The Land Office Muddle.

WHILE the act of 1891, authorizing discounts in the Land Office to those who would pay in full, has opened the door widely for favoritism and corruption, it has completely failed in securing a settlement of long outstanding accounts. We have already shown that only eighty-three (83) accounts, on which no payment had been made since 1880, representing $8,680.50, were paid off in 1891. The Patriot thinks this is "not too bad a showing" in view of what it calls the "unjustifiable indulgence" of the Conservatives while in office. A few additional figures will show not only the utter failure of the Peters Government in collecting old debts, but the injustice of the Patriot towards their predecessors.

On the 31st of December 1882 there were 1875 accounts in the Land Office, on which no payment had been made since the end of 1877. Seven years later, on the 31st of December, 1889, the number of accounts on which no payment was made since 1877 was reduced to 1155. Seven hundred and twenty (720) accounts on which no payment was made since 1877 were wiped off in the seven years between 1882 and 1889. During the same period 2017 accounts, in all, were closed, of which 36 per cent. belonged to the class on which no payment was made since 1877. On an average 103 of these accounts were closed out each year between 1882 and 1889.

Then look at the record of the Peters Government for 1891. Only forty-three (43) accounts were settled on which no payment was made since 1877. The discount on these accounts was $1064.82. Of the accounts closed last year less than 6 per cent. belonged to the class referred to. Mr. Ferguson in each year for seven years, closed out 103 old accounts without giving any discount. Mr. McMillan in 1891 only closed 43 of the same class of accounts although $1064.82 were given in discounts!

We make the comparison between the seven years from 1882 to 1889 and the year 1891, because the data necessary for the purpose is only furnished at two dates, viz.: December 31st, 1882, and December 31st, 1889.

The Patriot brags about the large amount received at the Land Office last year as compared with the receipts of 1889 and 1890. The reduced receipts of the latter years were due to the fiendish attempts of the grits to injure Mr. Ferguson, because of the fault of a subordinate in the office. The comparatively large amount received in 1891 has been obtained at an appalling cost to the taxpayers of the Province. Very nearly $20,000 have disappeared in discounts, office expenses and shortage in cash in the collection of $73,000, over 90 per cent. of which has been paid by the most independent and solvent class of public debtors, leaving the old and bad accounts comparatively untouched.

The grinding taxation of the near future will open the eyes of the people to see the mistake by which Mr. Frederick Peters was able to get control of the Land Office.

Notes and Comments.

—The Chilian Congress has issued a statement of the amount of money expended by the late dictator, Balmaceda, in his effort to put himself in power: The dictatorial issues amounted to 20,642,952 dollars in paper and 774,358.50 dollars in subsidiary coinage.

—A special from Cincinnati says: The Canadian Pacific Railway is about to succeed in a project it has been figuring on for two years—to get into Cincinnatti, which with its suburbs within a ten-mile radius now numbers 400,000 people, and has an immense freight traffic in manufactured and raw material.

—Accounting for the long series of Government victories and Opposition reverses in Ontario the Colonist of Victoria, B. C., says:—

"Canadians are not fickle. They are, on the contrary, a steadfast people, but they resent being deceived."

Yes, that is it.

—Negotiations with France have delayed the discussion of the Anglo-Spanish treaty, but Sir Charles Tupper expects to leave for Madrid shortly. A deputation of Newfoundland merchants have asked Sir Charles Tupper to co-operate to secure for Newfoundland the most favorable treatment from Spain. A member of the Newfoundland government is going to London shortly to act with Sir Charles Tupper and the British government.

—We have no disposition to deprive the Commissioner or Public Works of all the glory which radiates so sweetly from the water-closet job. But we must say that we have the assurance of Messrs. Phillips & Chappell that they told both Mr. Premier Peters and Mr. Commissioner McLean—after their offer to superintend the work for one per cent. had been rejected—that they would rather superintend the work for nothing than see it superintended by one who knew nothing whatever about it. They repudiate all responsibility for the indescribable odors which overcame the lawyers assembled in Judge Alley's office. By the way, would it not be well to have Judge Alley's chamber in the Law Courts building—where it properly belongs?

—That a musical awakening is taking place all over the Island is evident in many ways and it is also certain that our people, who are as a class very musical, are beginning to take a deep interest in good music. Hence no effort made in a musical direction should pass without due notice and encouragement. Mr. L. W. Watson, the talented and painstaking organist of St. Peter's Church in this city, has lately written music for the communion service which was performed for the first time at yesterday morning's service in that church. The musical setting is, throughout, meritorious and eminently suited to its sacred purpose. It is written in a devotional spirit, and we hope that an opportunity will soon be given of hearing the service done more ample justice to. In the service Mr. Watson exhibits a good deal of solid musical ability and we sincerely hope that that gentleman, having began so well as a composer, will not relinquish his efforts in this direction, but follow with zeal and devotion the lines which he has so successfully laid down for himself.

—In an article in the North American Review on the servant girl question, Miss Amelia Barr makes the following suggestions to the mistress of the house:

1. The relation should be put upon an absolutely commercial basis, and made as honorable as mechanical, or factory, or store service.

2. Duties and hours should be clearly defined. There should be no interference in personal matters. There should be no more personal interest expected, or shown, than is the rule between any other employer and employee.

3 If it were possible to induce yearly engagements, they should be the rule; for when people know they have to put up with each other for twelve months, they are more inclined to be patient and forbearing; they learn to make the best of each other's ways; and bearing becomes liking, and habit strengthens liking, and so they go on, and on, and are pretty well satisfied.

A writer in an English magazine says the practice of hiring servants for six months or a year works so well in English homes that it is becoming the general rule. It has always been the rule in the country houses of the rich and among the squires and well-to-do farmers, and is now being adopted by the upper and lower middle class in cities and towns.

—An explanation of the visit of Hon. Messrs. Foster and Bowell to Washington is afforded by the following telegram. Whether or not it is absolutely true we cannot say:

"WASHINGTON, June 3.—Secretary Blaine and General J. W. Foster, representing the United States, Sir Julian Pauncefote, Hon. Geo. E. Foster (Canadian Minister of Finance) and Hon. McKenzie Bowell (Minister of Customs), representing Great Britain and incidentally the Dominion Government, had a conference at the State Department to-day in regard to trade relations between the United States and Canada. The main question at issue is alleged discrimination on the part of Canada against the United States in the matter of tolls on the Welland and St. Lawrence canals. The discrimination is held to be in violation of Article 22 of the treaty of 1871. The Dominion Government at the opening of the season issued an order regulating tolls on the two canals. There has been much complaint on the part of citizens of the United States for years past that the order created a marked discrimination against American ports and American lines of transportation in the interest of Montreal and connecting lines of transportation. Secretary Blaine says the Canadian ministers brought about the present conference with a view to reaching an agreement that will obviate any desire of this government to adopt retaliatory measures."

—The statement recently put forth that the German steamship lines are rapidly absorbing all the Atlantic passenger traffic is not founded on fact. It is quite true that the German lines are doing an immense business, but it is to be remembered that they have the whole continent of Europe to draw from, whereas the British steamship lines carry British and Scandinavian passengers almost exclusively. The German Government places such restrictions upon British vessels that they are practically excluded from the German business. Taking account of the number of trips, the British steamers do remarkably well as compared with the German, notwithstanding the larger field which the latter possess. Thus the North German Lloyd line last year landed 16,600 cabin and 68,000 steerage passengers at New York in 123 trips, making the average of cabin passengers per trip about 140 and of steerage 560. On the other hand, the White Star line averaged 250 cabin passengers for each of its 52 trips and 700 steerage; with 61 trips the Cunard averaged 240 cabin and 450 steerage; and the Inman with 48 trips averaged 250 cabin and 540 steerage. The German lines have cut rates "away down," and in consequence the struggle between them and their British rivals is not making the fortune of the German investor. But they are heavily subsidised by the German Government and perhaps can afford to hold out.

Personal.

William Boyle, Esq., returned from his business trip to Newfoundland on Saturday evening.

Mayor Haviland returned from Philadelphia on Saturday evening. His daughters remain in the States.

Dr. Charles E. Saunders, third son of Prof. Wm. Saunders, of Ottawa, has been appointed Professor of Chemistry and Mineralogy in the Central University of Richmond, Ky.

Messrs. J. J. Davies, S. W. Crabbe, Duncan McLean, and John Ross, left this morning for Amherst to be present at the meeting of Royal Arch Chapter, A. F. and A. M., to be held there to-morrow. The Grand Lodge meets at the same place on the following day.

The North Sydney Herald says: R. McDonald, of the People's Bank of Halifax, has been appointed teller of the North Sydney branch. Mr. McDonald arrived from Halifax on Thursday last. He is a son of Senator McDonald, Charlottetown, and ex-governor of P. E. Island.

Mr. W. J. Truelove, formerly in the employ of J. D. McLeod & Co., is in the city. He left the Island nineteen years ago and has since sojourned in the United States, latterly in Southern California, where he owns property. He is an enthusiastic Adventist and states that several missionaries of that faith are expected to visit the Lower Provinces the present year.

The party of prominent ladies whom Princess Louise is bringing to visit Canada next year, after they have seen the World's Fair, is another indication of the great interest which Her Royal Highness and the Marquis of Lorne have exhibited in all Canadian matters since they left our shores. Lady Dufferin, if indeed she she should come with the distinguished party, will see a great change since leaving us in 1878, a change, it is needless to say, very much for the better. Toronto has doubled since then, whilst the appearance of the country from Halifax to Vancouver is very much altered for the better. We trust the arrangements will be successful, and we are sure the welcome will be warm.

LETTERS TO THE EDITOR

The County Court.

SIR,—We, the undersigned members of the Bar, having frequent occasion to attend before Judge Alley, at Chambers, are in a position to know the condition of the office of the clerk of the County Court, which is also used as Judges Chambers.

We have found the stench in this room nauseating and offensive, and it must have an injurious effect upon any person obliged to remain there for any period of time. We cannot undertake positively to say from what cause the offensive smell arises, but we are satisfied that it has become aggravated since the nest of water closets was placed next to the County Court office. We are glad that public attention has been called to this subject, and hope that its discussion may be the means of improving the clerk's office, as well as of providing suitable chambers for the Judge of the County Court. Apart from the objectionable condition of the room, the clerk's office is an unsuitable place for holding Judges Chambers. It is entirely too small, and arguments conducted there are subject to continual interruption by parties having business to transact with the clerk.

It is in the interests of the public as well as of the profession that certain days in each week should be fixed as Chamber days, and application has been made to the Judge to assign fixed days for this purpose, but he has declined to do this until suitable apartments are provided in which to transact Chamber business.

Bicycling.

SIR,—I am the rider of a bicycle, and with your kind permission, will give a few reasons why I would like to see a large proportion of our citizens ride one also. The "reasons are not my own, but are all the better on that account, and I heartily endorse them:

1st. To be in keeping with the times.

2nd. For the pleasure, pure and simple, to be derived from it.

3rd. Because it combines health with pleasure to a greater degree than any other form of recreation.

4th. A sound body and mind for the price of a bicycle is a good investment.

5th. Bicycling is a popular, clean, healthy sport, and a wheel is good company.

6th. Its benefits are manifold; its results uniform. By an even distribution of exercise the entire system is strengthened and invigorated. The muscles are hardened, the lungs expanded, circulation promoted, digestion aided and the over-taxed mind relieved.

7th. It is exhilirating, stimulating; while it is a positive mental diversion there is nothing perfunctory, nothing monotonous about it.

8th. The man of sedentary habits throws off the confinement of the office and seeks relief in enjoyment of nature. To ride into the country with its ever changing scenery, and to breathe the healthy air is fraught with keen enjoyment. The nerves are relieved and sound health and sleep promoted.

I would like to go on and on, but I feel that I have already trespassed too heavily on your space and kindness, and if you will allow me will have something further to say in another letter.

OTTAWA, June 3.—The annual meeting of the Royal Society is closed. Dr. Bourinot, clerk of the house of commons, is president for the ensuing year.

PARIS, June 3.—Carl Ferrieres, editor of Gilblas, and Paul Reymond fought a duel yesterday with swords. Reymond is the husband of Mme. Reymond who recently finding her unfaithful spouse in the company of Mme. Delaporte Lassimonne shot and stabbed the latter to death. The duel was the outcome of an article which reflected on the part taken by M. Reymond in the terrible affair. Mr. Ferrieres received two serious wounds in the chest. Reymond was unhurt.

LONDON, June 3.—A despatch from Calcutta says there have been over 3,000 deaths from cholera at Serinagur. A despatch from Shanghai states that many anti-Christian placards have been posted in Wusung and Kiangho.

FARMINGTON, Me., June 3.—Two sisters, Alice and Florence Taylor, of Rangely, 16 and 18 years of age, went bathing yesterday in Sandy River. The last named one got beyond her depth and the other tried to rescue her when she too was dragged into deep water and both were drowned.

MONTREAL, June 3.—Lord and Lady Mount Stephen arrived here to-day. His Lordship speaks most encouragingly of Canadian affairs in Great Britain. He is still an ardent supporter of the national policy and says English workingmen are protectionists. Lord Mount Stephen will remain here until President Van Horne returns on Sunday when the ex-president will go down to Little Metis.

AMHERST, N. S., June 3.—A cablegram was yesterday morning received by Mr. Ketchum from Meiggs & Son, of London, Eng., instructing him to proceed at once with the pumping out of the water which was accumulated in the Ship Railway docks since the work was suspended. Pumping operations were accordingly commenced at the Fort Lawrence dock, and it is expected that in three weeks' time the docks will be again clear of water. Mr. Ketchum left this morning for Tidnish to see to the carrying on of the work there.

Hunter River Tea.

A GRAND TEA MEETING, in connection with the Union Church of Hunter River, will be held at the above-named place on THURSDAY, the 23rd day of JUNE. A saloon, well furnished with Temperance Drinks and all the delicacies of the season, will be on the grounds. There will also be a dinner table in connection with the tea table. Swings and other suitable amusements will be on the grounds. As this will be the first tea of the season, the Committee will spare no pains in making it pleasant for all who will favor them with their presence on that day; and will also make it as hot as possible for fakirs and rum sellers should they put in an appearance. Should the day prove unfavorable, the tea will be held on the following day. Arrangements will be made with the Railway for reduced fares from Charlottetown, Summerside and intermediate points. Come one, come all, and enjoy a good day's sport.
