Prince Edward Island Like The Dew"

Court Action Develops In S'side School Dispute

Tuition, Accommodation Sought For St. Mary's Academy Pupils

SUMMERSIDE BUREAU OF THE GUARDIAN
A writ of summons was served yesterday on the secretary of the Board of School Trustees of Summerside, Mrs. Margaret MacDon-ald, to compel the School Board

to provide tuition and school accommodation at the beginning of the fall school term for students of St. Mary's Academy.
With a present enrollment of 758 students, the academy is operated by a commission of St.

Paul's Roman Catholic Episcopal Corporation in Summerside.
The St. Mary's Academy commission includes Dr. Hubert McNeill, chairman; E.P. Foley, M.L.A., vice - chairman; Gordon Kelly, secretary; F. Earle McDonald, Dr. W.E. Callaghan, P. Lorne Driscoll, and Henry Wedge.

The legal action yesterday followed a sudden development last weekend when it was reported that the convent school would be closed at the end of June unless the School Board assumed the cost of its teachers' salaries and the maintenance costs of the classrooms which were offered to the board at a nominal rental.

Yesterday it was learned that the School Board had not, as first reported, refused to accept the students from St. Mary's Academy for at least a year, but rather, had felt that it might not be possible to accommodate them until 1960 because their unexpected transfer to the public schools on such short notice, would necessitate the construction of additional classrooms which they felt could not be done in a three month period.

The writ of summons served yesterday on the secretary of the School Board was issued by J.O.C. Campbell, Q.C., of Charlottetown for the plaintiff, Sandra Ann McNeill, daughter of Dr. Hubert McNeill, "on behalf of herself and all other members of a class comprising the children of school age registered at St. Mary's Academy."

This writ demands sufficient school accommodation and tuition free of charge, to the plaintiff and the class she represents alleging the defendant having by motion, passed at a meeting of the defendant held on June 9, neglected and refused to do so.

The School Board have eighteen days in which to signify their intention to defend, in the legal action before the Supreme Court of Prince Edward Island.

Members of the Summerside School Board are D.O. Stewart, Q.C., chairman; T. Earle Hickey, Dr. J.A. Doiron, Dr. Roy Grant, Harry Holman, Alex Horne, Judge W.E. Darby.

PRESIDENT

Gilbert A. Gaudet Q.C. of Charlottetown was named president of the Prince Edward Island Law Society at the annual meeting held last night. (Story on page 3)

Insurance Fund Bill Raked With Criticism

OTTAWA (CP) — The government's legislation increasing worker-employer contributions to the unemployment insurance fund was again raked with criticism in the Commons Tuesday.

Paul Martin (L.-Essex East) said the government has evaded its responsibility by "imposing" on labor and industry increased contributions averaging 30 per cent.

He said that under amendments to the Unemployment Insurance Act, contributions to the fund will be increased by some \$100,000,000 of which the government would pay \$16,000,000. The rest would come from workers and employers whose increased benefits

would amount to only some \$25,000,000.

Never had labor and management been so united against any government measure in the history of Canada, Mr. Martin said.

REPLENISHED FUND
When the Liberals had extended benefits under the act, they had replenished the fund out of consolidated revenue, that is, general taxation. But the Progressive Conservatives were imposing new taxation on a segment of the population.

Mr. Martin said Labor Minister Starr would not even defend the measure in the Commons. Mr. Starr, in the House, did not reply.

The only Progressive Conservative who had spoken in favor of the bill was Theogene Ricard, St. Hyacinthe - Bagot, who had contended that the legislation was welcomed by laboring groups. This was not the case, Mr. Martin said.

Representatives of employee and employer groups across Canada had expressed keen dissatisfaction with the bill.

Mr. Martin said losses in the unemployment insurance fund were practically equal to the new contributions now being imposed on workers and industry.

Red Plane Hits Yanks

WASHINGTON (AP) — Communist jet fighters jumped a United States Navy patrol plane over the Sea of Japan Monday, badly wounding the tail gunner. Although riddled, the American craft escaped.

Word of the attack off North Korea came Tuesday from the defence department, which said two Russian-built MIG fighters were believed involved. First reports did not say whether the American P-4M fired back.

The plane was on a routine training patrol from its base on Japan.

It was the first such incident in the Far East since last November.

U.S. authorities were unable immediately to identify the nationality of the attacking craft which bore red stars on their silver fuselages. The Russians, Red Chinese and Communist North Koreans all use red-starred MIGs.

Help Is Given To Lanarkers

LANARK, Ont. (CP) — The whole village and countryside pitched in Tuesday to help this community of 900 towards recovery from a fire that almost wiped it off the map.

The spirit of co-operation and industry in the wake of disaster was the striking feature a day after wind-swept flames reduced to rubble 35 buildings along what was the main street of Lanark, 35 miles southeast of Ottawa.

Loss is estimated at \$2,000,000. There were no major injuries. Exact cause remains unestablished.

Prison Riot Is Curbed

HAVANA (AP) — Rioting prisoners attacked their guards in crowded Principe prison in the centre of Havana Tuesday. They took over the walls of the prison but were held at bay by gunfire from a ring of reinforced police.

Repeated volleys of shots rang out from the area as guards attempted to control the disturbance. It lasted more than four hours.

Rioting erupted when prison officials began a roll call of convicts being transferred to another prison.

A group of the prisoners attacked the officials calling the roll and then made for the walls.

About 600 topped the walls and buried rocks at guards stationed outside.

Anti Sub Planes Start Long Flight

HALIFAX (CP) — Three anti-submarine Argus aircraft will leave Greenwood, N.S., Wednesday on a non-stop flight to Gros Tenuin, France, the RCAF's Maritime Air Command headquarters announced Tuesday.

The planes, each carrying a 15-man crew, will visit the United Kingdom and France. They are due to return to Greenwood July 19.

An RCAF spokesman said the trip will show the Argus to overseas members of the RCAF, the RAF coastal command and representatives of other NATO countries.

BRIDGE IS BEING REBUILT

These men rode down with the disastrous collapse a year ago of two sections of Vancouver's second narrows bridge. The accident of the partially-com-

pleted structure took 18 lives and injured 26 others. Many went back to the job, including these six ironworkers, from left to right, Bill Stroud, Norman At-

kinson, Lucien Lessar, Charlie Geisser, Colin Gendinning and Bill Wright, who stand on a part of the bridge now being built. (CP Photo)

Security For Future Or Opportunity Are Seen As 'Choice For Maritimes'

SAINT JOHN, N.B. (CP) — An Atlantic provinces businessman today pointedly urged the Atlantic area to make its choice between security and opportunity.

L. H. Manuel of Halifax, general manager of A.M. Bell and Company Limited, said during a panel discussion on Atlantic provinces progress at a session of the Maritime Provinces Board of Trade annual meeting, he is convinced "we cannot have both."

The MFPT meetings conclude today.

He asked if Maritimers were not, in their day-to-day living, placing too much emphasis on security first and opportunity second.

He said he felt his had been the case in too many instances in the past.

He had listened too often to people telling their children to "get themselves good government jobs" because they would be sure of a good living regardless of what happened to the economy.

He had also found the "civil service attitude" in many older people who had made a place for themselves in the community and then had been content to sit back and live off their former efforts.

Young men coming into business life must have the leadership of the business community as they grow in the business field, he said.

Other panelists were J. Eric Cormier of Moncton, industrial

life insurance company district manager, Don Jamieson, St. John's Nfld., CJOH - TV Vice-president and Brig. Michael Ward, Fredericton, publisher of the Atlantic Advocate and the Daily Gleaner.

MOVE IS BACKED BY IKE

By JOHN E. BIRD
OTTAWA (CP) — A United States drive to attract foreign

tourists and keep Americans at home will seriously hurt Canada's multi-million-dollar tourist business by 1960, the Senate tourist traffic committee was told Tuesday.

John Fisher, executive director of the Canadian Tourist Association, said a "gigantic program" to promote the U.S. tourist industry is being organized for 1960 with the blessing of President Eisenhower.

It was being supported by all levels of government, tourist associations and large business corporations. The aim was to reverse the post-war trend of Americans travelling in other countries.

Mr. Fisher said 1960 is being billed as Travel in U.S.A. Year. Arrangements were being made even to facilitate the entry of foreigners to boost the U.S. tourist business.

SEES DIFFICULT YEAR
The U.S. program to attract tourists will "make our situation much more difficult in 1960," he said.

(The government estimates that Canada's tourist deficit with all countries last year totalled \$192,000,000. Canadians also spent \$102,000,000 more in the U.S. than Americans spent in this country.)

Mr. Fisher said the federal and provincial governments, private industry and the tourist business should take five main steps to encourage visitors to Canada.

They were:

- 1. Low-cost federal loans to tourist operators to enable them to improve accommodation.
- 2. More advertising by the Canadian government travel bureau in the U.S.
