

P. E. I. Communications Exercise Held Yesterday

Island amateur radio operators yesterday combined with civil defence personnel and members of the Red Cross disaster services committee to stage the Province's first large scale emergency communications exercise. In all 15 licensed "hams" and 10 apprentices were involved. Relaying information to and from an emergency filter center located at Red Cross Headquarters in Charlottetown were stations located in East Point, Tea Hill, Milton, North Rustico, Summerside and Borden. In addition to the stations located at Queens Arms and two mobile units roamed the capital.

Several "walkie-talkie" units operated in connection with the Borden stations.

Volunteering their services to assist with the three-hour emergency try-out were the following licensed operators: Stewart MacIntyre, East Point; Rev. L. J. Ayers, North Rustico; and Erskine Gillis, Summerside.

Fullon Proude and Doug Mosher, both of Charlottetown were in charge of the Borden installations, while Harvey Winters and George Shelton, also of Charlottetown, handled the Queens Arms and Tea Hill units respectively.

'Freddie Burke, another Charlottetown "ham" called the shots at Milton.

Veteran operator Ed Garnhum looked after the filter center, with the local mobile units in charge of Cliff Stewart, and Stewart Smith, boss of the exercise.

OTHER REPRESENTATIVES

Gordon MacDonald and Bob Younker represented the local Red Cross disaster committee, with Claude Smith, co-ordinator, representing the provincial government. Duhy Buck assisted Mr. Garnhum in the operation of the Charlottetown filter center.

Other Island "hams" participating in the exercise included George Walters, Allan MacKenzie, Clarence Gillis, and John Jay, all of Charlottetown.

Mr. Smith said last night that the exercise resulted in much valuable experience for the operators. He added that it also served to point up many difficulties that would have to be eliminated in future.

Steel Mills Report Rush

CLEVELAND (AP) — The biggest buying rush since the fall of 1956 is in progress for the steel industry, Steel Magazine reported Sunday.

Most mills are allocating tonnage for sheets, and some are sold out through June on flat-rolled products, the weekly journal of metal working said.

Auto parts makers are expected to lay in enough inventory to carry them through initial runs on the 1960 cars, Steel said. Consumers of small tonnages, aware they are competing with the big automotive buyers in a tight market, are in some cases placing duplicate orders.

Last week production climbed a point to 79 per cent of capacity. The output of 2,237,000 net tons for ingots and castings was the largest for any week since June 3, 1957.

Steel's arithmetical price composite on finished steel remained at \$149.96, the same as a month ago. The rate for prime grade scrap rose for the fourth straight week, reaching \$42.50 a gross ton, up 83 cents from the previous week.

HALIFAX (CP) — The weather office says a very intense low to the south of Greenland is drifting slowly northward, and as a result winds will remain strong today. However as a high pressure area over western Quebec moves eastward winds will slacken somewhat. Slight squalls mostly clear but cloudy intervals and a few snow flurries can be expected in most regions throughout the day.

FORECASTS:

Nova Scotia and Prince Edward Island: Cloudy with a few clear intervals and widely scattered snowflurries, extremely cold; northwest winds 20 with gusts to 50 diminishing in afternoon to north winds 20; Low-High at Halifax 8 below and 7; Yarmouth zero and 12; Kentville 10 below and 7; New Glasgow and Goswain 12 below and three, Sydney 10 below and 3, Charlottetown 12 below and 3.

New Brunswick: Clear with a few cloudy intervals; extremely cold; north winds 20. Low-high at Moncton and Fredericton 15 below and 3; Saint John 15 below and 5; Edmundston and Campbellton 20 below and zero.

High tide today at Charlottetown at 12.20 p.m. At Rustico at 8.06 a.m. and 7.18 p.m. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 7.24 a.m. and sets at 5.31 p.m.

N.Y. Stock Prices Hit Down Grade

NEW YORK (AP) — Stock market prices wilted under two main influences last week: Profit-taking and sheer lack of interest.

The Associated Press' average of 60 stocks registered its steepest weekly loss in more than a year in dropping \$3.30 to \$214.30. Turnover dwindled to 16,140,757 shares, the smallest volume since mid-September.

Despite news of booming demand for steel, the market declined fairly steeply Monday. It steadied Tuesday, showing its only daily gain of the week, and that a small one. It slid off in desultory fashion Wednesday and Thursday. On Friday it registered its sharpest decline of the week.

News of anti-trust investigations of the automotive and the steel industries were received with mixed emotion. Some experts said this news depressed the market. Others swore it had no effect whatsoever. No heavy selling greeted the news.

General Motors lost only a point or so while U.S. Steel dropped. Eastman Kodak declined about 6 points.

Graham-Paige, up 1/2 at 3 1/2 on \$48,300 shares, was the biggest market trader during the week.

The most active issue on the American exchange was Cincinara, off 1 at 5 1/4 on 228,500 shares.

Former Car Dealer, Plumbing Contractor Dies In The City

James Arthur Currie, former Charlottetown car dealer and plumbing and heating contractor, died yesterday at the Charlottetown Hospital. He was in his 77th year.

Born and educated in Charlottetown, the late Mr. Currie, while still in his teens, served with the Canadian forces in the Boer War. Taking his discharge in that country he later served for a number of years with the South African constabulary.

Returning to Charlottetown he resumed the plumbing trade which he had been studying prior to the war. After some time spent in the same business in Sydney, Nova Scotia, he formed a partnership with John Murnaghan, and established the well known plumbing and heating firm of Currie and Murnaghan.

Later he was also for many years local agent for Nash cars. Since his retirement from active business about 15 years ago, he spent each winter in Florida until ill-health intervened.

Funeral arrangements have been deferred pending the arrival of his sister, Mrs. Jessie Canning of Toronto. Survivors include also a brother, Archibald Currie, a resident of Calgary.

During his lifetime Mr. Currie was a member of St. James Church.
