## POETRY.

*WHY DON'T YOU TAKE THE PAPERS.*

Why don't you take the papers?
They're the life of my delight;
Except about election time,
And then I read for spite.

Subscribe! you cannot lose a cent—
Why should we be afraid?
For cash thus spent is money lent
On interest four-fold paid.

An old newspaper friend of mine,
While dying from a cough,
Desired to have the latest news,
While he was going off.

I took the paper and I read
Of some new pills in force;
He bought a box—and is he dead?
No—hearty as a horse.

I knew a printer's debtor once;
Racked with a scorching fever,
Who swore to pay her debts next day,
If her distress would leave her.

Next day she was again at work,
Divested of her pain,
But did forget to pay the debt,
Till taken down again.

"Here, Jesse, take these 'silver wheels',"
Go pay the printer now!"
She spoke, and slept, and then awoke
With health upon her brow.

I knew two men as much alike
As e'er you saw two stumps,
And no phrenologist could find
A difference in their bumps.

One took the papers, and his life
Is happier than a king's;
His children all can read and write,
And talk of men and things.

The other took no paper, and
While strolling through the wood,
A tree fell down upon his crown
And killed him "werry good."

Had he been reading of the news
At home, like neighbor Jim,
I'll bet a cent that accident
Would not have happened to him.

Why don't you take the papers?
Nor from the printer sneak,
Because you borrowed from his boy
A paper every week.

For he who takes the papers,
And pays his bills when due,
Can live in peace with God and man;
And with the printer too.

## LEGISLATIVE COUNCIL.

TUESDAY, March 16, 1876.

The Legislature having been summoned by His Honor Sir Robert Hodgson, Lieutenant Governor, to meet this day for the despatch of business, the following members of the Legislative Council were present, viz:—

| | |
|---|---|
| Hon. Mr. Balderston, | Hon. Mr. McGill, |
| " Bolger, | " Munn, |
| " Dodd, | " Strong, |
| " Laird, | " Walker, |
| " McDonald, | " Wightman, |
| McEwen. | |

His Honor the Lieutenant Governor came down to the Council Chamber at three o'clock, and opened the session with the following speech to both Houses:—

(*See issue of the 20th March.*)

The speech being ended, the House of Assembly withdrew, and His Honor the Lieutenant Governor was pleased to retire. The President (Hon. Mr. Joseph Wightman, elected in the room of Hon. Herbert Bell, deceased,) reported the speech to the House, and again the same was read by the clerk, John Ball, Esquire.

On motion of Hon. Mr. Strong, seconded by Hon. Mr. Laird, Rev. Duncan D. Currie was appointed chaplain to this House in the room of Rev. George Webber who had left the Island.

After prayers by the chaplain, the House proceeded to the appointment of the following

COMMITTEES:

To prepare a draft address in answer to the speech of His Honor the Lieutenant Governor—Hon. Messrs. Bolger, Dodd and Munn.

To receive tenders for printing and binding the journals of this House for the present session—Hon. Messrs. McEwen, McDonald and McGill.

To make arrangements for the publication of the debates of this House—Hon. Messrs. Dodd and Strong.

To regulate the expenditure of this House —Hon. Messrs. Strong, Laird and Balderston.

On engrossed bills—Hon. Messrs. Walker and McEwen.

On expiring laws—Hon. Messrs. Walker and Strong.

To make arrangements for the publication of the summary report of the debates of this House—Hon. Mr. Strong and Hon. Mr. McEwen.

To revise the journal—Hon. Mr. Laird and Hon. Mr. Munn.

STATIONERY AND POSTAGE.

On motion of Hon. Mr. Strong it was resolved that the sum of $12 be allowed to each member, and charged in the contingent accounts of the House, for the purpose of providing stationery and paying postage.

Adjourned until to-morrow at four o'clock, p m.

FRIDAY, March 17.

GOOD CORRESPONDENCE.

A message was brought up from the House of Assembly by Hon. Mr. Yeo, informing this House that the House of Assembly had appointed a committee to join a committee of the Legislative Council to keep up a good correspondence between the two branches of the Legislature during the session. Whereupon it was resolved that a committee be appointed on the part of this House for the above purpose. A committee was accordingly appointed, consisting of Hon. Messrs. Strong, Laird and Dodd.

LAW CLERK.

On motion of Hon. Mr. Dodd, it was resolved that the appointment of Robert Shaw, law clerk of this House, be cancelled, and that Francis L. Haszard, Esquire, be appointed in his stead.

Adjourned until Monday next at eleven o'clock.

MONDAY, March 20.

JOURNAL HOUSE OF ASSEMBLY.

Hon. Mr. McGill called the attention of the Leader of the Government in this House (Hon. Mr. Strong) to the fact that the journal of the House of Assembly for last session had not yet been laid on the table.

ADDRESS—ANSWER TO SPEECH.

Hon. Mr. Laird asked whether the committee appointed to prepare an address to His Honor the Lieutenant Governor in answer to his speech, were prepared to report.

Hon. Mr. Bolger, chairman of the committee, replied that the committee had prepared the draft address, but there was one paragraph in it which he did not approve of, and, therefore, declined to act any further as a member of the committee.

Hon. Mr. Dodd then presented the following Draft Address as agreed to by a majority of the Committe:

*To His Honor Sir Robert Hodgson, Knight, Lieutenant Governor of the Province of P. E. Island, &c., &c.*

MAY IT PLEASE YOUR HONOR:

We, Her Majesty's dutiful and loyal subjects, the Legislative Council in General Assembly convened, thank your Honor for the speech with which you have been pleased to open the present session.

We, with your Honor regret, that the commercial depression prevailing in Europe and America has also extended to this Island, and hope that the abundance of the last harvest will encourage our agriculturists, to persevere in those industrial habit so characteristic of them, and make us all thankful to Almighty God for the great mercies which He has so bountifully bestowed upon us.

We learn with pleasure that the Land Purchase Act of 1875, reserved by your Honor for the assent of His Excellency the Governor General, came into operation, but regret that all the estates of the Proprietors have not yet been adjudicated upon thereunder, and that such objections have been raised as to allow of only two small estates coming under the immediate control of your Government.

When the papers explanatory of the procedings under the said Act, and the Bill ancillary to it, are laid before us they will receive our most earnest and careful consideration.

A measure, providing for the registration of persons entitled to vote at elections for members to serve in the General Assembly, we acknowledge is much required, and will, when submitted, receive our best attention.

It is gratifying to know that the advantages resulting from the Provincial Railway, are so generally appreciated by the people of this Province, but we regret that those advantages are principally confined to the summer season owing to its insufficiency.

We are pleased to learn that the claims preferred by the contractors for its construction have been finally settled without recourse to the Courts of Law.

We are also pleased to learn that the building in Charlottetown for the Law Courts and other departments is completed, and affords such increased accommodation.

We thank your Honor for the assurance of your ready co-operation in our labors, which we hope may tend to the welfare of the people of this Province.

The second reading of the Address was made the order of the day for to-morrow.

The House then adjourned until the afternoon and being met,

Hon. MR. STRONG presented the following report of the special committee appointed to receive tenders for printing and binding the debates.

DEBATES.

The Committee appointed to receive tenders for printing and publishing the Debates (summary), in pamphlet form, and also for binding the same; also for publishing the debates (summary) in the newspapers, have to report that they have received the following tenders:—

| | | |
|---|---|---|
| J. W. Mitchell | per sheet of 4 pages, | $5.00 |
| do | binding per copy, | 25 |
| do | publishing in the weekly *Patriot*, | 100.00 |
| do | In the semi-weekly *Patriot* and weekly *Patriot*, | 125.00 |
| W. L. Cotton | publishing debates per sheet 4 pages, | 3.95 |
| do | binding the same per copy | 16 |
| do | publishing in the EXAMINER, | 40.00 |
| P. R. Bowers, | printing debates and binding the same per sheet of 4 pages, | 4.00 |
| J. H. Fletcher, | printing debates per sheet | 4.00 |
| do | binding per copy | 16 |
| do | printing debates in *Argus* | 75.00 |

Should he get the summary for the paper, he will print the debates in pamphlet form for $3.40 per sheet, and bind the same for 16 cents per copy.

We recommend that J. H. Fletcher's tender for printing the debates in pamphlet form and binding the same, also for printing the same in the *Argus* newspaper, be received as the lowest tender.

W. G. STRONG,
THOMAS DODD.

The House resolved itself into a committee of the whole upon the above report.

Hon. Mr. Strong in the chair.

Hon. Mr. Walker remarked that the debates should be published in more than one newspaper. It had formerly been the practice to vote a small sum, at the end of the session, to the proprietor of each newspaper who would publish them.

Hon. the President said that if the debates were only published in one newspaper many people in the country would be dissatisfied Other newspaper proprietors had as much right to be paid for publishing the debates as Mr. Fletcher had.

Hon. Mr. Laird said the notice to the printers did not ask for the publication of the debates in more than one newspaper. If the Committee desired to have the debates published in other papers they would have to make a separate arrangement. It appeared to him that the report of the special Committe was correct, and he would, therefore, move that it be adopted.

Hon Mr. Balderston was of opinion that it would have been better to have asked for tenders for each part of the work seperately; but under the circumstances, he did not see that they could do otherwise than adopt the the report of the special committee. If any of the other papers were to be paid for publishing the debates regard should be had as to their circulation.

Hon. Mr. McGill said he considered the question as one of considerable importance. If the debates were only published in the *Argus*, a large proportion of his constituents would never see them.

Hon. Mr. Bolger said it would be unfair to have the debates published in the *Argus* only. Other papers, with large circulations, had as much right to be paid for publishing them.

Hon. Mr. McDonald understood that the object of the committee was to curtail the expenditure, but if all the other papers were to be subsidized the expense would be increased. Some of the newspaper proprietors had not considered it worth their while to tender, and he thought the House would be placing itself in an invidious position by asking them to publish the debates.

The report of the special committee was adopted.

PRINTING JOURNAL.

Hon. Mr. McEwen, from the committee appointed to receive tenders for printing and binding the journal of this house for the present session, presented the following report:—

The committee appointed to receive tenders for printing and binding the journal of this House for the present session, have to report that the following tenders have been received, viz:—

| | | |
|---|---|---|
| J. W. Mitchell, | printing per sheet of eight pages | $5.00 |
| do | binding per copy | 60 |
| G. Herbert Haszard, | printing per sheet of eight pages | 6.00 |
| do | binding per copy | 58 |
| Henry Cooper, | printing per sheet of eight pages | 5.50 |
| do | binding per copy | 50 |

We recommend that the tender of J. W. Mitchell be accepted as being the lowest.

A. McEWEN,
W. McGILL.

The above report was referred to a committee of the whole House, and, after a few remarks, it was adopted.

## MISCELLANEOUS.

A Kentucky judge has decided that a man has no right to harness a woman to the plough, no, not even with a mule. And yet women complain that they have no rights.—*Detroit Evening News.*

A lady applying for admission to the junior class of an Eastern seminary, being questioned by the President as to her qualifications replied: 'I ain't much of an arithmeticker, but I am an excellent grammarist.'

The Shah of Persia thought postage stamps such an admirable thing when he was in Europe that he had a large lot printed in Paris and sent to Teheran, but as there are no post offices in his dominions they are not eminently useful.

We once heard of a traveller at a hotel, who rose from his bed at night to examine the weather; but instead of looking out on the sky he thrust his head through the glass window of a cupboard. 'Bless me!' he muttered, 'this is very singular weather. The night is as dark as pitch, and smells of cheese.'

*A TOAST.*

Two Important Discoveries! The discovery of America by Columbus, and Dr. Pierce's Golden Medical Discovery, the one opening up to mankind a new continent, the other a fountain of health which is indespensable to the full enjoyment of life, and its blessings. In response to the above sentiment come the unsolicited attestations of tens of thousands of grateful patients,* who have been relieved of chronic ailments through its instrumentality. Those voices are limited to no one locality, but from every city, village and hamlet, in our broad domain as well as from other climes, and in the strange utterance of foreign tongues, like the confused murmur of many waters come unfeigned and hearty commendation. It is, in combination with the Pleasant Purgative Pellets, the great depurator of the age. Under its benign action eruptions dissappear, excessive waste is checked, the nerves are strenghtened, and health, long banished from the system, resumes her reign and re-establishes her roseate throne upon the cheek. All who have thoroughly tested its virtues in the diseases for which it is reccomeneed unite in pronouncing it the great Medical Discovery of the age.

THE VOYAGE OF THE CHALLENGER.—On January 15th H. M.'s discovery ship Challenger was in the Straits Magellan. The voyage from Valparaiso to Cape Tresmonto, where the last day of the year was spent, was fearfully stormy, no headway being made for days. The Cape was found to be a weather-beaten headland 2,000 feet high, where very productive dredging was carried on. The correspondent describes the progress of the vessel through the Straits, where the scientific exploring parties discovered a rich harvest of botanical and other specimens, entirely new. In passing Port Grapler a German, steamer the Karnak, was found, it having been run ashore in a sinking state. Her crew were rescued. After tedious surveying and dredging operations the 'Challenger' arrived, after a two days' voyage from Chunaca at a coast where the inhabitants lived more like wild animals than in any other spot in the world. Their country is lofty, hilled, and useless forests. They live in the most primitive huts. Their food is shell-fish, dead fish, or seals that may float ashore, and their only clothing is one scrap of seal-skin slung across their shoulders. Both men and women are stunted and filthy, their hideous faces being bedaubed with white clay. The climate is vigorous, with both cold and heat, yet the numbers do not decrease, and they seem contented and happy. The 'Challenger' would remain at Magellan Straits some days, and then proceed to the Falkland Islands, en route to England.

Pleasure is to women what the sun is to the flower; if moderately enjoyed it beautifies, it refreshes, and it improves; if immoderately, it withers, desolates, and destroys.

Brussels has the largest ice house in the world. The roof covers an area of 18,000 square feet; the walls are double, and filled with moss and sawdust. There are nine separate ice chambers, each of 30,000 cubic feet capacity. There are galleries for storing meat in hot weather, capable of holding 2,000 quarters. A million tons of ice have been stored in the building at one time.

CARDIGAN BRANCH
OF THE
NONPAREIL CARRIAGE FACT'RY
AND
AGRICULTURAL WORKS!

Good Work Triumphant!

NOTWITHSTANDING the Dull Times, the demand for my make of Carriages, Sleighs, Threshing Machines, Fanners, &c., in King's County, has rendered it necessary, in order to supply the rapidly increasing demand, that I should extend my business into that County. I have, therefore, at the request of a large number of my friends and patrons, opened a BRANCH FACTORY AT CARDIGAN BRIDGE, which is conducted by a competent mechanic, who served his time in the "Nonpareil," and has since worked for several years in the United States—a mechanic who knows his business, and has such an interest in the work as to allow nothing but a faithful job to pass. He and several competent workmen will attend to the wants of the public in that County.

The stock used in the construction of the work will be of the best imported, viz:—American Hickory, Oak, Ash, Elm, Bass, Whitewood, etc., etc. The iron will be of the best English refined; and Norway and Swedish iron will be used for the parts requiring extra strength and durability.

Also, in connection with the said branch is a PAINTSHOP, which is conducted by a first-class carriage-painter, who will attend to the painting of new and second-hand work for the public.

N. B.—Persons wishing work done in the Carriage, Sleigh, or Farming Implement line, will please call and they will be treated courteously and fairly dealt with. All kinds of REPAIRING, including Mowing Machines, done. Prices Moderate; Terms Easy.

## LAND ASSESSMENT!

Provincial Treasurer's Office,
CHARLOTTETOWN, P. E. ISLAND,
22d January, 1876.

IN pursuance of an Act of the General Assembly of this Island, made and passed in the twenty-fourth year of the reign of Her Majesty Queen Victoria, intituled "An Act relating to the Land Assessment at present imposed by Law on the Town and Royalty of Princetown," and also of an Act made and passed in the twenty-seventh year of the same reign, intituled "An Act to consolidate and amend the several Laws imposing an Assessment on all Lands in this colony, and for the encouragement of Education."

I do hereby give public notice, that I have made proclamation according to the terms of the said Acts, of all the undermentioned Town Lots, Water Lots, Common Lots, Pasture Lots, Islands or parts of Islands, Townships, or parts of Townships in this Island, in arrear for the nonpayment of the several sums due and owing thereon to Her Majesty, under and by virtue of the above mentioned Acts, viz:—

It Pays! It Pays!

WHAT PAYS?

IT pays every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional man, to keep informed on all the improvements and discoveries of the age.

It pays the head of every family to introduce into his household a newspaper that is instructive, one that fosters a taste for investigation, and promotes thought and discussion among the members.

THE SCIENTIFIC AMERICAN

which has been published weekly for the last thirty years, does this, to an extent beyond that of any other publication, in fact it is the only weekly paper published in the United States, devoted to Manufacturers, Mechanics, Inventions, and New Discoveries in the Arts and Sciences.

Every number is profusely illustrated and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientific Progress of the World; Descriptions, with Beautiful Engravings of New inventions, New Implements, New Processes, and Improved Industries of Practical Writers, for Workmen and and Employers, in all various arts, forming a complete repertory of New Inventions and Discoveries; containing a weekly record not only of the progress of the Industrial Arts in our own country, but also of all new Discoveries and Inventions in every branch of Engineering, Mechanics, and Science abroad.

The *Scientific American* has been the foremost of all industrial publications for the past thirty years. It is the Oldest, Largest, Cheapest, and the Best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science, and Industrial Progress published in the world.

The practical receipts are well worth ten times the subscription price. And for the the shop and house will save many times the cost of subscription.

Merchants, Farmers, Mechanics and Engineers, Inventors, Manufacturers, Chemists, Lovers of Science, and People of all Professions, will find the *Scientific American* useful to them. It should have a place in every Family, Library, Study, Office, Counting Room; in every Reading Room, College and School. A new volume commences January 1st, 1876.

A year's number contains 832 pages and several hundred Engravings. Thousands of volumes are preserved for binding and reference. Terms, $3.20 a year by mail, including postage. Discount to Clubs. Special circulars giving Club rates sent free. Single copies mailed on receipt of 10 cents. May be had of all News Dealers.

PATENTS. In connection with the SCIENTIFIC AMERICAN, Messrs. Munn & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for through their agency.

Patents are obtained on the best terms, Models of new Inventions and sketches examined and advice free. A special notice is made in the *Scientific American* of all inventions Patented through the Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice. Send for pamplet containing full directions for obtaining Patents. A bound volume containing the Patent Laws, Census of the U. S., and 142 Engravings of Mechanical movements. Price 25 cents.
