SPECIAL DESPATCHES TO THE EXAMINER. LATEST FROM OTTAWA. CAUCUS OF CONSERVATIVES. ENTHUSIASTIC UNANIMITY. SPLENDID LETTER FROM LADY MACDONALD. Policy of the New Administration. OTTAWA, June 19. A Conservative caucus was held here yesterday at which the greatest enthusiasm and harmony were exhibited. Premier Abbott got a hearty reception, and was promised the solid support of the party. Kinging cheers greeted the remarks of the several speakers, and sounded through the corridors much to the mortification of the grays who fully expected a crisis. The following letter was read from Lady Macdonald: BAENECLIFFE, June 17, 1891. "I have received and read with a proud satisfaction the address you forwarded me from the Conservative members of both Houses of Parliament conveying in words that are each one a comfort and consolation to me, their sense of my loss and their own. Will you do me the favor to say to those gentlemen, my husband's true and devoted friends, with what a swelling heart I dwell on their loving testimony to the greatness of him whose useful, kindly, christian life it will ever be our highest privilege to remember. I think the dear friends with tears, not those of sorrow—for such a life and such a death are beyond the reach of common sorrow, but with tears of gratitude and affection in acknowledgment of their love and faithfulness to him through many years and many battles. Will you tell them, from me, sometime when all can hear, that his widow, broken-hearted in my loneliness and desolation, ventures to ask from them a last and lasting tribute to my husband's dear memory. I ask that that tribute shall be a firm and united support to the policy and principles which the great leader lived and died to maintain and carry out. I appeal to them with all the power my words can convey to do now and in the future what they and I know would be my husband's wish and desire. Could those lips, silent on earth for evermore, speak in this or any other crisis of our country's history, to stand side by side, shoulder to shoulder, regardless of irritation, self-interest or seeming reverse, with no motive but Canada's welfare and Canada's success to follow—in short the splendid example left to us—and to carry out with no sign of division or faltering the plans and purposes that lay near Sir John's heart. I shall watch so long as my life lasts, with earnest anxiety, the progress of public affairs in this country, as for the last twenty-five years I have been proud to do, and pray, as I have already prayed, that the Almighty Ruler of all men would of his mercy grant wisdom, foresight and firmness to the policy and councils of the great Conservative Party. "Your sincere friend, (Signed) "AGNES MACDONALD." Yesterday was private members' day, and a lot of business was disposed of. Sir Hector Langevin announced the policy of the new administration. They propose to carry out the policy which has hitherto guided the Liberal-Conservative party, the outline of which, in respect to the measures of this session, was indicated in the speech from the throne. The trade and financial policy will be declared in the budget speech. Mr. Laurier gave notice that to-day he will move a motion of want of confidence.

BRITISH PARLIAMENT.

Government Defeated in the Commons. LONDON, June 19. In the House of Commons yesterday, during the debate, the Factory Bill was amended to prohibit children under eleven years of age from working—defeating the Government on that point by a majority of sixteen. This amendment will effect nearly 200,000 children in the Kingdom now employed in manufacturing districts. It is a humanitarian reform and was opposed by the bulk of the operatives, who profit by their offspring's labor. The News says that the blow is both damaging and ignominious, and that not even the resignation of Home Secretary Matthews will save the Government from discredit and disgrace. The Chronicle says: "Truly Secretary Mathews is a costly luxury to the state. The defeat of the government will seriously damage the prospects of every Unionist candidate in the next general election."

Imperial Federation.

LONDON, June 19. All the journals echo Lord Salisbury's statement to the Imperial Federation League that they must now seriously consider the plan of a United Empire Trade League. The papers say the only feasible plan is that which the Canadian Federationists had long demanded, namely, a preferential duty within the empire against foreign goods. The Federation League will lay their views before Lord Salisbury to-day, but seeing that a general election is just coming on, few expect the Government to commit itself.

The Bering Sea Matter.

LONDON, June 19. Sir James Ferguson, in the House of Commons yesterday, said the Foreign Office had received a communication from the British Minister at Washington saying he expects to be able to proceed without further delay to discuss with the United States government the terms of the reference of the Bering Sea dispute to arbitration.
