Baha'i Studies

With 1985 being International Year of the Youth, a "Come Together" meeting of youth from around the Island was organized by the UPEI Student Union. Because the majority of the members in the ABS at UPEI are youth, this year has held particular interest for us and Baha'i youth around the world. With the world passing through the most turbulant period in history, stress has run rampant, especially among the youth.

There are two stress related diseases, one is passivity which manifests itself in alcohol, drugs, and T.V. addiction or the psychological surrender of the individual personality to the norms of the group. Another is frenzied activity; materialistic souls sensing their inner spiritual death and fleeing into frantic activity, wild amusements, violence and terrorism. Unfortunately, there is no where to go to avoid this.

In coping with stress, the most powerful agent is to have a sense of purpose. For Baha'i youth the mission is to accomplish the spiritualization of our lives so that we may stop warring with ourselves which will, in turn, enable us to work effectively for the progress of mankind and the unification of our planet. This spiritualization may be likened to a lamp when the oil, wick and fire are combined. The lamp itself is the spirit or rational soul, the oil as the spirit of faith, the wick as the mind, and finally the fire as action. Combined they give light, separately nothing.

It is with this same light that we in the Association for Baha'i Studies are endeavouring to add to the intellectual life at UPEI. We are in the early stages of putting together a souvenir edition of the Association's activities along with individual members' contributions. For further information of the ABS at UPEI, contact Ritchie at 892-9970, Nadim at 892-1880, or leave a message at the Barn.
