

Miscellaneous.

It is claimed that the professions in the South are overcrowded with young men.

Lord Lytton brought home from India a fine cream-colored Arab horse and three buffalo cows.

In a speech delivered a few days ago in Indiana, Mr. Hendricks, the leading Democratic politician in that State, undertook to prove that of all the Republican leaders connected with the great Presidential fraud nearly four years ago Gen. Garfield was the most influential and culpable. Mr. Hendricks cited in proof of his charge evidence given by Garfield before a Congressional Committee. Mr. Hendricks was very bitter—a fact accounted for by the circumstance that if Tilden was cheated out of the Presidency, Hendricks was robbed of the Vice-Presidency, having been associated with Tilden on the Presidential ticket.

**WHY THEY MARRIED.**—Necessity is the mother of invention. A correspondent at Chautauqua gives the following account of the manner in which the proprietaries of the place were preserved by a couple who found themselves in an unpleasant situation:—A young man and his girl arrived at Chautauqua at a late hour in the evening, and after careful and anxious search the only accommodation to be secured were found to be one small room in a cottage. Then was presented a dilemma. To occupy that room together would be a manifest violation of the proprieties of life; to return home was impossible—the last boat had left. For either of them to sit up and pace the grounds the long night through or to occupy the chilly canvas cot in the breezy amphitheatre was an alternative not to be thought of. Genius solved the problem. A minister was sought out—a very easy task at Fair Point—and in a few minutes a short ceremony was said; the twain were husband and wife; John Backwoods and his bride occupied the little room in the cottage together and the proprieties were preserved intact.

An English farmer says that when he gave his men, in former times, milk and oatmeal as part of their daily food, they were robust, hardy and enduring; but since these have been changed for tea and coffee,—'wretched slops,' he contemptuously calls them,—the laborers have become pale, out of condition, and cannot perform the tasks of former days easily. Here is a good hint to our own farmers in the way of rations for their workmen and even themselves. Great Britain cannot compete with us in the production of wheat, but she can produce a much superior quality of oats. Let us exchange products to a certain extent, for mutual benefit. It is a pity we don't abandon fine white flour, and eat the whole, ground from the grain, as in grits and Graham bread. Our teeth, bones, and muscles would be all the stronger and better for such a change of diet. Corn bread and fat pork,—hog and hominy, vulgarly speaking,—is too much the food of our households, especially at the West. This at least, might be often varied by beef, mutton, or poultry, eggs and bread made from unbolted wheat flour, and all be great gainers thereby in health, strength and endurance.—*New York Tribune.*

Gems of Thought.

Form is good, but not formality.  
The eyes are the hands of curiosity.  
He who sows derision reaps mockery.  
Great businesses turn on a little pin.  
Better kind friends than cold kindred.  
The beat throw upon the dice is to throw them away.  
Think not of doing as you like; do as you ought to do.  
The hypocrite is the deadly nightshade of humanity.  
The disease that has the most terror for women is lock-jaw.  
**Remedy for Hard Times.**  
Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple pure remedies, Hop Bitters that cures always at a trifling cost, and you will see better times and good health. Try it once. Read of it in another column.

A Good Account.

"To sum it up, six long years of bed-ridden sickness and suffering, costing \$200 per year, total \$1,200—all which was stopped by three bottles of Hop Bitters taken by my wife, who has done her own household work for a year since, without the loss of a day, and I want everybody to know it for their benefit."  
"JOHN WEEKS, Butler, N. Y."

Time Table.

For the convenience of excursionists and others, we publish the following Time Table, which has been arranged from official tables:—

Trains leave the city for Summerside, Tignish, Alberton and points West, daily, at 6.30 a.m., 9.25 a.m., and 4.50 p.m. For Georgetown, Souris, and all points East, at 7 a.m., and 4 p.m.  
Trains arrive in the city daily from Summerside, Alberton, Tignish and points West, at 10.16 a.m., 4.38 p.m., and 8.35 p.m.  
From Georgetown, Souris, and all points East at 10.04 a.m., and 7.10 p.m.  
Steamer Heather Bell leaves Charlottetown or Orwell every Monday and Wednesday evenings.  
Leave Orwell for Charlottetown every Tuesday and Thursday mornings at 7 o'clock.  
Leaving Charlottetown for Orwell same evening at 3 o'clock.  
Returning from Orwell to Charlottetown same evening, arriving at Charlottetown about 8.30 o'clock.  
Leave Charlottetown for Mount Stewart every Wednesday and Friday mornings at 4 o'clock.  
Leave Mount Stewart for Charlottetown at 7 o'clock.  
Leaving Charlottetown for Mount Stewart same evenings at from two to three o'clock, according to tide, return to Charlottetown same evenings.  
A steamer leaves Steam Navigation Wharf, in this city, for Pictou Landing every Monday, Wednesday, Thursday and Saturday mornings at half-past seven o'clock. Returning same days.  
A steamer also makes daily trips between Summerside and Point du Chene, and connects with the express train to and from this city.

**INTERNATIONAL STEAMSHIP CO'Y.**  
Steamers leave pier, Reed's Point, St. John, N. B., every Monday, Wednesday and Friday at 8 a. m., for Eastport, St. Andrews, St. Stephen, Portland and Boston.  
Steamers arrive at pier, Reed's Point, St. John, N. B. every Tuesday, Thursday and Saturday afternoons, from Boston, Portland, Eastport, St. Stephen and St. Andrews.

MORTGAGE SALE.

Dalhousie College and University.

**THE MUNRO BURSARIES.**

THE Winter Session of Dalhousie College will commence on WEDNESDAY, 27th October, 1880. The Matriculation Examination will begin on that day, at 10 o'clock, a.m., and classes will be opened on Monday, 1st November. Students may enter as (1) Undergraduates, with the intention of applying for a University Degree in Arts or Science at the end of their course, or (2) as General Students who do not look forward to a Degree. For the latter no Matriculation Examination is required.

The Matriculation Examinations are partly oral and partly written; the subjects for entrance into the First year of the Arts course are:

I. IN CLASSICS.—Latin Grammar, Greek Grammar, one Latin subject, one Greek subject. The following subjects are recommended:  
In Latin.—Caesar, Gallic War, Book I; or Virgil, Aeneid, Book III.  
In Greek.—Xenophon, Anabasis, Book I.

Instead of the above, equivalents may be offered, if they be not parts of the Undergraduate course, on giving a week's notice to the Secretary of the Senate.

II. IN MATHEMATICS.—Arithmetic; Euclid's Elements of Geometry, Books I. and II.; Algebra, Simple Rules, and simple Equations of one unknown quantity, not involving Surds.

III. IN ENGLISH.—Grammar; History of England; Geography; Composition.

The subjects for entrance into the first year of the Science Course are:

I. IN MATHEMATICS.—Same as for the First Year in Arts.

II. IN ENGLISH.—The same as for the First Year in Arts.

III. IN LATIN OR GREEK OR FRENCH: Latin.—The subjects of the Matriculation Examination for the First Year in Arts.

German.—Grammar and Translation.  
French.—Grammar and Translation.

The following Bursaries and Scholarships are offered for competition at the Matriculation Examinations:—

**1.—The Munro Bursaries.**

GEORGE MUNRO, Esq., the Founder of the Munro Professorship of Physics in this University, offers this year seven Bursaries for competition at the Matriculation Examination.

The value of each of these Bursaries is Two Hundred Dollars yearly, with Free Class-Tickets for the first two years of the Undergraduate Course, taken consecutively; provided that the holder of Bursary gain a Certificate of Merit at the Sessional Examinations of the first year. After these two years, the Bursaries are again to be competed for, and will be held during the third and fourth years of the Course, on terms similar to those of the preceding years.

These seven Bursaries are allotted for competition to students from the following five districts of Nova Scotia, and from New Brunswick and Prince Edward Island, one to each, viz:—

1. The Island of Cape Breton.
2. Pictou, Antigonish and Guysboro.
3. Colchester, Cumberland and Hants.
4. Halifax, Lunenburg and King's.
5. Annapolis, Digby, Yarmouth, Shelburne and Queens.
6. New Brunswick.
7. Prince Edward Island.

Candidates must satisfy the Principal, before the week in which the Examinations are held, with respect to the districts to which they belong, and as coming from which they are entitled to compete.

Students who have already Matriculated at any College are disqualified for competition.

The Bursaries will be awarded to those Students from the several districts mentioned, who make the highest total of marks at the Matriculation Examinations; but no Bursary will be awarded unless a Standard of Merit, determined by the Senate, shall be reached by the candidate.

The Examinations for the Munro Bursaries are the same as those for the Professors' Scholarships.

Further information may be obtained on application to the Principal.

**2.—Professors' Scholarships.**

Two Scholarships, entitling to free attendance on all the Classes of the Undergraduate Courses in Arts.

The subjects of Examinations for these Scholarships this year are nearly the same as those for Matriculation in Arts at the University of Halifax, viz:—

Latin for 1880: Caesar, Gallic War, Book I; Virgil, Aeneid, Book III.

Greek for 1880: Xenophon, Anabasis, Book I. Arithmetic; the ordinary rules of Arithmetic, Vulgar and Decimal Fractions, Proportion and Interest.

Algebra: as far as Simple Equations and Surds.

Geometry: First and Second Books of Euclid.

English: Grammar, Analysis, Outline of English and Canadian History, and General Geography.

One Scholarship entitling to free attendance on all the classes of the Undergraduate courses in Science, is offered by the Professors this year for competition at the Matriculation Examination. The subjects are the same as those of the Matriculation Examination in Science.

By direction of the Board of Governors,  
WILLIAM DOULL,  
Secretary.
