..*MONTAGUE pre-Easter service tonight 8 p.m. in the Baptist Church. Preacher Rev. W. A. Patterson.

Personals

..*Mr. and Mrs. Cecil Campbell have returned to their home at Whim Road after spending the winter months in Florida.

..*Miss Susan Butler has returned to her home at Milltown after being a patient in the King's County Hospital.

Lorne Valley and Vicinity

..*Mrs. Angus Nicholson was a business visitor to Montague on April 1.

Mr. Francis MacIntyre was a recent visitor to Marie and Midgell.

Mr. Earle MacDonald and Mr. Lloyd MacDonald were business visitors to the City on April 5.

Mr. Charles MacLeod, Montague, spent Sunday with his wife and family here.

Miss Emma Nicholson spent a few days with friends in Charlottetown during the week.

Mr. and Mrs. Bruce Myers, New Perth, were Sunday guests at the home of Mrs. Myers' parents, Mr. and Mrs. Daniel Shaw, on April 4.

Mr. George Nicholson, was a recent business visitor to Lorne Valley.

Miss Shirley MacDonald was a visitor to Montague on April 1.

Mr. Daniel Shaw, Mr. William Hatton and Mr. Raymond Shaw motored to the City to attend the annual Island Fat Stock Show on April 1.

The Junior Red Cross held their meeting in the School on April 2. The regular business period was conducted, and this was followed by Contests which were won by Gloria MacLeod and Beverly Hatton.

Mr. and Mrs. Grover MacKay, Strathcona, were visitors to Lorne Valley on April 1. While here they were guests of Mrs. MacKay's parents, Mr. and Mrs. James MacNeill.

The Roads in this vicinity are in wonderful condition, considering the changeable weather of the past two months. Motor traffic keeps moving without any difficulty, and without much injury to the road.

The April meeting of Lorne Valley Women's Institute was held at the home of Mrs. Lloyd MacDonald with an average attendance. After several items of business were dealt with, a social time was enjoyed. Mrs. Malcolm MacLeod put on a T-Contest, and Mrs. Lloyd MacDonald won the prize. Mrs. Francis MacIntyre invited the members to her home for the May meeting.

Mr. Heath MacGrath and Mr. Charles MacLeod were visitors to Bristol on April 4.

Mr. Lloyd MacDonald was a business visitors to Montague on April 3. —AM.

Vessel With 500 Tons of Cement Docks At Souris

....*A motor vessel, the Carlisle Bay, docked at Souris over the week-end with 500 tons of cement from Corner Brook, Nfld. It was the first cargo boat to enter Souris harbor this year.

The cement is for construction work at Souris, most of it for the Griffin's Fisheries plant. The remainder is for MacDonald Bros., potato chip plant.

Work Progressing On New Montague Federal Building

..*It is expected that in a few days the public building at Montague will be entirely closed in with tile and brick work fast nearing completion. The east side and south side are being faced with limestone slabs which present a very attractive appearance, and which will lend immeasurably to the attractiveness of the town. This work is also almost completed and will be finished in a matter of a few days. At the same time other workmen are engaged putting up the tile partitions between the respective departments and rooms.

The first floor will be utilized by the Post Office in the south section, and the Customs Department in the north section. The upper floor is allotted to the Montague detachment R. C. M. P., and the Fisheries Department. Besides the main office for the police, living quarters are also being provided for the members of the detachment.

Within a few weeks it is expected that the work will be begun on the inside of the building, and it is understood that the contract may be completed by early fall.

Georgetown And Vicinity

Mrs. William Murphy was a visitor to Cardigan on April 7.

..*Mr. Louis Cantello of Bridgetown was a business visitor to Georgetown on April 6.

Mr. Robert Jeffery is visiting with relatives in Charlottetown.

Mrs. Bud Currie and young son of Charlottetown, were recent guests of Mrs. Currie's parents, Mr. and Mrs. Wilfred McQuillan.

Mrs. Mabel Lavers is visiting with her son and daughter-in-law, Mr. and Mrs. Theodore Lavers of Charlottetown.

Mrs. Frank Paquet, of Souris, was a recent visitor to Georgetown where she was a guest at the home of Mr. and Mrs. Clarence David.

Friends of Mr. Richard Lavers are sorry to hear that illness has necessitated his entering the veterans' wing of the Prince Edward Island Hospital.

Mrs. James Coldwell and son James, have returned to their homes in Charlottetown after being the guests in Georgetown of Mrs. Coldwell's parents, Mr. and Mrs. Stephen Landry.

Mr. Joseph Dalton recently returned to his home in Georgetown after spending the winter months at Vernon River.

Friends of Mr. J. H. Skinner, first war veteran, who has been a patient in the veterans' wing of the Prince Edward Island Hospital for the past few months, are pleased to hear that his health has sufficiently improved to allow his return to his home in Bridgetown on April 5.

On April 4, Ralph Reginald, infant son of Mr. and Mrs. Peter MacDonald, was baptised in St. James Roman Catholic Church by Rev. Owen Kiggins. The sponsors were Lillian MacDonald and William Murphy, Jr. —A.C.

LEGISLATIVE COMMITTEE REPORTS ON CONDITION OF PUBLIC BUILDINGS

The condition of the public buildings of the Province is a matter of general interest, and Friday the Legislative Committee on Public Buildings submitted a report which was commended by the House for its thoroughness. Members of the committee are Hon. Dougald MacKinnon, chairman, Messrs. George E. Saville, Frank Myers, Harvey Douglas and Hubert J. Gaudet. Following is the text of the report:

Your Committee has visited as many of the 120 public buildings as time and other duties of the Legislature permitted, and reports on these buildings as follows.

Government House—This fine old building was found to be in a remarkably good state of repair considering its age and frame construction. The exterior of the building appears to be in good condition, except that it is time for a new coat of paint. The interior of the building was found to be in immaculate condition and reflects great credit on Lieutenant Governor and Mrs. Prowse.

The floor joists, as viewed from the basement, are showing signs of decay. Many have been replaced and more replacements will be necessary from year to year to keep the building in a proper state of repair. It was noted that one carpet has become badly worn, and stains have appeared in a few places on ceilings. Set tubs in the laundry room are causing minor trouble.

With these few exceptions, the building presents an excellent appearance and is quite satisfactory to the Committee.

The Garage Building at Government House was also found to be in a satisfactory condition, except that it needs a coat of paint on the outside.

Prince County Court House and Jail—This brick building was visited and the Committee shown through it by Sheriff Hubert Hall. The exterior of this building appears to be in good condition with the exception of brick work around the front door steps which needs pointing.

The interior of the Court House section of the building is in good condition except that the top floor (where the R.C.M.P. formerly had office space and living quarters) is in need of a complete redecorating job. This should not be done, however, unless occupants are found for this space.

In the Jail Section of the building, the Sheriff outlined many recent changes which have been made, and it now appears that this section is secure against breakouts.

The use of light coloured paint is recommended to brighten the place up.

The Government Garage Building, Summerside — This frame struture was viewed from the outside only, and its condition was satisfactory to the Committee.

Queen's County Jail—This brick building is in good general condition. One toilet room needs a new partition and one new toilet. The general condition of the cell block was somewhat untidy. It was thought that with so many inmates, some help could be obtained from them in keeping the place clean.

Beach Grove Infirmary — Mr. Bonnell conducted the Committee through this frame building which was formerly a summer hotel. The condition of the building is satisfactory in every respect.

Falconwood Hospital — (a) Female Division — The condition of this brick building is generally satisfactory.

It was noted that conditions in the Disturbed Ward on the basement floor are more than usually crowded, but it is understood that steps are now being taken to remedy this condition. A partition is being built which will present rearrangement of "Day" and "Night" rooms to give more comfortable conditions in this ward.

More toilet and washroom facilities are being added.

(b) Male Division—The condition of this brick building was generally satisfactory,

(c) Occupational Therapy—This frame structure, formerly an airport building, was found to be in a satisfactory state of repair, and doing very worthwhile work in assisting with treatment of patients.

(d) The New Treatment Centre —The Committee were shown over the foundation of the New Treatment Centre, construction of which will be resumed, it is understood, as soon as weather conditions permit.

(e) **Boiler House**—This new steel framed, asbestos covered building was visited by some members of the Committee. This building, which houses one old and two new boilers of sufficient capacity to care for the heating needs of the existing buildings, plus additions in the foreseeable future, is just nearing completion and is expected to be in service in about one month's time. When the new boilers are started, oil will be used for fuel instead of coal as at present.

(f) **Nurses Home** — This frame structure, which was formerly an airport building, was found to be in a satisfactory condition except for the need of interior painting. (This painting is now poceeding.)

(g) The Central Laundry — This building was found to be in a satisfactory condition, but some of the machinery appears to be worn out. A new mangle and one new extractor should be ordered as soon as possible.

(h) **Barns** — The barns are in good condition and house a fine selection of livestock which showed evidence of being well looked after.

Provincial Infirmary—This brick building, formerly the Prince Edward Island Hospital, was found to be satisfactory in general.

It was noted that trouble with toilets has caused severe damage to several ceilings. Floor covering is badly needed in some basement rooms and corridors. Laundry facilities are inadequate.

It was felt that a walk-in refrigerator should be added as near to the kitchen as possible, and in the Matron's quarters more living room furniture is needed.

Prince of Wales College — Dr. MacKinnon accompanied the Committee through Prince of Wales College, covering all floors including the basement.

The condition of the building was satisfactory in every way, and while there was some evidence of carelessness on the part of the students, it was of a minor nature and will no doubt be covered up by the next coat of paint.

Vocational School — Mr. MacMurtry and Mr. Cameron took the Committee through this brick building which is in good condition throughout. The only criticism of this building is that it seems already too small for the very numerous activities carried out in it. It should be noted here that the Brick Laying Class had to be held in the Government Garage this year because space was not available in the Vocational School for the large number of students taking the course.

Provincial Sanatorium—Dr. Creelman and various staff members conducted the Committee through both the old and the new sections which are, of course, now joined into one brick building. The building is excellently kept, both inside and out.

A concrete surfaced road to carry heavy trucks around to the back of the building is badly needed.

The absence of a sprinkler system, such as has been installed in the Male and Female Divisions at Falconwood, Beach Grove Infirmary and the Provincial Infirmary was noted. The Committee was informed that the City water supply at the Sanatorium is such that a sprinkler system would not be reliable, and the makers of sprinklers are unwilling to install a system until water supplies in the area are made adequate.

Court House, Charlottetown — The condition of this brick building was found to be generally satisfactory both inside and out. Painting is needed in the Grand Jury Room.

Court House, Georgetown — This stone building was found to be in good shape outside except:

(a) the kitchen chimney should be extended and a chimney pot added;

(b) pointing of the stone work is needed in a few spots; and (c) a roof gutter needs repairs.

On the inside, the conditions were found to be generally satisfactory with the following exceptions:

(a) a new kitchen stove is required;

(b) floor covering is needed in the corridors.

(c) several chairs in the Court Room are in need of repairs; and (a) fire protection be placed under the kitchen stove.

Simms Building, Charlottetown —This brick building, now occupied by the Royal Canadian Navy, was
