

**Singing Wins  
Scholarships  
In Contest**

TORONTO (CP) — Estrana from Halifax and St. John's Nfld., in the Miss Canada contest each won a scholarship of \$150 for their singing ability in the contest Sunday.

Genevieve Connolly, 20, of St. John's, won the most talented classical singer award and will use her scholarship to further her voice training, probably in a school in Newfoundland.

Halifax's entry in the beauty contest, Cheryl Hirschfeld, 19, was awarded her prize as the best popular singer. Miss Hirschfeld, who has sung in musical comedies in the Halifax area, said she will also use her money for singing lessons.

The contest was won by 20-year-old Linda Douma from Sidney, B.C. Joan Clarke, 18, of Montreal placed second and Karl Jomassen, 19, of Calgary third. The new Miss Canada wins a \$1,000 scholarship, \$5,000 worth of prizes and will draw a salary of at least \$5,000 for the next year.

**Castro Regime  
Partially Controls  
Soviet Missiles**

WASHINGTON (AP) — The Castro regime in Cuba now has at least partial control over Soviet anti-aircraft missiles on the island, a state department spokesman said here.

State department press officer Robert J. McCloskey also told a press conference that Soviet military personnel remaining in Cuba now interview "no more than a few thousand."

He said they are not an organized force but an advisory and training mission. McCloskey made these points in responding to questions about statements made by Premier Fidel Castro in an interview with the New York Times.

Castro was quoted as saying Cubans control the surface-to-air missiles which the Soviet Union installed at 24 bases at the time of the big missile crisis in 1962.

He also said Cuba was prepared to shoot down U.S. reconnaissance planes unless some legal means could be found to end the surveillance flights.

McCloskey said he could not define the precise control which the Cubans may have over the anti-aircraft missile sites.

U.S. officials said it would be logical within the limits of Soviet policy, which is aimed at quieting down the Cuban situation, either to maintain some physical authority over the anti-aircraft missiles or to have an agreement with Castro that the missiles would not be used against any U.S. aircraft without approval from Moscow.

Placing the missile sites completely under Castro's control could create a dangerous situation, if Castro were to carry out his threat to shoot down American surveillance planes.

**N.S. Premier  
Challenged  
To Cite Leaks**

OTTAWA (CP)—Labor Minister MacEwen has challenged Premier Stanfield of Nova Scotia to produce cases of leaks by any federal minister or official.

He said in the Commons that Mr. Stanfield had made a vague and general charge that federal authorities were making premature disclosures to the press concerning negotiations for location of new industries in Nova Scotia.

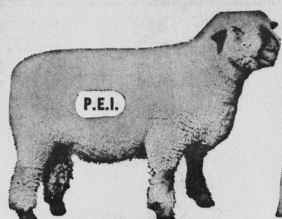

He said the premier had made the charge to restore the sagging spirits of the Conservative party in his province.

The matter was raised as a question of privilege by Russell MacEwan (PC — Pictou), who said the leaks might endanger a breakdown in negotiations.

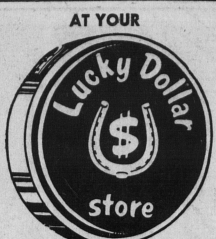

Mr. MacEwan said that when questions about new industries had been asked in the Commons, the government's reply had been that answers might prejudice negotiations.

The leaks should be stopped. Mr. MacEwen said Mr. Ewan had raised a "fraudulent" question of privilege based on a political speech by Mr. Stanfield.

Opposition Leader Diefenbaker said the word "fraudulent" has always been considered unparliamentary and asked that it be withdrawn.
