ADVERTISING RATES

For small advertisements which are ordered for only one or two weeks the charge is 50 cents per inch for the first insertion, and 20 cents for each continuation. Rate cards are furnished on application at the office. Special contract prices at a reduced rate are quoted for advertisements four inches in size or larger, which are to run for three months or longer.

No special notices inserted unless paid for at the rate of 10 cents per line, and under no circumstances will such paid notices appear in the local column.

Special discounts made on all advertisements connected with Church Fairs, Bazaars, Picnics, etc. No notices will be inserted with the same unless the regular rate of 10 cents per line is paid.

That THE EXAMINER is considered by our Merchants and Manufacturers to be the leading newspaper in P. E. Island, and consequently the most valuable advertising medium through which to make their announcements public, is abundantly proved by the fact that in order to accommodate our advertisers we have been compelled to enlarge the paper to its present size.

THE DAILY EXAMINER is for sale by the following agents:—
R. H. Mason, Post Office, Charlottetown.
J. McIntyre Malpeque Road, "
C. Paul, Lower Spring Park Road, "

THE AMERICAN
$8.00 Typewriter.

This is a well-made, practical machine, writing capitals, small letters, figures, and punctuation marks (71 in all) on full width paper, just like a $100 instrument. It is the first of its kind ever offered at a popular price for which the above claim can be truthfully made. It is not a toy, but a typewriter built for and capable of REAL WORK. While not as rapid as the large machines sometimes become in expert hands, it is still at least as rapid as the pen, and has the advantage of such simplicity that it can be understood and mastered almost at a glance. We cordially commend it to helpful parents and teachers everywhere.

- Writes capitals, small letters, figures and marks—71 in all.
- Writes just like a $100 machine.
- No Shift Keys. No Ribbon. Prints from the type direct.
- Prints on flat surface.
- Writing always in sight.
- Corrections and insertions easily made.
- Takes any width of paper or envelope up to 8½ inches.
- Easy to understand—learned in 5 minutes.
- Weighs only four pounds—most portable.
- Compact, takes up but little room.
- Built solid and simple; can't get out of order.
- Capital and lower case keyboard ailke—easily mastered.
- More "margin play" for the small letters which do most of the work.
- Takes good letter-press copies.

Packed securely in handsome case and expressed to any address on receipt of price, $8.00, in registered letter, money order or certified check. We guarantee every machine, and are glad to answer all inquiries for further information as to this machine and also the "Yost."

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

THE LATEST FAD.

Now Microbes and Disease Germs Have Become Parlor Talk.

It has become very fashionable nowadays to talk about microbes, bacteria, disease germs, etc. Everybody is on the alert about them. The reason for this is that scientists have discovered that almost every disease has its own special germ, and if that germ fails on favorable soil it grows, like any other seed. That is why in times of epidemics people are so careful about cleanliness, so these germs may not be carried from one place to another, and so that even the wind may not blow them here and there. Strangest of all the discoveries about these germs, however, are those made by Dr. Sternberg, proving that many of them lurk in the bodies of people themselves, only waiting favorable opportunities for development. Thus the germs for pneumonia are in your own mouth, waiting to go down into the lungs when your vitality is reduced. The germs for lockjaw, too, are everywhere about, only they cannot come to anything if there is plenty of oxygen about, oxygen burning them directly up, which is why a deep though small wound will cause lockjaw, when a wound near the surface will not do so. All this proves how important it is to keep well, so none of these germs have a chance to grow. A doctor told me he had seen some of these germs introduced into the blood. When the blood was healthy it didn't mind the germs any more than a boy minds a snowball; the germs disappeared. When the blood was not healthy the germ affected it, changed its color, etc. After this no one will feel like saying they caught a disease from anybody else, seeing that it lay in themselves all the time. So there will be no reason for blaming other people and outside conditions for the troubles we have in ourselves, something most of us are always wanting to do when things go wrong.

A Naughty King.

If all the stories are true which are told about the little King of Spain, he must be a very willful little boy indeed and quite determined to have his own way in everything. One cannot greatly blame the little king for his waywardness, because the rules of his country are such that the word of the king is law, in many things, whether the same king be young or old, little or big. So little Alphonso must be pardoned if he is a "spoiled" child.

One day Alphonso and his governess were out driving, when suddenly the governess noticed that the little king was not acknowledging the salutes of his subjects.

"I am too tired to bow to them," exclaimed he, pettishly, "and I am not going to do it."

"But you must acknowledge their salutes," insisted the governess, "because you are their king, and it is one of the customs for a king to bow to his subjects."

"I shall not bow to them!" exclaimed Alphonso, loudly.

"Then you cannot drive in the carriage with me," replied the governess, kindly but firmly, for she feared that Alphonso would offend his subjects.

"Then you may get out and walk!" exclaimed the naughty little king. Then, calling to the coachman, he cried:

"Halt, Carlo! This lady wishes to go on foot."

Feminine Gaits.

It is a ridiculous notion that one's gait should be regulated, measured and prescribed by the whims of fashion. Last winter the girl who was an rigueur held her waist stiff and bent forward at an angle of 25 degrees, stepping with an elasticity that suggested the possibility of a coiled wire springs in her shoes. To speak politely there was a sweet precipitation in her movements, but it was conducive to anything but grace. Sensible women walk sensibly, that is, natural and from the hips, with a certain amount of precision, perhaps, but evenly and lightly.

Next to a low voice there is nothing more indicative of refinement and good breeding in a woman than a light step. It is strange that a small woman weighing ninety pounds often comes down stairs as if she weighed a ton, while the silken foot fall belongs to the woman who tips the beam at 200.—New York Herald.

A Peculiar Custom.

A ceremony exists among the tribes of the interior of Sumatra, which is without doubt the survival of an ancient and very cruel custom, that has passed in the course of time into a civil and religious duty. These people, although of rather gentle disposition, piously and ceremoniously kill and eat their aged parents in the belief that they are performing a sacred duty. At the appointed day the old man who is destined to be eaten goes up into a tree, at the foot of which are gathered the relatives and friends of the family. The strike the trunk of the tree in cadence and sing a funeral hymn. Then the old man descends, his nearest relatives deliberately kill him and the attendants eat him.

Adulteration in Teas.

Gunpowder teas are especially open to adulteration because of their granular or dusty form, and the Chinese are marvelously expert in deceiving the foreign devils with whom they deal. It is a very difficult thing to get a consistent statement as to the various kinds and qualities of tea from dealers in the country, partly, doubtless, from the fact that few of them have inside expert knowledge of the tea trade in China. It is noticeable that the tea served in the Chinese restaurants of Canada is lighter in color than strong tea served elsewhere.

Why Gladstone Lay Awake.

John Addington Symonds, the English art critic, in his "Recollections of Tennyson" in the May Century, tells of a conversation in 1865 between the Laureate and Gladstone, in which the latter said he always slept well. He had only twice been kept awake by the exertion of a great speech in the House. On both occasions the recollection that he had made a mis-quotation haunted him.

The Ivory Supply.

If the ivory trade increases at the present rate much longer the elephants will soon become extinct. One firm alone in Sheffield, England, last year received the tusks of no fewer than 1,280 elephants. A few years ago 800 pairs of tusks were sufficient for them.

The Coral Island.

Coral islands are never more than ten or twelve feet above the surface, that limit being assigned to them by the action of the waves. The vegetation is characterized by its uniformity, the entire flora consisting of scarcely a score of species.

The Modern Invalid.

Has tastes medicinally, in keeping with other luxuries. A remedy must be pleasantly acceptable in form, purely wholesome in composition, truely beneficial in effect and entirely free from every objectionable quality. If really ill he consults physician; if constipated uses the gentle family laxative, Syrup of Figs .....

For Sudden Colds, take Hawker's Tolu and Wild Cherry Calsam. It cures .....

USE SKODA'S DISCOVERY, the great Blood and Nerve Remedy.

A Cure for the Blues.

The severe fit of blues manifest by long faces and doleful stories about the shrinkage of securities and merchandise is epidemic in some communities, and is highly contagious, attacking with greatest severity those whose bank account shows a good surplus above immediate needs. Fortunately it is a "self limited disease," and the victim will, in time, recover; meanwhile, however, there will be considerable suffering, which may be diminished by employing the following prescriptions, ad lib.:

Give those blinds a fresh coat of paint. It will be necessary in the spring or they will drop to pieces. Do it now and save the repairs.

A good coat of paint on the cornice of your house would improve its appearance and save decay, and the same may be said of your back yard fence. That dining-room floor has for the last six months needed repolishing. The diminished cost of labor and material will more than make up the interest you save by delay. The old-fashioned bar-room fresco of your hall is ridiculed by your neighbors; it is loud and vulgar; rub it out and substitute something more refined.

If you are suspicious there is arsenic in your wall paper, have it removed. It will save a prospective doctor's bill, which, when paid, leaves you with nothing you ought not to possess without this expense.

Give an order at once for that suit of clothes you contemplate when the times are a little better. Your tailor will take the order at reduced rates during the dull season.

The parlor suit begins to look shabby; it has been in use 15 years without renovating; it is old fashioned and not worth repairs. It is now a good time to buy new and modern at a very low price.

If I have failed to mention all you require and your bank account still shows a surplus above immediate wants, drawing nothing by way of interest or at most 2 per cent. tell your wife of it, and if she does not find a more useful way to employ the money you had better get a divorce, for she is certainly not the helpmate she promised to be.

Not Spoken as Spelled.

The absurd and sometimes extraordinary difference between the spelling and pronunciation of English names has often been commented upon. Several lists have been published, but they are by no means complete. The following, it is believed by the Boston Transcript, are, for the most part, new: Woodnesborough, Winsbro; Woolmancote, Woodmucket; Wymondham, Windum; Yaddlethorpe, Yalthrup; Gainsborough, Gainsber; Glencoin, Lenkerrin; Grassington, Girstun; Haddiscoe, Hadsker; Gunthwaite, Gunfit; Eskdale, Ashdale; Brampton Brian, Brawn; Brighthelmstone, Brytun; Hallahon, Horn; Meddlethorpe, Threlthrup; Marylebone, Marrowbone; Ulrome Coram; Uttoxeter, Tuxiter, Ramsham, Ransom; Crostwight, Corsit Pevensey, Pinsy; Coxwold, Cookwood Holdsworth, Holder; Skiddaw is Skiddy; Kirkcudbright, Kircoobry; Ikley, Eelia; Hawarden, Hard'n; Alford, Artfold Strachan should be pronounced Strawn Colquhoun is Kohoon, the accent being on the last syllable; Beauchamp is Beacham; Duchesne should be pronounced Dukarn; Bethune should be Beeton and in Abergavenny the "av" is not sounded. Menzies is pronounced Mynges, Knollys as Knowles, Sandys as Sands, Gower as Gorr, and Milnes as Mills. Dalziel should be pronounced "Dee-al," with accent on first syllable; Glamis is Glarms; Geoghegan should be pronounced Gaygan and Ruthven is Riven.

A Farmer's Idea of Work.

Farmer Hardfist: What under the sun is the reason that boys are such no account critters nowadays? Here is our son, Jasper, pretty nigh crazy to leave the old farm and try to git a job in town.

Mrs. Hardfist (meekly): Perhaps he thinks the work won't be quite so hard.

Farmer Hardfist: Work? Why, shucks, Polly; he don't skurcely know what work is! He hain't done a thing since supper but milk the cows, feed the horses, slop the hogs, split and carry in the wood and kindlin's, shell a little corn, ketch the colt, and turn the grindstone for me about half an hour. He's had all the rest of the time to himself, except the few minutes it took him to mend the bridle I broke this mornin'. What in the name of Tunkett makes all the boys so crazy to leave the old farm?—Life.

Taking Life Easy.

"One of the most noticeable changes that has come about in my experience," says a traveller of fifty years, "is in the evening life of our towns and cities. Why, it isn't so many years ago that in any city the places of business would all be open of an evening. Lawyers would be in there offices, the mechanics in their shops, the merchants in their stores, and everybody pegging away busily. Mills and factories even would run until 7.30. Now go through almost any city or village of an evening, and you'll find the business wheels at a standstill. The lawyers, mechanics, merchants—in fact almost everybody—are idle. No one now attempts to do much of an evening. Social life claims its own when the sun goes down, and either the home circle, the club or the theatre has the people. Perhaps fifty years hence we'll no longer work afternoons.

Slaughtered for their Furs.

An idea of the enormous number of fur-bearing animals annually slaughtered for their pelts may be gained from the following figures of skins to be offered for the January sales at London: One million five hundred thousand muskrats, 550,000 Australian opossum, 220,000 raccoon, 200,000 skunk, 175,000 mink, 105,000 opossum, 50,000 wallaby, 36,800 fox, 36,000 marten, 32,000 nutria, 20,000 wombat, 14,000 beaver, 8,600 cat, 6,000 bear, 5,000 kangaroo, 5,000 lynx, 3,600 Thibet lamb, 3,400 wolf, 2,800 dry-hair seal, 1,100 badger and 1,000 Russian sable, a total of nearly 3,000,000 skins. This is exclusive of the regular offerings of sealskins on Jan. 15, which will comprise 28,900 skins, all except 3,200 of which are from northwest coast seals.

An Interesting Experiment.

Touch the convex side of a watch glass upon water so as to leave a drop hanging on the glass. Pour a little ether into the concave side and blow upon it. The rapid evaporation of the ether will render the glass so cold that the drop of water will be frozen.

Not a New Idea.

Ice artificially manufactured by the use of chemical mixtures is not a late idea by any means, the invention dating back to 1783.

Puttner's Emulsion contains neither Quinine, strychnine, nor other harmful drug. Its ingredients are wholesome animal and vegetable substances, and it may be taken indefinitely without dangerous results. .....

Like a Miracle
Consumption—Low Condition
Wonderful Results From Taking Hood's Sarsaparilla.

Miss Hannah Wyatt
Toronto, Ont.

"Four years ago while in the old country (England), my daughter Hannah was sent away from the hospital, in a very low condition with consumption of the lungs and bowels, and weak action of the heart. The trip across the water to this country seemed to make her feel better for a while. Then she began to get worse, and for 14 weeks she was unable to get off the bed. She grew worse for five months and lost the use of her limbs and lower part of body, and if she sat up in bed had to be propped up with pillows. Physicians

Said She Was Past All Help

and wanted me to send her to the 'Home for Incurables.' But I said as long as I could hold my hand up she should not go. We then began

Hood's Sarsaparilla Cures

to give her Hood's Sarsaparilla. She is getting strong, walks around, is out doors every day; has no trouble with her throat and no cough, and her heart seems to be all right again. She has a first class appetite. We regard her cure as nothing short of a miracle." W. WYATT, 89 Marion Street, Parkdale, Toronto, Ontario.
