BLOOD DONOR Objective At S'ide Exceeded - An enthusiastic canvass for donors resulted in Summerside's minimum objective of 200 being exceeded by 131 at last night's Red Cross blood donor clinic held in St. Mary's Hall. 295 donors actually gave their blood, but unfortunately, the remaining 164 were not taken due to shortage of equipment since both the R.C.A.F. Station and Summerside secured so many more than expected. 93 of those registered were donors who reported for the first time. Helpers at last night's clinic were provided by the Summerside Red Cross branch, with the assistance of several High School Junior Red Cross members. At the conclusion of the four days of blood donor clinics held in this Province 1328 donors had been registered - 128 over the quota set - the most satisfactory results ever obtained. Mr. W. A. Beloved Bishop

Throughout the Province in general the same driving force was noted and during his time there were erected new churches at St. Georges, Wellington, Hunter River, Southport and Mirmingash. Loved By Children - Although he did not take so active a part in general work of the local parish, leaving it mostly to the parish priests, he maintained a special interest in the children. There was hardly a child in any Roman Catholic school in the city who did not know him personally. Every day numbers of them used to crowd into his residence to seek advice or encouragement or help.

Community Planning

Community planning must be a developing, growing thing as community needs are constantly changing, he stated, and added that in the past too little attention was paid to trade, industry and commerce. He suggested that all communities should receive sites to have an area available for the establishment of industries seeking to locate in a city. One great need was highway clearance control, he said, and cited instances where important intersections were almost blocked up by businesses spring up on the corners. There were times, he said, when private enterprise, as valuable as it is, must give way to the public interest. Of community planning in general he stated that an association should never become a "pressure group" as it must recognize that the spending of money rests with government and C.P.A.C. is essentially only a citizens advisory group. Down here it must take note of the way of life in the Maritimes by adapting "the best of tradition to the best of reality." The meeting was presided over by Mr. F. W. Hyndman, retiring president, who called on Mayor J. D. Stewart to introduce Mr. McVittie. The Mayor said that people might ask what tangible results could be obtained from community planning. He reminded them of the frequent power and telephone interruptions resulting from tree branches hitting wires and said the local association had corrected this through wise cutting. The speaker was thanked by Premier A. W. Matheson who jokingly referred to Mr. McVittie's remarks about mud on the roads and said if he could discover a way to combine Island mud with Nova Scotia coal to form a road base, a monument would be erected to him.

STRICT PRECAUTION

TAUNTON, England, (CP)—Authorities here plan to quarantine any polio victim's family for three weeks in an effort to stop any outbreak. Financial loss will be made good.

President's Report

In his presidential report Mr. Hyndman thanked the City Council for its co-operation in providing an open space in the Spring Park area. He suggested that the DesBrisay Crescent section owned by the City was an eyesore and believed that if advantage were taken of the fill to be removed from the new Federal Building site the area could quickly be built up and turned into a place of beauty. He regretted that the small towns and villages did not enter

Blood Donors At RCAF Station Establish Record

The registration of 253 R.C.A.F. personnel at the Red Cross blood donor clinic held in the trades advancement building yesterday morning and afternoon established an all time record at the station. This was 53 donors in excess of the objective of 200 and reflects great credit on Ft.-Lt. G. B. Scott, chairman of the station blood donor committee and his co-workers F/O J. A. Hamajak and Law Alcorn, who did a most effective personal canvass for donors. Efficient helpers for the team were provided by station personnel.

into the program as wholeheartedly as had been hoped, but paid tribute to Crapaud and Montague for their efforts. Mr. Hyndman said the biggest community problem is the co-ordination of the City and its suburban areas. He did not believe it should be allowed to drift along any further because he felt the time for the serious discussion stage had come. The entire problem should be forthrightly investigated by an unofficial committee rather than have governments attempt to legislate for a matter on which the interested bodies were not yet reconciled.

"Not Guilty" Verdict In Theft Case At S'ide Supreme Court Yesterday

At Supreme Court in Summerside yesterday morning a 12-man jury took only a few minutes to decide on their verdict of "not guilty" which concluded the trial of Vernon Walter Watson, who had been charged with theft in connection with a truck motor, heater, and radiator which were taken from a garage at Central Bedeque last August. The presiding judge, Mr. Justice George J. Tweedy, concluded his instructions to the jury shortly before noon, and previous to this during the morning the jury heard summation by counsel for the accused J. A. Gallant, and the crown prosecutor, D. O. Stewart, Q.C. The taking of evidence in the case had been concluded on the previous day when three witnesses for the crown and two for the defence were heard. Members of the jury were: Ralph Hardy, foreman; Alvin Fred Murray, Albany; Pirth D. Bowness, Summerside; Hubert D. Campbell, Montrose; George Muttart Albany; Ralph Oxen, O'Leary; Keir Woodside, Hamilton; John Haslam, Carleton Siding; William Millar Jr., Central Lot 16; J. Reviews Activities

He paid tribute to Mr. Claude Smith and Mr. J. F. Connolly and to the Press for valuable assistance during his term of office. He then called on Mr. Connolly for the report of the secretary treasurer. The latter briefly reviewed the work of the past year and paid tribute to Dr. Henry Moysa, Summerside, and Mr. Thomas Lothian, Charlottetown, heads of the two branches, for the excellent work they had done. He stated that the City branch had plans for the beautification of Charlottetown for the Centennial Year of 1955, and to alleviate the traffic and parking problems here. His financial statement showed a bank balance of approximately \$500.00 which he said would be reduced when outstanding accounts were paid. He expressed his appreciation of help given by the Press. Mr. Connolly expressed the deep regret of all at the passing of three active members within a year. They were Mr. E. S. Blanchard, Mr. James Harris and Senator Jones. He said all three had contributed much to the work with Senator Jones taking a keen interest especially while he was Premier of the Province. He also heard briefly were Hon. Eugene Cullen, Minister of Industry and Natural Resources, and Mrs. Lillias Toward, Maritime secretary of the C.P.A.C. During the evening the gathering heard two lovely vocal solos by Mr. Raoul Raymond, "Old Man River" and "For You Alone". He was accompanied by Mrs. Raymond.

Ottawa Bus Drivers' Honesty

OTTAWA, June 3—(Special)—Mrs. Ernest Howatt of Charlottetown and Ottawa has the highest praise of Ottawa's bus-drivers. Early this week she left her purse containing two week's pay in cash and a rail ticket from Ottawa to Charlottetown on the seat of an Ottawa Transport Commission bus. The next day when she called the commission office, she was told they had a purse of that description and invited her to call. When the loser, who is secretary to Neil A. Matheson, Liberal member of Queens, called at the office, she was delighted not only to recover the purse but to find every cent and every item of her personal belongings intact. Mrs. Howatt had given up all hope of recovering the purse in this city. Finding it missing when she reached home, she returned to her office at the Parliament building, looked there and also looked in Mr. Matheson's office where she had been taking dictation. She called the Transport Company as a resort only. It was a happy last resort.
