

**DOMINION EXHIBITION, 1884.**

**THE ISLAND'S RIGHT TO IT**

**Discussed in Market Hall.**

**RINGING SPEECHES DELIVERED**

**And Strong Resolutions Unanimously Passed.**

The meeting held in Market Hall last evening to consider the expediency, ways and means of holding a Dominion Exhibition in Charlottetown, in the year 1884, was large and influential. Great enthusiasm prevailed, and the proposal to hold the Dominion Exhibition here seemed to meet the views of all. There was nothing political in its aspect, and the best of order prevailed throughout. Henry Longworth, Esq., High Sheriff of Queen's County, occupied the chair, and Archibald McNeill, Esq., was appointed Secretary.

The Chairman, in opening the meeting, said it was the great interest of Charlottetown, and the Province, that a Dominion Exhibition should be held here in 1884. Dominion Exhibitions had been held in all the other Provinces, (in some twice), and Prince Edward Island was the only old Province of the Dominion that had not been favored with one. Now, as we completed more than successfully at the Dominion Exhibitions in which we have taken part, it was therefore right for us to demand that the coming one should be held here. If we do not get it now, we will never get it again, and we will therefore never have suitable buildings for holding exhibitions. Farming on P. E. Island was only in its infancy. We have a great deal to learn about it, and one of the best ways to educate ourselves is by having a friendly interchange of ideas and an exhibition of our products. Professor Sheldon expressed the opinion that there is no better place for raising horses and sheep than P. E. Island. The exports of our stock were large and increasing, and our present stock is good. Viewing these facts he thought it was time and a necessity that a Dominion Exhibition should be held here, and he hoped the meeting would be unanimous in its resolutions to have it held in 1884.

SENATOR HAYTHORNE was of the opinion that we could accomplish the object for which we met this evening. Doubt had been cast upon it, but he had no doubt regarding our success, and the good effects such an exhibition would have on the Province. He referred to the Australian Colonies, and showed the great effects of exhibitions there, and how, by their magnificent exhibitions of machinery and agriculture, they had attracted the attention of the whole world. Calcutta observing their success, followed in their steps, and is about to hold a grand exposition in that place. He also showed the great improvement made in the Madras Presidency through exhibitions. Farm machinery, he said, was now sold in Canada for more money than it was worth, and by a Dominion Exhibition we could bring the farmer and manufacturer face to face, to show up the faults of their machines in price, quality, etc. It had been said that the Dominion Government would not assist us in the Exhibition. Certainly they would not if we do not ask. But if we ask for it properly through our representatives there is no doubt we will succeed. That we could compete more than successfully on our own grounds with the other provinces, he had no doubt, and he thought the full extent of our agricultural wealth would not be known abroad until a Dominion Exhibition was held in our own Province. He therefore moved the following resolution:

Whereas, It has been the practice to hold an annual exhibition of the agricultural and other products of the national industry, in one of the Provinces of the Dominion, the expense of which has been defrayed in part by an appropriation of public money voted by Parliament for that purpose; and

Whereas, Each of the older Provinces of the Dominion, except Prince Edward Island, has enjoyed the advantages of holding such exhibitions within its boundaries, and some of the Provinces more than once; and

Whereas, The industry of this Province has been worthily represented by the live stock, cereals and other products sent by her, at much expense and inconvenience to the Dominion Exhibitions, held at Montreal in the year 1850, at Halifax in the year 1851, and at St. John in the year 1853;

Therefore Resolved, That, in the opinion of this meeting, the Province of Prince Edward Island is now justly entitled to demand that a Dominion Exhibition be held at Charlottetown in the autumn of 1884, aided by an appropriation of public money.

PATRICK BLAKE, Esq., M. P. P., had much pleasure in seconding the motion. He was fully in accord with Senator Haythorne's remarks, and believed it was a matter of great importance that a Dominion Exhibition should be held in this Province in 1884. It was a well known fact that we contributed largely to the success of the Dominion Exhibitions at Halifax and St. John. This was a proof of our right to an exhibition here, and why we will not get the grant from the Dominion Government, as a province and a contributor to the Dominion Exchequer he could not plainly see. He did not believe in the objections raised regarding hotel accommodation. If we did not hold a Dominion Exhibition until we erected first class hotels, we would be a long time without it. This hotel, as well as the other difficulties raised, could be easily surmounted, and he thought with a grant from the Federal Government, a grant from the Local Government, another from the city, we would be in a first class position to hold a Dominion Exhibition. The benefits of such an exhibition would be very great. Since we competed successfully abroad the price of our stock has gone up considerably, and if an exhibition was held here it would stimulate our farmers to success in agriculture and stock raising. Again such exhibitions bring together our farmers, manufacturers and mechanics in competition. Those who are most successful as prize winners return home well pleased, while those less successful go home with the intention of endeavoring to improve and be more successful in future. After speaking of the great benefits of such an exhibition to Charlottetown, its mechanics, stock raisers, etc., Mr. Blake resumed his seat.

JUDGE HENSLEY, in support of the resolution, said that as it was a matter for the general good of the country, and not a political matter, he therefore could take part in the work. He could not see that, if an exhibition was a good thing for Halifax and a good thing for St. John, that it would not be a good thing for Charlottetown. It would no doubt be a good thing to have an exhibition, but in having one would we not exert ourselves too much. Assuming that we get the Dominion grant and that we make out a good case, the difficulties are not great, and we have the foundation for a good claim for the exhibition. Now, if we get it, His Honor wanted to know (1) could we manage it, (2) is their steamboat and hotel accommodation for those who would come, and (3) have we public sympathy to back it up? He felt warmly on the matter, and would therefore like to know if we had those three essential points.

HON. D. LAIRD said there was another point—we require exhibition buildings. We know that last year it cost St. John—in addition to those already built—\$20,000 for buildings. Therefore the least we would want in Charlottetown for buildings would be \$25,000. He further wanted to know if the Local Government would be prepared to erect those buildings?

HON. D. FERGUSON, Provincial Secretary and Treasurer, thought Mr. Laird had magnified the point raised. We have to erect our buildings the same as they did in the other Provinces. In these Provinces they obtained grants from the Federal Government the Local Governments and the City Corporations, and with those grants and the gate money they paid for the building. The amount Mr. Laird stated was rather large. We needed the stimulus more within our bounds than Ontario does, but we do not require buildings as large as they do in the other great cities and provinces. One-fourth the amount mentioned by Mr. Laird would be sufficient for our purpose. If it costs as much for buildings as Mr. Laird estimates, he would say "give it up at once, we cannot afford the amount." Mr. Ferguson then referred to the first Dominion Exhibition held in Canada at Ottawa. A prize list was for it adopted to suit the whole Dominion, but notwithstanding this fact the competition was chiefly confined to Ontario. From that time to the present the exhibitions passed around to the different provinces, and was held in Toronto, Montreal, Kingston, St. John and Halifax. This being the case, we, as a Province of the Dominion, are entitled to it. By getting the grant and holding the exhibition here we would receive many great advantages. One would be: Farmers from the leading agricultural districts of Ontario and Quebec, New Brunswick and Nova Scotia, would be likely to send the best stock here for competition, and our farmers would be enabled to select the best pure bred stock among them, and keep it here amongst us. The difficulty of accommodation, etc., would, he thought, be small. The only practical question was the financial one, and that being the case, we must "cut our garment by our cloth." He did not know what action the Government would take in the matter. We are here for moving governments. If the Government see good hearty sympathy behind our action there is no doubt they will give us their sympathy.

CHARLES PALMER, Esq., Q. C., remarked that if the Local Government was asked to pledge themselves to a grant, that would "quench" the whole business. If such were asked he would not like to be in the Government. Mr. Palmer showed from figures that it was sheer nonsense to talk about \$25,000 for buildings. He believed, from reading the statements of accounts of the St. John Exhibition, that in Charlottetown we could manage the business much better than they did in St. John, and that we could "cut our garment by our cloth."

The resolution was then put to the meeting and carried unanimously.

Dr. Jenkins then moved the following resolution:

Resolved, That it is expedient that application be made without delay to the Ministers of Finance and Agriculture, setting forth the claims of this Province to enjoy in her turn the advantages of a Dominion Exhibition, and of a vote of money in aid thereof.

He thought it clear that this Island had a claim to the Dominion Exhibitions. Other Provinces had them in rotation, and it was but right that our Province should have theirs in 1884. Not only this our people with undomitable pluck took part in the exhibitions held in most of the other Provinces, and carried off a goodly share of the spoils. These are strong arguments in favor of holding the next Dominion Exhibition in this Province. The advantages to be derived from holding exhibitions are very great. Sir Walter Scott said that he never met a man so humble or poor but he could extract some information from him. That being the case, what value can be placed on the interchange of ideas which take place at large or even small exhibitions? He did not think it would take a large amount of money for buildings, nor did he think there would be much difficulty in accommodating visitors. With proper organization, we could accommodate 5,000, and the sum of \$7,500 would be the largest amount required for building purposes. We must not think we can attempt a grand exhibition like St. John. It is a large city compared to Charlottetown. Again, they were celebrating a centennial, and that was an additional assistance to them, financially and attractively. We can, he believed, have a grand agricultural, but not a mechanical exhibition. With regard to prizes he thought they should be confined chiefly to stock, and that successful exhibits of manufactures should be awarded diplomas, as they were more beneficial to the manufacturer than a small money prize.

HON. NELL McLEOD seconded the resolution. He believed that the sense of the meeting was in favor of holding a Dominion Exhibition in Charlottetown in 1884, if the Federal Government would grant the sum usually given to the other Provinces; and as we have good grounds for demanding the grant, he felt confident the Government would give it. We, therefore, must take into consideration the good effect of these exhibitions. Our Government have done a great deal to promote our agricultural interests and improve our stock. We are in advance of the Maritime Provinces; but they are following in our path, and we cannot hope to maintain our superiority very long, unless we receive encouragement and are stimulated by exhibitions. Exhibitions he believed to be an immense advantage to all who are engaged in agriculture and stock raising. In our own local exhibitions we can see immense advantages received from the advertisement they give our stock. Many have felt benefits by these; and greater benefits are, therefore expected from a large exhibition, having a Dominion aspect. Regarding the cost of holding a Dominion Exhibition, Mr. McLeod believed it would be one-sixth less than St. John.

The resolution was put to the meeting and carried unanimously.

C. C. GARDINER, Esq., in moving the resolution which follows, related his experience as Commissioner of the Exhibition held in Montreal, where the Island first made an exhibit of live stock and came off successful beyond expectation. Stimulated by their success at Montreal, the Advisory Board selected a superior exhibit for the Halifax exhibition and carried off a large number of prizes, and followed up their achievements with greater success at St. John last fall. He said all this goes to show that we need not be afraid to go from home with our stock or compete with others on our own grounds. He also spoke of the great advantages the English people received from exhibitions, and said the great success of England as the leading stock raising country of the world, was owing to competition at exhibitions.

Resolved, That a committee to consist of the Honorable Donald Ferguson, Henry Beer, and Archibald McNeill, Esqs., be appointed to draw up the application to the Ministers referred to in the preceding resolution.

OWEN CONNOLLY, Esq., was in favor of the exhibition. He did not come to make a speech, but he had much pleasure in seconding the resolution.

Being put it was carried unanimously.

The following draft was then read by Hon. D. Ferguson, who moved its adoption:

To the Honorable SIR S. L. TILLEY, K. C. M. G.; C. B., Minister of Finance, &c., &c., and to the Honorable JOHN HENRY POPE, Minister of Agriculture, &c., &c.

Memorial of certain inhabitants of Prince Edward Island assembled at a public meeting convened by the High Sheriff of Queen's County, and held in Charlottetown, on the 18th December, 1883, sheweth:

1. That your memorialists desire to submit the following considerations in favor of holding a Dominion Exhibition of Agriculture and other industrial products within the limits of the Province in the autumn of the ensuing year, and of asking Parliament to grant a sum of public money to defray in part the expense thereof.

2. That no Dominion Exhibition has yet been held in the Island Province; but she has been a successful exhibitor of live stock, cereals, and other products of the industry of her people at the Dominion Exhibitions held in the Provinces of Quebec, Nova Scotia and New Brunswick—the successful results of those exhibitions. Her own successes, however, gratifying as they were, were attained at no trifling public and private expense and at much inconvenience and with no adequate idea of the extent, variety and value of her resources, which would be fully displayed if a Dominion Exhibition were held on her soil.

3. That the climate of the Island Province differs materially from that of most parts of Quebec and of Ontario; seed time and harvest being from three to five weeks later on the Island; thus a large portion of her cereals and her fruit and root crops are still immature at the period when Dominion Exhibitions are usually held in those Provinces.

4. That this Province consumes large quantities of textile fabrics and other industrial products of the Dominion, and that the cultivation of her soil, the mowing of her hay and harvest, is to a large and annually increasing extent accomplished by the implements manufactured in the other Provinces, and that by bringing the producers face to face with their customers, the consumers in Prince Edward Island at a Dominion Exhibition, to be held in Charlottetown, in the autumn of 1884, would conduce to their mutual advantage.

5. That each of the older Provinces of the Dominion except Prince Edward Island, has enjoyed the advantages of such an exhibition being held within its boundaries, some of them more than once; it is, therefore, but just to Prince Edward Island that the Dominion Exhibition of 1884 should be held at Charlottetown.

All of which is respectfully submitted.

HENRY BEER, Esq., M. P. P., seconded the motion. He thought the arguments contained in the draft would not only meet the approval of the meeting but of the people of this Province in general. He referred to the benefits which the exhibition would be to our farmers and our mechanics, and said if it is held here we will show the Dominion that we are able not only to compete with the other Provinces but surpass them as we did before. He approved of keeping politics aside until the exhibition is over, and advised them to then renew the struggle.

HON. DAVID LAIRD said when Senator Haythorne concluded his speech he felt considerably elevated. He thought the Local Government, City and people were going to put their shoulders to the wheel, and that we would have a grand exhibition. Now, in St. John the exhibition buildings cost about \$50,000 altogether, and Dr. Jenkins, in his speech, said they would not think of going higher than \$7,500—just about as much as it cost to build the Stock Farm stables. If we cannot do better than this, then, he said, for our own credit, we had better leave it alone. He objected to the prizes being confined to live stock, a few cereals, a large turpin, or a squash or two. He also raised objection to the accommodation afforded to visitors, and said that if six thousand came to a city like Charlottetown, with a population of twelve thousand, he did not see what they were going to do with the women and children, unless they sent them out to camp in the country. He was not, he said, against an exhibition, but if it dwindles down to a small matter, it would be better not to have it at all.

SENATOR CARVELL remarked he was sorry the gentleman who had just sat down had not the good form of mind of his predecessor on the platform, and had left politics out altogether. He did not speak of politics, it is true, but actions speak louder than words—and all was small when Senator Haythorne sat down. The Senator spoke at length of the capabilities of the Province, and the advantage of an Agricultural College would be to it. He was in accord with the object of the meeting, and would give the movement his hearty support in Parliament.

A. B. WARBURTON, Esq., moved the following resolution:

Resolved, That the Local Government be requested to transmit a copy of the said Memorial to the Minister of Finance, and the Minister of Agriculture, together with a return of the proceedings of this meeting.

He believed that the amount calculated by Mr. Laird was too high and that stated by Dr. Jenkins much too low. He spoke of the accommodation required by visitors, and said that if one of the results achieved would be the erection of a first class hotel in the city, one great end would be gained.

R. R. FITZGERALD, Esq., Stipendiary Magistrate, seconded the resolution. He looked upon the Exhibition as a right to the Province. We are, he said, an agricultural people, and we want the Exhibition to teach our people more than we want it for the benefit of Canada. This is a selfish aim, to all appearance; but no one will say that they cannot come here to learn something from the farmers of P. E. Island. He believed that, when the people of the Island took hold of the matter, all arrangements would be made satisfactorily and the Exhibition would prove a success.

W. E. DAWSON was in entire sympathy with the movement. He believed it to be within the power of the city to hold a first class exhibition such as we speak of. With the Dominion Government grant, and the grant from the Local Government, we can accomplish all that is desired. He moved the following resolution:

Resolved, That the Representatives of this Province in the Senate and House of Commons be requested to promote the views expressed in the foregoing resolutions and memorial.

T. A. McLEAN, Esq., in a few brief and witty remarks seconded the resolution. It was then put to the house and carried unanimously.

ARCHIBALD McNEILL, in a lengthy and ringing speech, related his experience as Secretary of Exhibitions for thirteen years, and a witness of the Dominion Exhibitions held in the Maritime Provinces. He felt confident we could raise the funds and make the Exhibition a success.

CHARLES PALMER, Esq., moved the following resolution:

Whereas, The holding of a general Dominion Exhibition in Charlottetown would greatly stimulate the agricultural and local industries of the Province, and the trade of the city;

Therefore Resolved, That in the opinion of this meeting, liberal grants in aid of the said Exhibition should be given by the Provincial Legislature, and the corporation of Charlottetown.

He saw by the newspapers that they were agitating to have the next Dominion Exhibition held in Winnipeg, Man. He showed by a comparison of the census of Manitoba and Prince Edward Island that our claims were far superior to Manitoba's, without taking into consideration the difficulties of travelling to an exhibition at that place.

JOHN NEWSON, Esq., seconded the resolution. He asked the question: If we do not have an exhibition this year when are we going to have one? If we erect buildings this year, we will have the Exhibition in our turn forever afterwards. He gave figures showing the great expenditure of money a Dominion Exhibition would cause in the city, and showed that it would be to the best advantage of Charlottetown to hold it. It might be a difficulty, he said, but no great achievement can be overcome without a difficulty.

The resolution was carried.

SENATOR HOWLAND, F. de St. C. Brecken, Esq., M. P., and L. H. DAVIES, Esq., M. P., then addressed the meeting. They were in sympathy with the movement, and promised to give it the strongest support in Parliament.

The chairman was then presented with a vote of thanks, and the meeting dispersed in the best of order.
