QUEEN VICTORIA completed the thirty-seventh year of her accession to the throne on Monday last. Her Majesty is now fifty-five years of age.

We understand that Mr. P. M. Macgowan and J. H. Hazard have been appointed Railway and Custom House Printers for P. E. Island.

Active operations have at last commenced to see what minerals the Island really possesses. Mr. Young has commenced sinking a shaft in Mimingham, and is very sanguine that he will find coal at not much over one hundred feet. - S. J.

The Hon. W. G. Strong and George R. Beer Esq., were elected by the lay members of the P. E. Island District Meeting as Lay Representatives to the Methodist General Conference, to be held in Toronto in September next. - New Era.

PAST MASTER RANKIN'S CONTRIBUTION. - The Chairman of the Committee of Victoria Lodge, F. & A. M., acknowledge with thanks, the liberal contribution of His Worship the Mayor towards the object of the collection taken in the Wesleyan Chapel yesterday, he, on account of a previous engagement, being unavoidably absent. - Patriot.

MUSIC. - As will be seen by his advertisement elsewhere, Mr. S. N. Earle intends opening a musical class - vocal and instrumental - about the first of July. As Mr. Earle is well known in the city, anything we can say of his attainments would be superfluous. It would be well for no person musically inclined to miss this opportunity.

The Tryon Woolen Factory again in course of construction. We understand that most of the building material is already on the ground, and that the owners intend to push on the work as speedily as possible. In the course of a month or two this factory will, in all probability, be again in operation, when, we have no doubt, it will continue as formerly to give universal satisfaction to its numerous customers. - S. J.

ST. PATRICK'S T. A. S. P. - We will take place on the 9th of July next, on St. Dunstan's College grounds. It promises to be a gorgeous affair. The Committee of Management are determined that it shall be the best picnic of the season. On the grounds will be games, swings, etc., which will afford an abundance of rational amusement, and a spacious hall is secured for dancing purposes. See advertisement.

MASONIC. - The members of the Masonic fraternity of this city celebrated Wednesday last by a procession, and attending divine service at the Wesleyan Chapel. The sermon preached by the Rev. D. D. Currie on the occasion was appropriate and instructive. A collection was taken up for the poor after the sermon. After service the procession formed and marched down Prince street, along Water street and up Queen street to St. John's Lodge Room, where the Secretary read a letter from Mr. Rankin expressing regret for not being able to attend on the occasion. After passing resolutions of thanks to Mr. Currie and to the Trustees and Choir of the Wesleyan Church, the members dispersed.

It would seem as if the hens were having a lively competition as to which of them can lay the biggest or the most curious egg. Almost every month we have taken up for the past week has had something to say about an egg laid by a hen belonging to Mr. So-and-so. The Patriot had the last monster egg, but it has been 'beaten out of its shell' by an egg which was laid over in King's Quay, N. B. This one measured nine by seven and one-half inches. Then again, another curiosity in the egg line is on exhibition in St. John. The egg is so shell-less and consists of two distinct parts, each part the size and shape of an ordinary egg. The two parts are connected by a 'Siamese link' about a half inch in length. Well, well. We see hens can do foolish things as well as men. We would put no more faith in the future actions of a hen that would do such an absurd thing as that than we would in the orbit of the Herald.

THE IRISH DELIBERATE. - Mr. Peter O'Leary, the "Joe Arch" of the Irish Laborers' Union, is at present in Canada, inquiring into the aspect of the country, socially, morally and religiously. He is reported as a man of great intelligence, and no doubt his report of the country will be satisfactory to those whom he represents. As a representative of the Irish Laborers' Union, he is in Canada to obtain the same terms for the Government for the Irish laborers as Joe Arch procured for the Englishmen. It will be remembered that these terms are the assisting of the emigrants to come out to this country, clearing of part of his land for him, and building him a small house. Of course the Irishmen will receive the same liberal terms as the Englishmen, and everything in the way of encouraging the emigration of those who will do the mainstay of this country will be done.

PUBLIC BATHS. - Why have we not public baths in this place? They are one of the most necessary things in a city. That sea bathing is conducive to health and cleanliness, no one will deny. The ancient Romans recognized the fact, and now all European and American cities and towns are supplied with bath houses. A couple of these, situated in some convenient locality where the tide water could be available, and where all who desired could enjoy the necessary luxury of a sea-bath, are very desirable. At present, you must travel a couple of miles around the shore before you can find a suitable place to bathe. The expense requisite for the erection of a couple of these houses would be trifling. But then there are other things as much wanted in this city, and as necessary for the health and comfort of the citizens, which we have no likelihood of getting. No person seems to take any interest in improving the place. They appear to be content to wade along, regardless of where or how they live, and without giving any thought to the improvements that are needed. Especially in those things that are absolutely necessary for their well-being are they shamefully negligent. A little private enterprise is what is wanted, and without that the place will never prosper.

LOCAL AND OTHER MATTERS.

This Island has become affiliated with the Patriot.

The Feast of St. John the Baptist, 24th June, was observed with special solemnity on Wednesday last, at Rustico.

THEATRE WITH LONDON. - The SS. Alambra took away on the 25th 107 bbls. herring, 571 boxes and 92 bbls. eggs, and 15 pigs. Junk.

CONFIRMATION. - His Lordship Bishop McIntyre administered the Sacrament of Confirmation to 250 persons this morning in the Cathedral. Before Confirmation His Lordship delivered a very impressive and instructive address.

MESSES. Matheson & Clarke, of Cascumpec, forwarded here, a few days ago, for reshipment, 50 bbls. and 50 boxes eggs, 600 bush. oats, and 1,800 lbs. hides. It proves how much the opening of the railroad is needed in the mercantile interest.

The steamer Armenia, from Montreal, on the 24th inst., brought 692 bbls. flour, 212 coils cordage, 32 cases and pkgs. sundries, 3 cases prints, and 53 kegs nails; and the next day a schooner brought 640 bbls. flour, 30 of meal, and 4 of beans.

TEX EYCK AND SCHAEFER. - On Thursday last at Peckskill, the race between James Ten Eyck, of that place, and Wm. Schaeffer, of Pittsburg, came off, resulting in a victory for Ten Eyck who won by three lengths. It is said that when Schaeffer came in his boat was full of water.

The annual Examination of the pupils of the Wesleyan Academy was concluded on Friday last in the presence of a large number of visitors, among whom the ladies largely predominated. The various classes, which are graded, exhibited all the signs of judicious teaching and treatment. The higher classes showed a remarkable degree of proficiency in all the subjects in which they were examined. Difficult passages were read with ease and fluency; analysis given with scrupulous exactness; and grammatical construction nicely defined. A knowledge of Scripture History, which proved careful manual culture, was shown; and we were hardly prepared for the degree of perspicuity and ease with which a series of lectures in Botany were delivered. Miss French handled her subjects in the course of the examination in such a manner as to leave no doubt of her superior qualifications as a Teacher. The various subjects, other than those we have mentioned, were very creditably disposed of, and, as we expected, to be furnished with a prize list or one giving the names of those exhibiting the highest proficiency in the various classes, we will defer a longer notice till we are favored with such list.

OBITUARY.

We are sorry to have to record the death of one of our oldest citizens, John Lawson, Esq., Q. C., Recorder of this city, and for many years a prominent member of the legal profession in this Island.

Those who remember him in his best days describe him as one of the finest speakers who ever practiced in our courts, and there are very few men in the community who could compare with him in oratorical attainments. He was a polished and vigorous writer, and one of those rare characters, a thoroughly well read man, who was interested in, and could speak with ability upon any topic. To his friends and ability upon any topic. To his friends and ability upon any topic.

GREAT THUNDER STORM. - The St. Croix Courier says: "A terrific thunder storm, accompanied by heavy wind and rain, passed over St. Stephen, N. B., and vicinity on Tuesday evening, between six and seven o'clock. The lightning was more vivid than is usually seen there, and many were alarmed at its apparent proximity. We have heard of no damage being done in town, but at Oak Bay the lightning struck the new Rectory which has recently been erected by the members of the Episcopal church there, and injured it severely. The lightning first struck one of the chimneys and passed through the roof, tearing off the shingles, it then ran along several of the rafters, tearing them to splinters, and down in the main house and L in three directions, injuring to a large extent almost every room in the house, and passing out of the clapboards in three directions. In the room occupied by Mr. and Mrs. Wainwright and infant, two of the walls were broken, and the escape of the inmates from injury or death is almost miraculous."

TELEGRAPHIC.

LONDON, June 25. - An authoritative denial is given to the report that Queen Victoria is to visit St. Peterburgh next September.

The Carlists have established three entrenched lines before Estella, Spain. The outermost line is five leagues from the city. The relations between Turkey and Persia are very critical, owing to the refusal on the part of the latter to compel the return, to Turkish territory, of a tribe formerly owing allegiance to that country. The rupture is in danger of becoming critical.

In the Commons, yesterday, Mr. Clissold's bill, requiring an official survey of merchant ships before sailing was rejected by a vote of 173 to 170.

The newspapers Figaro, La Franco, and Le Soier, of Paris, have been used by the Government for violation of press laws, in re-printing Rochefort's New York letter. The verdict was guilty, with extenuating circumstances, and the proprietors only were fined 100 francs each.

New York, June 25. - A number of houses and sixty horses were burned in New York City last evening. Loss one hundred thousand dollars.

Theodore Tilton stirs up the scandal concerning Henry Ward Beecher, making some damaging statements concerning the pastor of Plymouth Church.

Postmaster General Creswell has tendered his resignation to the President, for private reasons, and it has been accepted. The position has been offered to the Hon. Eugene Hale of Maine, and he expressed his qualified acceptance of it.

John D. Scott, his daughter, and a son of Wm. Perkins, were burned to death on Saturday night with the dwelling of the former, in Green Co., Ky.

The Knickerbocker Ice Co.'s stables, New York City, were burned last night, with 50 horses.

London, June 25. - Consols 92. Bullion in the Bank of England has increased £344,000 during the week. Markets steady.

Calcutta, June 25. - It is believed that the distress from the famine has been stayed everywhere, and the hopes of the people are reviving.

Rome, June 25. - There was excitement last evening in consequence of anti-Papal demonstrations. Several of the leaders were arrested, and quiet restored.

Montreal, June 25. - The St. Jean Baptiste Societies held a large convention this morning in the Academic Hall of Jesu, where divers questions affecting immigration and mutual improvement were discussed.

Ion. Mr. Chauveau treated the subject of education in an able manner. During the day the American societies called on the Mayor, Judge Coursol, the Roman Catholic Bishops, and the American and French Consuls.

This afternoon the picnic at St. Helen's Island was attended by thousands. A concert of vocal and instrumental music was given by 800 performers. The city is covered with flags and other emblems.

All the papers here have published the text of the Reciprocity Treaty, but have made scarcely any comments on its merits. The Herald, in the course of a non-committal article, says that the Caughnawaga Canal cannot be opened to Americans free to Canadians.

YAKOUBI, June 25. - The Supreme Court session has been held here since Tuesday, Judge McCully presiding. A number of important civil and criminal cases were tried. To-day Francis and Jarvis, colored, were convicted of rape and sentenced to the penitentiary. The case was an aggravated one of baseness and cruelty.

The weather is clear and cool here. The Western N. S. Baptist Association closed an important and well attended annual session at Lockport, on Tuesday evening. A large number of pastors and lay brethren were present. Over one thousand baptisms are reported within the association limits last year. The mission work is remarkably prosperous, and the financial report cheering.

London, June 25. - The Porte prohibits the circulation of the Bible in Turkey. The Commons last evening passed the Licensing Bill, 328 to 39.

The conference of Prussian Roman Catholic Bishops opened at Fulda yesterday, and will end the 26th.

Palmyra, April 22, 1871. Dr. Garcke - This is to certify that in the 1858, I was suffering from heart disease, and hearing from some one in our land that there was a good remedy for taking them, I went to work, but have always thought if I had done as you told me to do, I might have been well. The Lord knows, I have taken some since and am still alive, thank God, and somewhat better. I did not give your valuable medicine a chance. I thought it my duty to write and let you know. At the time you told me my daughter had liver complaint and other symptoms, and might, if not attended to, turn to consumption. You left some medicine for her, and in a short time she was well, and has been ever since, with the exception of slight colds. Last winter I believe the Lord sent you to my house. My son was almost blind in one eye, my wife and I were in great trouble, being afraid he would lose it. We were about taking him to Halifax. He could not open his eyes. There was white skin over it. You looked at it, and gave me a bottle of your Eye Relief. In less than a week it was as well as the other. Having some little of the Eye Relief left, one of my neighbour's daughters eyes was in a state of blindness. I gave him the balance; it worked like a charm; and only twenty-five cents a bottle. Now, sir, having confidence in you as a man, and an able physician, and your medicine as nature's own remedy, and feeling for the afflicted, I send you this, which if you see fit to publish, do so. THOMAS SEAW. Sworn to before me, this 24th April, 1871. Falmouth, N. S. W. A. CORRY, J. P. June 1, 1874. - 1mo

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALSINA. "My wife for a number of years has been suffering from Asthma and Disease of the Heart. Her breath is short and quick and at times causing great distress and apprehension of impending death, and she was greatly prostrated by general weakness. At length she was constantly subject to attacks of great difficulty breathing, the surface of the body becoming cold, and she was apparently very comfortable health, only by great exertion, on the part of attendants. She began taking your medicine about a year ago, and she has not had an attack since, and she has great reason to be thankful for her extraordinary improvement. Wm. ARMSTRONG, Leading Water. A New York rumor has it that J. J. Gould has obtained control of the Erie Railway. The Jews of New York are subscribing for their suffering brethren in Palestine.

WITH DROPPER ATTACHMENT.

To the Farmers of Prince Edward Island. The above cut represents an Iron Mowing Machine, with Dropper Attachment for Reaping, for the sale of which we have been appointed agents by The Richardson Manufacturing Company, of Worcester Mass.

In offering it to your favorable consideration we have every confidence in its utility. It is the lightest draft machine in the world; it is strong and simple in its construction, and so small and compact that it can be easily removed from one field to another, passing through an ordinary gate without any difficulty. Farmers who desire to purchase the cheapest and best Machine now in the market will do well to call and examine the New Model Buckeye. Also WHITCOMB'S PATENT SELF-OPERATING HORSE HAY RAKE, WITH STEEL TEETH. We have on hand for the season a number of these excellent Rakes. It is unnecessary for us to say anything in their favor, as they have recommended themselves wherever they have gone. We keep constantly on hand a supply of Buckeye and Manny Extras.
