Grain

WINNIPEG, July 11— (CP)—The July contract of both oats and barley today showed a firm trend on Winnipeg Grain Exchange, scoring moderate advances on commercial buying and light offerings.

The advance reflected late supplies in immediate shipping positions and developments in the Koro-wear.

Aggressive demand for American accounts sent rye prices upward during the fairly active session. Here too, the war situation offset reports of good rains over the prairie grain belt.

The United Kingdom was allocated 550,000 bushels of wheat. The Republic of Ireland took 250,000 and Italy 80,000.

Class two wheat prices were unchanged.
