SEVERE FIGHTING IN INDIA.

British Sustain a Reverse.

The Killed and Wounded.

CAMP ANAGAT, Sept 18.—Severe fighting has taken place between the second Brigade of General Sir Bendoa Blood's division and the Mamounds. The British loss includes British-born, one killed and seven wounded; Sikhs, 21 killed and 42 wounded; Gurds, 2 killed and 10 wounded; Goozers, 7 killed and 21 wounded; Sappers, 2 killed and 16 wounded. Many horses were killed.

The London Standard says the interruption of the advance is in every way deplorable, and it is absolutely necessary to retrieve the reverse.

The Brigade had moved out to attack the Mamounds in the Valley north of the camp to punish them for their assault of Tuesday night upon a force of General Jeffries at foot of Pawat Pass.

LATEST NEWS BY WIRE AND MAIL.

SIMLA, Sept. 16.—The British loss in the Samana operations, including that of the garrison of Saragari, is 30 men killed and 59 wounded. The number of casualties among the officers is due to men being entrenched, while the officers moved about uncovered.

PITTSBURG, Sept. 16.—After nearly three months idleness, between 15,000 and 16,000 miners in the Pittsburg district went to work today. At Columbus the 23,000 miners of the district will be at work before the close of the week. It is estimated that the strike, which lasted sixty-five working days, cost the people of the Pittsburg district between \$5,000,000 and \$7,000,000.

WASHINGTON, Sept. 16.—The navy department is resolved to free itself from the responsibility of sending American warships to foreign docks in the future and to this end the department will recommend to congress that appropriations be made for the construction of at least four dry docks. They will be located at Boston, Laguna Island, Norfolk and Mare Island, California, and it is hoped that congress will authorize the construction of at least some of them before long.

SIMLA, Sept. 16.—A small force of cavalry this morning passed the tribesmen who attacked the Punitive force at the foot of the Hawat Pass, commanded by General Jeffries, and killed twenty-one of the insurgents. The remainder of the enemy took up an inaccessible position on the hills and the cavalry was obliged to return after having suffered slight loss.

LONDON, Sept. 16.—Truth says: A great honor is reserved for Sir Julian Pauncefote, which was not conferred on any of his diplomatic colleagues. According to the regulations he would retire in 1893 but Lord Salisbury has extended his term of office at Washington for 12 months. Neither Lord Dufferin, Elliott nor Thorn-ton obtained such a distinction. It is a very great compliment to Pauncefote, who deserves it, as he has proved altogether the right man in an especially perilous epoch.

CONSTANTINOPLE, September 16.—It is reported that the text of the revised treaty of peace between Turkey and Greece fixes the indemnity to be paid by Greece to Turkey at £4,000,000 Turkish. It is provided that the state of war shall cease as soon as the preliminary act is signed; that the evacuation of Thessaly by the Turkish troops shall take place in a month after the Powers shall have recognized the treaty, and that an international commission shall be established, at Athens, to control the indemnity loan and other state debts of Greece.

TORONTO, September 16.—An Ottawa special to the Globe says: "A letter has been received to-day from Assistant Commissioner McIlree, dated Skagway, September 2, in which he describes the difficulties of getting the police party which he has in charge over the summit. He adds: "The trail gets more crowded every day, and it is almost impossible to move. People are struggling without the slightest chance of getting over, but they will not give up. Inspector Harper's forward camp moved to-day within three miles of the summit, but there is lots of stuff to go on yet from this end. It is going to take all our time to get Harper through before the snow comes. There is snow on the top of the mountains now. I am afraid of the provisions spoiling." It was the intention to have Harper's party build huts at Tagish, which is to be the first post and custom point. After he got over the summit he would have to go forty miles to reach Tagish. The whole party is evidently having the hardest kind of a time, and upon them depended the facilities for the police parties who are to follow.
