DAILY EXAMINER. FEBRUARY 6, 1897.

THE CHURCH CONVENTION.

The meeting of the Diocesan Church Society, this year, was remarkable from the fact that a greater number of lay delegates from the country were present than heretofore. It was a more than usually harmonious and hopeful spirit was shown and that Church Convention was organized. It is hoped that the Church Convention, made up of the clergy and the more zealous laymen throughout the Province, will promote unity of action and esprit de corps among the members and the parishes in Prince Edward Island. This hope is strengthened by the fact that the meetings under the auspices of the Convention will be held in the various parishes at the same time as the meetings of the Church Association are held, addresses will be delivered or papers read by prominent laymen as well as by the clergy, and it will be shown that, while permitting a wide diversity of opinion, the Church of England is, here as elsewhere, of the same spirit. The reports of the clergy to the Diocesan Church Society were, for the most part, reassuring; and altogether the deliberations of the last few days have resulted in a better understanding and a more hopeful and enthusiastic feeling among the Church members than heretofore.

QUEEN SQUARE SCHOOL MATTER.

A LITTLE reflection must convince parents and children interested in Queen Square School that they ought to submit quietly to the authority of the School Board. There can be no order, discipline or progress, but only anarchy, unless there is submission to the powers that be. It is important that our children should be impressed with the necessity of obedience to this fundamental law of civilized society, and taught to respect teachers placed over them by those in authority. The City School Board has been, according to the law, appointed to control and administer our city schools. It has accepted the resignation of one teacher and appointed another; and whether it has done right or done wrong in the case, insubordination in the schools must not be permitted. At the same time, the members of the City School Board will do well to bear in mind the fact that they are placed in office and authority to administer the schools for the parents and the community at large, and not for themselves; and that they are in duty bound to respect the wishes of the parents in so far as these are not contrary to the general good or to the law of the land. It is a pity that the services of a teacher enjoying the confidence of his pupils and their parents should be lost to the city for the sake of a paltry \$20; but it is true that Mr. Cullen was justified in resigning if the promises of members of the Board in that regard were not performed. He ought, however, to have remembered that the statements of individual members do not bind the Board as a whole; and that the Board, as a whole, is in duty bound to resist the dictation of any teacher, however popular he or she may be.

THE BY-ELECTIONS.

The Government papers are disposed to make much of the by-elections won this week in Ontario. What do these "great victories" amount to? Simply this, that in East Simcoe, with a Liberal record, the Conservatives won by a majority of 183; that in South Brant, also with a Liberal record, in which the majorities stood at 674 and 542, the Liberals won by a greatly reduced majority of 293; and that in the heretofore close Conservative constituency of North Ontario, the Liberals won by a little majority of 39. This latter constituency returned a Conservative at the last general election by a majority of 1; and the victory there means a gain of 29 votes for a new Government which has not had time or opportunity to do anything very distasteful to the people of Ontario. Surely, this is nothing to boast about? As for South Brant, it is a remarkable fact that the Ministers were compelled, in order to secure their greatly reduced majority, to assure the electors, over and over again, that the N. P.—the benefits of which the people have felt—would not be lightly dealt with, and that nothing would be done to injure the manufacturing interests, etc. The people of South Brant and East Simcoe have apparently become convinced of the superiority of the Conservative Trade Policy. At the last general election, both—though formerly Liberal by considerable majorities—returned Conservative candidates; and now, one returns a Liberal by a largely reduced majority in comparison

HOCKEY MATCH LAST NIGHT.

The Victoria's Defeat of the Summerside Team Four to One. The match between the Victoria's and the senior Summerside team attracted a large number of spectators to Hillsborough rink last night. The ice was in good condition, and the game throughout was decidedly interesting, even if it was somewhat one-sided. The Victoria's were strengthened very materially by the changes made since the last match, and the team of last evening was much stronger than the one that went up against the Abergweits a week or so ago. Hatcher and Robinson, the new men, played a dashing game, the former adding two goals to the Victoria's string. The other members of the team also played in good shape, and it looks as if the Abergweits would have to put up a grand game to defeat them when the return match is played. The Summerside team missed Hobbirk and Matheson, and their defence was not so good as in their match with the Abergweits. They struggled gamely for supremacy, however, but the odds were against them. They were playing with a stronger team, and things went the other way.

THE HOG AS A MONEY WINNER.

The people of the United States have a proper idea of the value of the American hog. The Boston Daily Globe remarks: "In one way and another the American hog brings in a good deal of cold cash to this country from foreign parts. Our exports of hams alone, during the last year of record, were valued at \$12,000,000. Bacon was shipped abroad to the value of \$33,000,000, while \$44,000,000 is credited to lard. It is a noteworthy fact that Great Britain is by far our best customer in this line of exports. For instance, her people utilized 103,000,000 pounds of American ham sent across the Atlantic, while more than three-quarters of our bacon product went to the subjects of Queen Victoria. Even in the case of lard, Great Britain took 40 per cent of the export, while Germany, which is supposed by many to lead in the use of this product, preempted but 25 per cent for her use. It is not at all strange that certain agricultural interests on the continent should view with alarm this great development of trade in our pork products. But all their efforts to decry the American pig will be unable to bar him out. Continental Europe needs him and will need more of him every year, and the same may be said of Great Britain. There is nothing romantic about the hog of commerce, but so good a money winner is by no means to be lightly considered in the land of the dollar. These remarks apply as well to the distinctive Canadian as to the American hog. The animal is one to be encouraged about our farm yards and to be well and properly fed for the use of consumers abroad as well as at home."

NEWS NOTES.

Prince Bismarck is reported unusually strong and well, and in spite of the bad weather he takes long walks and drives daily. Sir Julian Panncofke and Secretary Olney signed the convention for the definition by commission of the Alaskan boundary line. Ruskin has squandered in good deeds a fortune of \$750,000, and his present income depends almost wholly upon the royalties of a recent popular edition of his work. A mountain has been discovered in Alaska which is 20,000 feet high, and has the loftiest summit on this continent. What most the thermometer register on top of it? Irish affairs continue in the forefront of British politics, but it is generally admitted that the party made a tactical mistake in withdrawing the amendment on Ireland's overtaxation to the address. New York's School of Journalism has been closed. There will still be plenty of journalists turned out in New York, however. Schools do not make journalists any more than they can make blacksmiths or carpenters. The 9,000 ton United States cruiser Brooklyn, which cost \$4,000,000 is a partial wreck in the Delaware river, and another warship is met with an accident on the eve of a voyage. The senate should take warning and pass the arbitration bill. It is explained by Liberal journals in the Maritime Provinces that the palatial private residence, in which the Ministers reside during their recent trip to Halifax and St. John, is not the property of the Canadian Government, but was only loaned by the owner for the occasion. It is supposed, therefore, that it was used because the regular Government private cars were in use at the time by other members of the Government, whose objections to private cars were so much advertised up to seven months ago. Dongola is already showing the effect of its redemption from the hands of the Derivatives. Sir Herbert Kitchener has returned to Cairo with the report that the inhabitants are contented, and trade and agriculture are reviving. Numerous shops have been opened, supplied with Manchester goods and almost anything that the natives require. All this is extremely gratifying, and the last sentence especially ought to be recorded. The British minister for paying to out down Derivatives, the Empire is an expensive industry, but it brings in money to the Old Country as well as takes it out—probably more so. According to the statement of a contemporary, there are two United States Senators and five Congressmen who were born in Canada, and one Senator who was born in England and lived in this country. Senator Gallinger, of New Hampshire, was born in Cornwall; Senator McMillan, of Michigan, in Hamilton; and Senator Pavo, of Florida, a college president, was born in England, and lived for a time in Prince Edward Island. Of the Congressmen, it seems that Mr. Alex. M. Harley, of Indiana, is a native of Simcoe, and Mr. Stephenson of Michigan, and Mr. Stewart, of Wisconsin, are from New Brunswick; and Mr. Groat, of Vermont, is from Compton, Quebec. Another rich, yet largely unexplored gold field will be opened up in the spring of the year, says a Winnipeg despatch. A great deal of interest is being taken in the gold mines at Holt River. This is about eighty miles north of Selkirk, on the east side of Lake Winnipeg, and is stated that the formation is the same as that at Hat Portage, and the Manitou country, which is attracting so much attention at present. Claims are being located under the Dominion law, as Manitoba has no mining laws so far. All mines so far located are on the shore, where it will be very easy to get in all supplies by steamer. In fact, there are but few mines in the Lake of the Woods district which can be so easily reached as those at Holt River. There can be no doubt that before another year the mines of Lake Winnipeg will be attracting a great deal of outside attention. "Best Protector," all sizes, at Watson's Drugstore.

HOCKEY MATCH LAST NIGHT.

The match between the Victoria's and the senior Summerside team attracted a large number of spectators to Hillsborough rink last night. The ice was in good condition, and the game throughout was decidedly interesting, even if it was somewhat one-sided. The Victoria's were strengthened very materially by the changes made since the last match, and the team of last evening was much stronger than the one that went up against the Abergweits a week or so ago. Hatcher and Robinson, the new men, played a dashing game, the former adding two goals to the Victoria's string. The other members of the team also played in good shape, and it looks as if the Abergweits would have to put up a grand game to defeat them when the return match is played. The Summerside team missed Hobbirk and Matheson, and their defence was not so good as in their match with the Abergweits. They struggled gamely for supremacy, however, but the odds were against them. They were playing with a stronger team, and things went the other way. The story of the game is soon told. Robinson and Stewart, in the first goal of the next ten minutes the puck was for a over the rink. Now it would be in the Victoria's territory and a minute or so later it would be dangerously near the Summerside goal. Scrimmages followed innumerable and not a few of the players measured their length on the ice. The play was fast and furious and the puck was kept moving rapidly. Brehant then obtained possession of the rubber, and after a goal had been scored by the Victoria's, Hatcher and Robinson, who were playing for the home team, and things went the other way. In the second half the Vics. had things pretty much their own way, and they did not allow their opponents to score although they tried hard to do so. After about eight minutes playing, Hatcher shot another goal for the home team, amid applause. Subsequently Brehant made another goal for the Vics. When time was called the score stood Vics.; 4 Summerside; 0. Dr. H. D. Johnson acted as referee to the satisfaction of both teams. The special train from Summerside was in charge of Conductor Munroe. It left Charlottetown on return to Summerside about midnight. There were upwards of 40 passengers.

HOCKEY MATCH AT SOURIS.

The hockey match at Souris last night, between the P. W. College and Souris teams, resulted in a victory for the former team by 8 points. The College team play was very fast from start to finish. Scullivan, as center point, was invincible. It was impossible to pass him. He made some magnificent runs, stops and shots. He is a "star cover point," and was recognized by all to be the best player of the College team. Roy McLean played an excellent game, and Smith stopped some grand shots for goal. The forwards did some splendid work. The combination play of N. Pickard, L. Miller, E. Redmond and L. Adams was superb. A minute after the puck had been kicked Redmond secured a goal for the College team. Play then commenced in earnest, and Brehant did the trick for the Souris boys. Miller, Pickard and Redmond then made one each for the College team, and just before half time was called Redmond and Miller scored two more. When half time was called the score stood 6 to 1. The second half became more exciting to the spectators. Not long after play was resumed Leslie made a goal for Souris. The cheering then became intense, but soon abated as Miller secured one for the college and was shortly followed by Pickard. Redmond and Miller then each secured another, and as time was called Pickard made a goal but it was disallowed. Time was then called and the score stood P. W. College 10, Souris 2. Mr. C. Weeks acted as referee and Messrs. F. C. McLean and D. McKenzie were umpires. These gentlemen discharged their duties in a very impartial manner. About 250 persons were in attendance. A Montana paper makes the following interesting announcement: "A Southern Manitoba man who moved to Montana a few years ago started back a short time since and left the following farewell note to his friends: 'I have travelled a mile from a Canadian, half a mile from a neighbor sixteen miles from a post office, twenty five miles from a railroad, fourteen miles from a school house, forty-one miles from a church, 180 miles from timber, 200 miles from a Canadian, half a mile from a neighbor, the same distance from a blood-thirsty half-breed. God bless our home! Gone back to Manitoba, which is God's country, to get a fresh start.' The Department of the Interior should make use of this as a bit of immigration literature."

No one can afford to pass and buy Boots and Shoes without looking at the great sacrificed prices in Boots and Shoes at J. B. Macdonald's old stand.

This evening our Big Sale will be in full blast. 20 to 30 per cent. discount on all Boots & Shoes. Don't forget to call and examine.—R. K. JOST.

Johnson's Baking Powder gives fullest satisfaction 25c a pound. Johnson & Johnson.

CONCERT.

Central Drug Store, Sunnyside.

MONEY SAVED IS MONEY EARNED

You can save money now by buying your Boots & Shoes at our Great CLEARANCE SALE. Anything you want in the Boot and Shoes line at reduced prices. Call and see. R. K. JOST, Stampers' Corner.

LOUIS RUBENSTEIN

The World's Greatest Fancy Figure Skater, Holding Canadian, American and European Championships year after year, will appear in Hillsborough Rink THURSDAY EVG. FEB II.

No such other expensive and unique attraction has ever before been brought to Charlottetown in the winter time, and the citizens cannot afford to lose this chance of seeing the world's greatest skater. Admission 25 cents. Reserved seats only ten cents extra, of which there will only be a limited number, as one row of seats in the promenade is all that will be reserved. Doors open at 7.15. Galbraith's Band. J. B. DAWSON, A. A. BARTLETT.

TELEGRAPHIC.

SPECIAL DESPATCHES TO THE EXAMINER.

The Mission to Washington.

WASHINGTON, Feb. 6. Sir Richard Cartwright yesterday called upon Sir Julian Panncofke to discuss the situation with him. It is not believed that the ministers will be able to accomplish much. The temper of the Republican majority is decidedly against reciprocity with Canada, and it is understood there will be no reciprocity features in the new tariff bill which will give Canada any advantage.

Notes From the Capital.

OTTAWA, Feb. 6. The Ottawa retail merchants will ask the Government to amend the law to permit the garnishing of the salaries of civil servants. Major Dunbar, of Quebec, will be the Adjutant of the Bisley team of this year.

On to Khartoum!

LONDON, Feb. 6. In the House of Commons yesterday the Chancellor of the Exchequer announced that a further advance of Egyptian troops would be made towards Khartoum next sea on.

Christians Killed in Crete.

LONDON, Feb. 6. Advice confirm the stories of the killing of Christians in Crete. It is said that the Christians are as much to blame as the Musselmans.

Mrs. Beecher Dying.

STAMFORD, Feb. 6. Mrs. Henry Ward Beecher is dying.

Carter's Bookstore

A few STERLING SNAPS. 35 Reams Foolscap. at 5 cents per quire. 50 Reams Note Paper. at 2 1/2 cents per quire. 40 Gross Lead Pencils. at 2 for 1 cent. 100,000 Envelopes, all sizes. at from 2c pkge up.

Competition Knocked out of Sight. We have the goods. Come to us or lowest prices.

OUR ANNUAL White Goods Sale.

ARTICLES SUITABLE FOR NICE WHITE TEETH. We offer you White's Tooth Pastes and powders as being the leading ones on the market to-day and recommend them for your use. We are giving especially low figures on Towels (for a limited time) to reduce our stock. Call and see our yourselves. A. W. REDDIN, Phm. B. Central Drug Store, Sunnyside.

THE HEALTH OF YOUR CHILDREN

Depends largely on the shoe they wear. This weather they need good warm shoes with thick soles, to keep the feet dry and warm. We have the proper shoe for boys and girls.

W. H. STEWART & CO. London House Building.

CHRONIC DISEASES

Treated by the SALISBURY Method of persistent SELF-HELP in overcoming past errors and removing the causes of disease. The result justifies the means. This is not an easy cure cure-all. Nothing should be judged by certain bad limitations already among the people, nor by the half-hearted efforts of invalids to go it alone or half do it. The salvation of lives necessitates sincere repentance, constant self-control and wholeheartedness in the good works of physician and patient. Not even M. D.'s certificates by the realm will save one from the evil consequences of stimulants, fluid or solid.

DR. CLIFT. Graduate of N. Y. University and the N. Y. Hospital. 21 years' practice in N. Y. City. Diploma registered in U. S. and Canada. Address: Charlottetown, P. E. I. Office: Victoria Row. Telephone Call.

A HOME TREATMENT, preserving from month to month ACCORDING TO THE PLAN reserved for patients. REFERENCE on application.

SOILED..... CURTAINS
