THE MIGHTY HEALER. WORLD KNOWN AND WORLD TRIED. The Great Ambassador of Health! TO ALL MANKIND. HOLLOWAY'S PILLS. A BOON TO THE SICK! The want of a sterling medicinal preparation to meet the many "ills that flesh is heir to," and one entirely free from minerals and other deleterious particles, was severely felt till this all powerful medicine was ushered into the world. Holloway's invaluable Pills have become the Household remedy of all nations. Their attribute is to prevent as well as to cure. They attack the root of the complaint, and thus by removing the hidden cause of disease, re-invigorate and restore the drooping energies of the system, assisting nature in her task of vital and functional reformation.

INDIGESTION. The great scourge of this country, as well as of all hot climates and marshy districts, yields quickly to a course of these invaluable Pills, and the digestive organs are restored to their proper tone, and fevers of all kinds avoided. It matters not in what shape this derangement exhibits itself, Holloway's searching and unerring remedy expels it from the patient's system.

GENERAL DEBILITY. From whatever cause, Lassitude of Spirits, and all other signs of a diseased liver, or of a general disorganization of the system, vanish under the edifying influence of this powerful and most searching remedy, which in warm and relaxing climates act like a charm.

COMPLAINTS INCIDENT TO CHILDREN. In no country in the world are more children carried to an early grave than in this. Coughs, measles, scarlatina, fevers, and similar diseases attack the little sufferers, and death too often follows at a rapid pace; yet, if at the first stage of the complaints parents were to have recourse to Holloway's Pills, all danger would be avoided; for the stomach and bowels being gently but effectually cleansed by this mild aperient, the depraved humours corrected, and the secretions duly regulated, a perfect cure is soon effected, and the little patient is restored to sound health.

HOLLOWAY'S OINTMENT. Its adoption in the most famous public hospitals at home, and in most of our colonies, and the voluntary testimonies of persons in all quarters of the globe, who have given it a fair trial, have established a world-wide reputation for this purifying and healing Ointment. It penetrates, with marvellous power, to the seat of an internal disease; and in all external disorders, its application has a rapid and comprehensive effect that resembles magic.

CONTRACTED AND STIFF JOINTS. Extract of a Letter from Mr. Joseph Rogers, of the Pottery Fields, Hants, near Leeds. "To Professor Holloway. Sir,—I suffered for months with a very bad knee, and tried every remedy, likely to benefit me, but without success, the joint was quite stiff, and so swollen that I became seriously alarmed as to whether I should ever regain the use of it. However, by the use of your Ointment and Pills the swelling was soon completely reduced, and in two weeks was completely cured, and I was enabled to resume my work. Any one suffering from stiff and swollen joints should do as Mr. Rogers did—send for Holloway's Pills and Ointment."

BURNETT'S COCAINE! BURNETT'S COCAINE!! BURNETT'S COCAINE!!! The Human Hair. HOW many persons abuse this delicate and beautiful ornament, by burning it with alcoholic water and plastering it with grease, which has no affinity for the skin and is not absorbed, it with grease, so that it could not touch it without pain. This irritated condition, preventing its falling off, and promoting its healthy growth. BURNETT'S COCAINE. A compound of Cocoa nut Oil, &c. for dressing the hair. For efficacy and agreeableness, it is without an equal. It prevents the hair from falling off. It promotes its health and vigorous growth. It is not greasy or sticky. It leaves no disagreeable odor. It softens the hair when hard and dry. It soothes the irritated scalp skin. It affords the richest lustre. It remains longest in effect. It costs three shillings for a half pint bottle.

TESTIMONIAL. Messrs. J. BURNETT & Co.—I cannot refuse to state the salutary effect, in my own aggravated case, of your excellent Hair Oil—(Cocaine). For many months my hair had been falling off, until I was fearful of losing it entirely. The skin upon my head became gradually more and more inflamed, so that I could not touch it without pain. This irritated condition I attributed to the use of various advertised hair washes, which I have since been told, contain camphor spirit. By the advice of my physician, to whom you had shown your process of purifying the oil, I commenced its use, and in three or four days I have now a new growth of my hair. I trust that others, similarly afflicted, will be induced to try the same remedy. Yours, very truly, SUSAN B. POPE.

BURNETT'S COCAINE. A single application renders the hair (no matter how stiff and dry) soft and glossy for several days. It is conceded by all who have used it to be the best and cheapest hair dressing in the world. Prepared by JOSEPH BURNETT & Co., Boston. For sale by dealers generally at 50 cents a bottle, and by the Manufacturer, W. KENNEDY, Agent for P. E. Island. Oct. 24, 1859. 1s.

WARRANTY. I warrant the Mower capable of cutting an acre per hour, or 10 to 15 per day, as well as done with scythes, with a pair of horses and driver, and the following statistical account of the sale of these Machines, which have competed with, and beaten all others, and the warranty given, as a sufficient guarantee of their value. The increase is as follows:— There were sold for the harvest of 1851, 47 Machines, 1852, 84 " 1853, 112 " 1854, 281 " 1855, 620 " 1856, 810 " 1857, 1120 " 1858, 1200 " 1859, 12,000 " There are now building for 12,000.

The Examiner IS printed and published every Monday by EDWARD WELSH at his office, Hillsborough-street, near King's-square. Price—1s. per annum payable half yearly in advance.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, sixth and filthy habits, the depressing view, and above all, by the venereal infection. What ever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquity of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. The foul corruption, which renders the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers die of the diseases of the kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedies that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, OR SCURF, ECZEMA, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SPITRILIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which no health is impossible in contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC. are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human system, remove its diseased action, and restore its healthy vitality. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy so simple and inviting. Not only do they cure the every-day complaints of every body, but also many formidable and chronic diseases. The agent below named is pleased to furnish gratis his American Almanac, containing certificates of their cures and directions for their use, containing long complaints, Costiveness, Headaches, arising from disordered stomach, Nausea, Indigestion, Pain in and Morbid Irritation of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, it commands instant and over-certain success, and is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted that can never be forgotten, and produced cures too numerous and too remarkable to be forgotten.
