THIS PAPER may be found at Geo. F. Rowell & Co's Newspaper Advertising Bureau (10 Spruce Street, where adve. contracts may be made) NEW YORK.

Local and Other Items.

LENT.—Lent comes on the 6th March this year.

THE STANLEY left Georgetown for Picton at 8.15 this morning, and will return this evening if the weather permits.

Some of the herbs in Hall's Hair Renewer, that wonderful preparation for restoring the color and thickening the growth of the hair, grow plentifully in New England.

HOOK AND LADDER.—The regular monthly meeting of the Hook and Ladder Company will be held on Monday evening at half-past seven o'clock.—Wm. H. BOYLE, Secy.

DAMAGED.—Some of the Maine agriculturists say that the open winter has badly injured the grass roots, and that in consequence next spring's hay crop will be a light one.

NOT TRUE.—The Patriot's report that "Messrs. Sullivan and Ferguson will take another trip to Ottawa before the meeting of our Local Legislature," is not true. The "Occasional Reporter" is again at fault.

Eminent physicians everywhere recommend Ayer's Cherry Pectoral as the most reliable remedy that can be had for colds, coughs, and all pulmonary disorders. Ask your druggist for Ayer's Almanac; it is the best publication of the kind, and full of information.

BECOMING DISCOURAGED.—An Indiana court has decided that unless a woman is pleased with her photographs she need not pay for them. An exchange says that since this decision was rendered 45 photographers have spilled their chemicals out of the window and left the State.

MAYOR MEETS MAYOR.—Says the New York Herald: The Mayor of Halifax called on the Mayor of New York yesterday. The dignitaries addressed one another by titles only, and when the gentlemen from Halifax left the Mayor of New York remembered that he had failed to ascertain his visitor's name.

WEALTHY ACRESSES.—The San Francisco Dramatic News put their wealth at these figures: Mary Anderson, \$250,000; Fanny Davenport, \$150,000; Clara Louise Kellogg, \$300,000; Mrs. Langtry, \$550,000; Maggie Mitchell, \$200,000; All Hayman, \$80,000; Nellie McHenry, \$40,000; W. S. Cleveland, \$50,000; Rosina Vokes, \$100,000; Lotta Crabtree, \$800,000.

SENTENCE COMMITTED.—A Washington despatch says the President has commuted the sentence of James D. Fish, formerly President of the Marine National Bank of New York, who was convicted in April, 1885, of misapplying the funds of the bank and sentenced June 27, 1885, to ten years imprisonment in the state prison at Auburn, New York.

NEWS FROM SPRINGHILL.—Mr. Naylor, secretary of the Halifax S. P. C. A., has been enquiring into the treatment of horses in the Springhill (N. S.) mines. He found that they were well used, but some of them have been underground for ten years. On Saturday last \$17,000 was paid out for wages in Spring Hill. The coal taken daily from the mines amounts to 2,000 tons.

AN IMPORTANT INDUSTRY.—Messrs. Ferguson, Alexander & Co., of Montreal, whose advertisement appears in another column are well known color makers, lead grinders and varnish manufacturers. They do a very large trade in their several lines. For many years their "Elephant" trade mark has been a passport for first class goods. This house carries full lines at all times and orders are shipped the same day they are received.

TWO MEN DROWNED.—Says a Cornwall, Ont., despatch of the 30th January: Michael Clime, his son and a man named O'Neil, of Longue Saulte Island, started in a sail boat for Dickinson's landing, yesterday, and when about ten feet from the shore, the boat upset, depositing the three men in the St. Lawrence. O'Neil reached the shore, but the other two men were drowned. Their bodies have not yet been recovered.

CANNED LOBSTERS AGAIN.—On Wednesday evening a private of "O" company of the West Riding Regiment eat some canned lobsters for tea. About an hour after he was taken suddenly ill, and was removed to the hospital. Yesterday morning one of the attendants, on going to his bed, found that he had died during the night. The body was much discolored, death being no doubt due to poisoning.—Halifax Herald.

ONE OF BENJ. FRANKLIN'S TYPES.—Mr. C. Bruce McDougall has donated to the foreman of this office a curiosity, in the shape of a two-line piece "B," which was once used by Benj. Franklin, the father of American journalism. The type in question was given to Mr. McDougall by a printer in Boston who got it in the old State House several years ago, among a lot of relics which to-day are on exhibition in the Art Gallery there. It is quite a curiosity in its way.—Moncton Transcript.

SEVENTY MILES AN HOUR.—The steamship British King, from Liverpool, landed at Philadelphia last week an immense English locomotive for experimental use on the Pennsylvania Railroad. It was built at the shops of the London & Northwestern Railway at Crewe, England, and is of the double expansion type, after the style of marine engines. This sort of engine has never been used with a locomotive in this country. It is claimed that the big machine can attain a speed of 70 miles an hour.

LANNON ON HIS MUSCLE.—Jack Ashton, of Providence, is reported to have stated on Sunday last that he had repeatedly, but in vain, endeavored to get on a match for a fight with Joe Lannon. Ashton also expressed himself as willing to meet the big South Boston boy at any time for any reasonable amount of money. Lannon told a reporter on Monday night that he was tired of talking with Ashton, whom he does not think means business. "I'll overlook the fact that Ashton has been dodging a fight with me for over a year, and I'll give him a chance as soon as I get through with Godfrey. I will fight Jack either in Providence, or New York or Boston for a purse, or I will fight him for \$1000 a side. I don't think that he has shown yet that he really means business."

Notes and Clippings.

—The New York Herald says: The proposed tax of a cent a dozen on imported eggs would increase our surplus revenue \$130,000 annually from Canadian eggs alone. We import thirteen million eggs a year from Canada.

—George Brooks contributes a powerful article to the Westminster Review, to show that the Americans are essentially hostile to Great Britain, and that Anglophobia was a ruling passion of the people during the recent Presidential election. He advocates the suspension of diplomatic intercourse with the United States, until the politicians of that country learn to behave themselves like gentlemen.

—It is officially announced that King Leopold has created under the Presidency of the Prince of Ligne and General Baron Jolly, an African society of the Red Cross. The objects of the society are to succor the victims of war and epidemics, and to aid African explorers. The King will make the society a personal present of a vast sanatorium for this purpose. The site of the establishment will be at some point on the north-west coast of Africa. The scheme is considered as important as the Congo enterprise, and causes great satisfaction.

—It is estimated that Jay Gould owns about one-ninth of the entire railroad system of the United States. He has \$20,000,000 in Missouri Pacific, \$10,000,000 in Manhattan Elevated, \$5,000,000 in Atchison, \$3,000,000 in St. Louis & San Francisco, \$2,000,000 in Texas Pacific, \$1,000,000 in Washab, \$8,000,000 in Union Pacific, \$4,000,000 in Missouri, Kansas & Texas, large interests in the Iron Mountain, Gulf, Colorado & Santa Fe and the St. Louis Bridge Co., \$2,000,000 in Pacific Mail and \$30,000,000 in the Western Union Telegraph Co., besides being concerned in hundreds of enterprises connected with railroads and telegraphs. He owns 200,000 miles of railroads, and it is often said of him that he owns the city of St. Louis.

—Premier Mowat declared at the opening of the Ontario legislature that the Quebec conference resolutions are to be made a party issue on every platform in the Dominion at the next general election. The Quebec fiasco cost the provinces nearly \$1,000 a piece for the entertainment of the visiting provincial delegates. Now if it cost \$125 a day for eight days to provide sufficient champagne to convince each of these delegates of the propriety of accepting these resolutions, how much would it cost to induce a majority of the Canadian people to endorse them by their votes at the polls? An accurate computation on this basis would seem to indicate that the expenses of the grit party at the next general election will be quite as heavy as usual.

—The greatest diamond yet discovered, of 240 carats, writes a London correspondent, is not, as stated, "The finest and largest stone ever found at the Cape." That pre-eminence is the attribute of the rough diamond sent home in 1884, weighing 457 carats, free from fault or tinge. It was cut into a brilliant, named the "Imperial," of 180 carats, beside a fragment producing a brilliant of 19 carats sold to the King of Portugal for £8000 or £9000. The three great brilliants of the world are the Imperial, the Regent and the Koh-i-Noor, weighing 180, 135 and 105 carats. The Imperial has not been advertised, hence the frequent errors in the press giving precedence to the Regent; but its supremacy will come under public notice at the French exhibition, where a place has been secured for it in the place d'honneur, Main avenue.

—Senator Macdonald, an Opposition politician, is reported by an Opposition paper as speaking to the five hundred representative Canadians who sat down at the Toronto Board of Trade dinner, as follows: "I am going to assert that you can find no place on this globe where there are fewer causes for grumbling. I am here to assert that there are no people who should be happier than the people of the Dominion. I do not believe that happiness is dependent upon unbroken quiet. I believe the stuff of which men are made is developed under difficulties; that no man who meets difficulty in a brave manner does not rise in the estimation of his fellow-man, and does not thereby secure a good that could not have been otherwise obtained." These words are words of encouragement. Gentlemen of the Opposition are not all croakers.

—The Montreal Herald was recently asked to explain what possible use there could be in the Grit party continuing to advocate Unrestricted Reciprocity between Canada and the United States, in view of the recent success of the Republican party in the States, and the well known position of that party regarding reciprocity of any kind between the two countries. To this question the Herald replied that there was no telling what the United States would do if only Canada would rid itself of its "protectionist government." Commenting on this amusing reply to a very important question, the Toronto World remarks:

"Our neighbors have just voted to put a protectionist government in power for four years from the 4th of March next. Nor is this all; they have changed the Free Trade House into a Protectionist House, though not by a very wide margin; while they have further increased the Protectionist majority in the Senate. Nor is this all, for the new North-western States seem to come in are sure to add some more to the Protectionist majority in Congress. Under these circumstances, what nonsense to object to a Protectionist government in Canada! Suppose this is what we have, it will no more than make us even with our neighbors. But probably the Herald thinks things would be just 'right' if we had a Free Trade Government in power here, with a Protectionist Government in power in the States over the way. Well, that would be a fine thing but very bad for Canada. However, the Herald may content itself; it is not likely to see. We will say more: the recent crushing defeat of Free Trade in the States means that its day of triumph in Canada is indefinitely postponed."
