Only a Mechanic.

"Boys," says an exchange, "do not sneer at the hard-working mechanic, for beneath that dust-soiled jacket may lurk the spirit of true nobility."

The exchange is eminently correct. It is, indeed, wrong to pass through this world sneering at mechanics, A good average, able-bodied mechanic is a bad man to sneer at. At almost any unexpected moment he is quite liable to suddenly transfer some of the dust on his jacket to the broadcloth coat of the sneerer, and jolt him severely if he sneers too hard at the mechanic. If a boy or young man is contemplating sneering at a mechanic, it would be quite as well not to let the hard-working mechanic catch him at it. When the boy wants to sneer real badly, and feels that he can't hold in any longer, it would be far better, instead of plunging right into the midst of a lot of hard-working mechanics to seek some secluded locality and have his sneer out all by himself. It would look a great deal better, and the boy would look better when he went home to the bosom of his family.

No, boys, it is neither polite, genteel nor wise to sneer at a mechanic. Neither is it healthy. The habitual sneerer at mechanics is sometimes cut off in the flower of his youth. Life is too short to indulge in such perilous recreation. The sneerer is too often found in a pensive mood, abstractedly engaged in applying pieces of raw beefsteak to his eyes, trying to reduce a swollen nose with generous decoctions of arnica, feeling his lame back, or picking the gold filling out of the teeth which he happened to causa ly cough up soon after indulging in his playful little sneer at the hard working mechanic. This is a pratical lesson in parlor etiquette which the youth will not be liable to forget in a month or six weeks. The next time he feels called upon to sneer it may be at a cow with a board over her face, or a poor blind girl, but it will not be at a mechanic. Politeness pays in the long run, and the lesson can never come home to a young man with greater force or earnestness than when he takes occasion to contemptuously sneer at a hard-working mechanic, and the mechanic happens, at the time, to be looking that way.

Coming Leap-year.

In Catholic and Protestant countries the year 1900 will not be a leap-year, they all have adopted the Gregorian calendar. In countries where the Greek Church is established (Russia and Greece), the old Julian calendar still holds, and those countries will count it a leap-year. After February, 1900, therefore, the difference between the two calanders, which is now twelve days, will become thirteen days, and will remain to until 2100, the year 2000 being a leap-year in both the Julian and Gregorian calendars. The rule for leap-year may be thus stated, according to the Gregorian calendar, which differs from the Julian only in a special treatment of the century years: All years whose index number (1883 is the index number of the present year) is divisible by four are leap-years; unless (1) their index number is divisible by 100 (century years). In that case they are not leap-years, unless (2) their index number is divisible by 400; in which case they are leap-years. This, 1700, 1800, 1900, and 2100 are not leap-years, while 1700, 2000, and 2400 are.

Mr. Ernest Hart, the editor of the British Medical Journal, who has just returned from a tour of inspection in Donegal, Ireland, reports a melancholy condition of affairs. He found in Donegal 14,000 persons subsisting upon the alms of the priests, derived from the American funds. Emigration will not really aid them, as only the best will depart, while the helpless will be left behind. In Ireland there are 4,000,000 acres of land, formerly under tillage, now returning to a state of nature. Mr. Hart proposes that the Government, instead of spending money on emigration, shall spend it on lending money at 1 per cent., to a substantial company, which will redeem this land, and settle upon it tenant farmers, who, in a few years, will become proprietors of their own holdings of 30 acres.

The Great French Remedy, Dr LeDuc's Periodical Pills.

For the cure of Leucorrhœa or White's Excessive or painful Menstruation, Green Sickness, Falling of the Womb, Catarrh of the Uterus or Vagnia, Hysteria, pain in the Back, or Piles, or for the purpose of invigorating and giving tone to the Generative Organs, two pills should be taken twice daily, or in very en, febled conditions, one pill three times a day. To effect cures in chronic cases it will be necessary to continue the use of the remedy for some months. A reasonable trial will create sufficient confidence in the remedy to insure its being taken until a permanent cure is effected.

MONTREAL, May 14, 1883.

Dr. Bennet, Halifax.

DEAR DOCTOR,—Just a few lines as promised by me. I am more than pleased with the "Liver Pad" I got from you when in Charlottetown, and can conscientiously say that it is the best thing I ever saw or heard of. It has done for me what all kinds of medicine and different physicians could not do for me—i. e., removed a very nasty body erupt on, which had given me a great deal of annoyance for more than two years; and, more than that, I have not been troubled with a single headache since I have used it. Before wearing the Pad I was troubled with severe headaches continually; and that very objectionable feeling of sluggishness and dullness has entirely left me—in fact I am a new man, to what I was before wearing it. I am truly thankful to you for what you have done for me, and I hope that you may be long spared to the benefit of the public

Believe me,
Yours sincerely,
FRANK ELLIOTT.

SCROFULA

and all scrofulous diseases, **Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils,** and **Eruptions of the Skin,** are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, MRS. ANN O'BRIAN."
148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. P. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a *complete cure*. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures **Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility,** and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.
