HEAD OFFICE, MONTREAL.

INCORPORATED BY LETTERS PATENT OF THE DOMINION OF CANADA, UNDER THE "COMPANIES ACT."

CAPITAL, \$3,000,000.

50 thirty thousand (30,000) shares of one hundred dollars each.

DIRECTORS: JOHN F. STAIRS, M.P., Halifax, President.

A. W. MORRIS, M.P.P., Montreal, Vice-President.

EDWARD M. FULTON, Montreal, Treasurer.

GEORGE STAIRS, Halifax.

JAMES M. WATERBURY, New York.

CHARLES W. HOSKINS, New York.

WILLARD P. WHITLOCK, Elizabeth.

SECRETARY: CHARLES R. MORRIS, Montreal.

BANKERS: THE CANADIAN BANK OF COMMERCE, THE UNION BANK OF HALIFAX.

SOLICITORS: MACMASTER & MCGIBBON, Montreal.

The Directors, who are now the owners of the entire Capital stock, have decided, at the request of numerous friends of the Company...

Applications for shares will be received until February 15th, 1893, at the office of the Canadian Bank of Commerce...

Forms of application for shares may be obtained at any of the above places, or they will be sent by mail on request.

Should no allotment of stock be made in any application for shares, the amount paid will be returned in full, and in the event of the Directors finding it impossible to allot the full number of shares applied for...

The right is reserved of withdrawing the offer in whole or in part at any time before allotment, and of allotting to any applicant any less number of shares than the number applied for.

As the dividends of the Company are payable quarterly, beginning with the first day of March next, allotment of stock will be entitled to receive a proportion of the quarterly dividend as declared, corresponding to the amount paid upon their subscription.

It is proposed to apply to the Stock Exchange of Montreal and Toronto for official quotations of the shares of the Company.

The Consumers Cordage Company was organized in June, 1890, with a Capital of one million dollars, to operate several of the largest Cordage and Binder Twine factories in Canada...

The Company has no mortgage indebtedness, and, according to the law under which it was incorporated, none can be created without the consent of two-thirds of the shareholders...

The Company has placed in the hands of its Bankers—

(a) Full statements of its affairs, certified by Messrs. Caldwell, Tait & Wilks, Chartered Accountants.

(b) The following letter from Messrs. Abbott, Campbell & Meredith, Montreal, upon the legality of its incorporation, and the issue of its stock.

MONTREAL, January 5, 1893.

GENTLEMEN—We have examined the books and documents connected with the organization of the Consumers Cordage Company, Limited, and in our opinion it has been properly incorporated, and that its capital stock of \$3,000,000, as issued, is fully paid up and non-assessable, according to the provisions of the "Companies Act."

We are, yours truly, (SIGNED) ABBOTT, CAMPBELL & MEREDITH.

(a) A report from Messrs. Macmaster and McGibbon, Solicitors of the Company, that the titles to its Mills have been duly examined, and that no encumbrances exist.

(b) The following letter from Messrs. Abbott, Campbell & Meredith, Montreal, upon the legality of its incorporation, and the issue of its stock.

The Consumers Cordage Company is probably the second largest Manufacturer of Cordage and Binder Twine in the world, and claims the following very material advantages over its competitors:

(1) Ample capital to conduct its business which enables it to—

(a) To buy its raw material in larger quantities, and at lower prices.

(b) To use only the latest and most improved machinery, thus keeping its mills in the highest state of efficiency.

(c) To economize in selling and distributing its manufactured product.

(d) To cover a wide territory by its numerous agents, and to almost every civilized country in the world that it cannot be seriously injured by local troubles; and its Manufacturing establishments are so scattered that the danger of severe loss by fire is very slight.

(e) Lower cost of production.

(f) By maintaining the sharpest competition between its several mills, it is enabled to introduce in all the best methods found in each.

(g) By spreading its commercial expenses over a larger output.

(h) By placing in its hands the purchasing of the Raw Materials and Manufacturing supplies for the several Mills, thus securing lowest prices.

(i) By manufacturing for themselves many of their supplies.

The Company has always found it in its interest to divide the economies effected in production and distribution with the consumer, and since its existence the Consumers Cordage Company has had a better article at a lower price, than any other.

The Company does not claim to have any monopoly, or to control the supply of cordage, in fact, it has not done so. Since its organization it has been able, owing to the advantages above mentioned, to give a return on its present capital of not less than 10 per cent. per annum (as stated in their Bankers' hands will show), and the Directors believe that these profits will be maintained in the future, as the cost of production and distribution shows each year a marked decrease.

The Dividend for the year ending 31st October, 1892, was at the rate of 8 1/2 per cent. per annum. The past record of the Company and its present position justify the Directors in believing that quarterly dividends of one and three-quarters per cent. can be paid on the profits for the present year be as large as the outlook promises, the final quarter's dividend might be increased.

Any further information may be had at the head office of the Company at Montreal.

Gratifying to All.

The high position attained and the universal acceptance and approval of the pleasant liquid fruit remedy, Syrup of Figs, as the most excellent laxative known, illustrate the value of the qualities on which its success is based and are abundantly gratifying to the California Fig Syrup Company.

The Telephone Company —OF— P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter. If you speak loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a needless waste of wind and lungs, besides being very annoying to all within range of your voice.
