Montreal Stocks
MONTREAL (CP)— Industrials gathered fractional strength in moderately active dealings on the stock market Thursday. The session closed with a firmer undertone after a narrowly erratic opening.

There were a handful of strong spots and several new peaks were established.

Minerals fluctuated within narrow confinements amid brisk dealings, shares traded topped the 1,000,000 mark for the fourth consecutive session.

Base metals drifted irregularly higher, following a hesitant start, while steel and banks issues displayed mixed patterns. Papers and utilities, despite a few bright spots, were easier. There was little change in the carriers.

Feature of the session, in the industrial classifications, was Aluminium, 2,277 shares traded, up 2 1/2 at 109.

Ford rose 3 points to a new top of 145 in moderately active deal- ings while St. Lawrence climbed 3 1/2 to a peak of 82 1/2.

Power Corporation, Shawinigan and Seagraves were prominent among the losers.

Better interest was shown in the western oils and prices respected with a mild upsurge—gains ranging to 10 cents. There were a few new highs established.

In the mines, Campbell Chib was relatively active and climbed 1 1/2 points to 16 1/2. Quebec Chib, the day's most active issue, moved up 8 cents to close at \$1.38 after fluctuating between \$1.30 and \$1.40 throughout the session.
