Brick House and Furniture,

BY AUCTION.

ELDON HOUSE, KENT STREET.

On Monday, March 24,

Commencing at 11 o'clock, a. m.,

We will sell the FURNITURE of the above first-class Boarding House, including Drawing Room, Dining Room and Bedroom Suites, Carpets, Window Curtains, Stoves, Crockery, ware, Beds and Bedding, and all the other belongings to this comfortable and home-like house.

Also at 12 o'clock, on SAME DAY, we will sell

THE BUILDING,

which is nearly new and built of brick, three stories high, and in good repair, having a southern front of 33 feet on Kent Street (near Prince), and running back 180 feet, with Stables in rear.

The "Eldon House" has the reputation of being second to none as a comfortable boarding house, and enjoys a splendid business as a country hotel. Its stables are well patronized, and it is situated in the very best locality in the city.

We sell the above under instructions from Joseph Wise and James Seaman, Trustees of the will of the late Richard Wise, and will be a positive sale, RAIN OR SHINE.

Title perfect Terms Cash.

THE DAILY EXAMINER.

MARCH 12, 1890.

Notes and Comments.

—The salmon pack last year was the greatest on record, and far larger than most persons imagine. The latest information to hand, says the *Daily Columbian*, is that the combined salmon production of the Pacific coast for 1889 was 1,750,000 cases. The following is the output of the various canneries on the coast: Alaska, 675,000 cases; British Columbia, 414,400 cases; Columbia River, 328,000 cases; Sacramento River, 57,300 cases; and other places including Puget Sound, 275,300 cases.

—Good taste, as well as good sense, would suggest to the St. John *Telegraph* that comments on the "low poisoning case, while the case *sub judice*, are premature. The remarks about the evidence of Mr. Nash are flippant and misleading. Mr. Nash is an excellent officer, who was simply compelled to give evidence in the case. That he does not indulge at all freely in the "samples" of whiskey left at his office, is a fact which is plainly apparent in his face. Those who know him best inform us that the "samples" he has received have been distributed about wholly to friends who are invalids and to prominent temperance orators who do not care to draw their supplies from the usual sources.

—In the course of the speech which he delivered when moving an amendment to Mr. Wallace's Orange incorporation bill, Mr. Curran, M. P., made a remark, the truth of which is beyond dispute, and of which the practical self-application by a large class of our fellow-citizens would be of considerable service to the cause of peace and order. "We have in this bill," said Mr. Curran, "the principle enunciated that the association is essentially a loyal one, and that one of its objects is the inculcation of loyalty. Now, what is loyalty if it is not respect for the law? The word 'loyalty' is derived from the word 'loy', and respect for the law is the best meaning for showing our loyalty." Here, says *Domination Illustrated*, is a text on which the shepherds of our people, of every name, might profitably preach sermons of instruction and admonition. Indeed, Mr. Curran's pithy sentences, without any further comment, form an admirable sermon which those who run may read, which all of us, pastors and people, would do well to mark, learn, and inwardly digest, and the practice of which would keep us on the path of safety, pleasantness and peace.

—No clearer and more favorable testimony to the value of our national institutions could be desired than is embodied in the following opinion of Sir Charles Dilke, than whom, it may be added, no living publicist has a broader and firmer grasp of the conditions and potentialities of the embryo nations which at present go to the making of Greater Britain. The lucid utterance of such an authority is in the highest degree satisfactory:—

"Canada, like Switzerland, seems to have reached the ideal of a federal power as traced by de Tocqueville when he said that what was needed was that the central power should be given immense prerogatives, and should be energetic in its all towards the Provinces, whilst the Provinces themselves were to have perfect local freedom, the sphere of the central power being strictly defined by the constitution. Canada possesses the combination of central dignity and strength of government, with local liberty and variety in the Provinces, and when the completion of the federation of Australia by the entrance into it of the mother colony, if not of New Zealand, presents us with a similar picture at the other extremity of the Pacific, three English-speaking Federal powers will dominate that greatest ocean of the world. Canadian federation is declared by Sir Henry Parkes to be the model on which the future institutions of the British States of Australia are to be built up."

—The British position on the Behring Sea question has been set forth in a decision rendered by Mr. Justice Drake of the Supreme Court of British Columbia—that the United States has no jurisdiction beyond the one marine league limit. The case was one for damages for breach of a seeling contract, the defendant contending that it was invalid for the reason that sealing in Behring Sea was in violation of United States statutes. All the parties were, it appears, American citizens, and there is some suspicion that the action was a trap designed to lead to a British legal acknowledgment of the United States jurisdiction, but it may be deemed a fortunate accident as leading to a decision having the weight of legal authority of a Provincial Supreme Court. *Bradstreet* observes in reference to this subject that "it is understood that an endeavor is being made by Mr. Blaine and Sir Julian Pauncefote to reach an agreement which will remove this question from the field of contention, possibly without requiring either Government to relinquish its theory as to jurisdiction in the sea." Whatever settlement may be arrived at it is to be hoped that there will be no concession whatever to a claim which the United States has not even ventured to formulate officially, and of which the best American papers are fain to acknowledge the futility. Such concession would be nothing less than disgraceful, and moreover would affect the rights of other nations as well as our own.

—ACCIDENT.—An elderly man named Donald Steele, of Souris West, in the employ of Hon. Thomas Kitchin, met with quite a serious accident near his home on Saturday evening last. He was assisting at the time in unloading slabs from a sleigh when his feet slipped from under him and he fell full length on his side. Partially unconscious he was carried to his home and Dr. Muttart sent for. Beside the severe shock he had received, it was found that his thigh, about half way between the hip and knee, was broken. He is a poor man with a wife and two children depending upon him for support.

Remnants in dress goods very cheap at J. B. Macdonald's.

Obituary.

Mrs. Maria Lavinia, beloved wife of J. Benson Poole, and daughter of the late John D. Campbell, Esq., died at her home near Montague, Feb. 4, 1890, aged 43 years, leaving her husband, two daughters and two sons to mourn the loss of a loving wife and mother. About 24 years ago she with her husband were baptized by Dr. John Knox, and united with the Church of Christ at "Cross Roads," Lot 48, where her membership remained until her death. She was kind and gentle, and we doubt not she is gone to a fairer clime and a brighter home.

Mrs. Eliza J., beloved wife of W. W. Stewart, and daughter of the late Lawrence McLaren, Esq., of Brudenell, died at her home in South Boston, Oct. 21, 1889, aged 35 years, leaving her husband and one little boy with many friends in loneliness and sorrow. But she lived and died in hope of a better home. Mrs. McLaren was enjoying a visit with her daughter in Boston when the uncertainty of earthly things was illustrated strikingly in the sad termination of the pleasures by the chilling touch of the finger of death. Mrs. McLaren brought the little boy to her home in Brudenell, where he will have almost a mother's care.

In the year 1831, John Ching came to this island from Devonshire, England, and after becoming acquainted with nearly every part of the island he settled at Red Point, King's County. In 1834 he was united in marriage with Mary, daughter of the late Sampson Rose, Esq., North Lake. Seven sons and one daughter blessed this union, of whom six sons remain within easy distance of the old homestead and the widowed mother who is afflicted with total blindness. They all enjoy the blessings of the Gospel and live in hope. Bro. Ching was in early life a very zealous Methodist, but learning "more perfectly," was baptized into Christ more than 40 years ago by the Rev. John Shaw. Finally he united with the Church of Christ at South Lake, and although he had years of suffering they were also years of bright anticipation. "It is well." He died Feb. 10, 1890, aged 86 years.

Cruel Business.

The habit of yanking, twitching, and whipping the horse is not an indication of a good driver. If a man addicted to this method of driving will harness himself to a rig, and with his eyes blinded, a harsh bit in his mouth, and a person with the reins and a rawhide behind him, who, when he wishes him to start, gives him a cut with the rawhide, when he would have the speed increased gives him several additional cuts, and when he wants him to stop yanks the reins with force enough to nearly break his jaw, he will appreciate this style of driving, and knowing now it is himself without doubtless correct his method.

There is nothing more unreasonably or wasteful than this style of managing horses. Good sense requires that a horse be started, urged forward, and stopped by the voice, and that resort should never be had to the whip unless absolutely necessary. A horse then knows what is required of him, and the annoying and dangerous habit of suddenly starting and jumping is avoided. A great majority of the spasms, sprains and ringbones, not to speak of the heaves and numerous other horse ailments, are caused by this rough and thoughtless driving.

The Care of the Teeth in Childhood.

The importance of attention to the teeth of children, not only for their immediate comfort, but in view of their future benefit—an importance we have repeatedly urged—was again emphasized in a valuable paper read by Mr. Francisco Fox at a meeting of the Medical Officers of Schools Association. He said that doubtless many of the dental troubles of adult life are due to a careless disregard of the teeth when first erupted and during the earlier years of life, and that much might be done to combat deleterious influences, especially at that important epoch, the time of second dentition. Caries of the deciduous teeth, the deposition of tartar, which has a particularly destructive power, forming a nidus for the growth of bacilli and leptothrix, and rapidly disintegrating the enamel, and alveolar abscess of the temporary teeth, should each be temporarily treated. A point which Mr. Fox especially insisted upon was the too frequent neglect of irregularities of the permanent teeth, which are not only disfiguring, but from the increased and continuous pressure upon contiguous teeth, and the difficulty of keeping their surfaces clean, constitute a most frequent cause of decay and early loss of teeth.

FOR TEXAS.—Capt. Dennis Costell's, Postmaster at Bear River Line Road Station, started for Texas, U. S., yesterday, to look after matters in connection with the death of his son who was killed in Texas last October while acting as brakeman on a railway. The Captain expects to be absent about three months. His son had his life insured for two thousand dollars, which sum went to an only sister now residing in the States. He was killed almost last night while coupling cars. It is alleged that he lost his life through the defective management of the railway.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, averts the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. *Marl 90dy cod wky*

The rush to Goff Bros' is increasing. Boots still selling at bankrupt prices. New lines being put in our job lots. Will give you boots at price of the leather, and not charge you for making, or Goff Bros' world.
