NO LEGISLATIVE COUNCIL

is maintained, and the number of representatives elected only numbers 89. There the ratio of representation is about one to every 21,000 inhabitants. In Quebec it is about one to every 15,000, and yet in this province we have one representative to every 2,526. It can thus be seen that we have ten men doing what one man does in Ontario. It was too much to expect this Province to bear so great an expense for legislation; and if the Government had not been thwarted by the Opposition, such would not be the case. The second paragraph of the Address referred to the delegation that had proceeded to England to support the memorial forwarded to the foot of the Throne. Although there had been no opposition openly shown by the hon. members of the Opposition in this House, yet it cannot be denied that the Opposition press had acted differently. The *Patriot* newspaper, which is generally considered to be the organ of that party, had published many articles ridiculing the Government for their action in pressing the fulfilment of the terms of Confederation. On the very day the Address to Her Majesty was under consideration, an article had appeared in that paper. It said: "Messrs. Sullivan & Co. are again at it. Now it is an appeal to Her Majesty the Queen, on the subject of the Island's neglected rights and claims, especially in the matter of winter communication with the mainland. The whole thing, on their part, has the appearance of political clap-trap." It was supposed that the Hon. Leader of the Opposition would second the Address to Her Majesty when passing through the House, but he (Mr. P.) not being in his place, the hon. member for Springfield had

## PROVINCIAL LEGISLATURE.

Speech of Mr. Alex. Martin

ON THE DRAFT ADDRESS.

IN moving that the House go into Committee of the Whole to take into consideration the Draft Address prepared in answer to the Speech delivered by His Honor the Lieutenant-Governor, at the opening of the Legislature, Mr. Alex. Martin said that it was customary to make a few remarks on the several paragraphs of the Address.

"The first paragraph is very much in the usual form excepting that reference is made in it to the lateness of the present session. It is true that the opening of this session of the Legislature is somewhat later than usual, but most hon. members are aware of the circumstances that caused the delay. The memorial to Her Majesty the Queen, passed unanimously last session, was to be forwarded to the Dominion Government at Ottawa for transmission to the Imperial authorities. At the time it was passed the country was in turmoil on account of the rebellion in the Northwest, and it was considered good policy by the Legislature that nothing should be done that might embarrass the Dominion Government while its existence was imperilled. As soon as the rebellion was suppressed he (Mr. M.) understood that the Lieutenant-Governor had forwarded the memorial to the Dominion Government. It is also well known that towards the latter part of last year great political agitation raged in England, that the Government led by the Earl of Salisbury was defeated at the general election, held last fall, and that a new administration assumed the reins of power. At such a time it was not advisable to send forward a delegation, especially when so important a question as the fulfilment of the Terms of Confederation was involved. When these facts are considered it must be admitted that the Government of this Province took the earliest suitable opportunity of pressing our claims. In the past it has been customary to spend considerable time discussing frivolous questions, and if the lateness of the present session will induce Hon. members to confine their remarks to matters of importance, any inconvenience experienced will be fully offset by the expedition with which the important business of the Province will be attended to. The expense attending the annual meeting of our Legislature is altogether disproportionate to the number of our population; but it is well known that the present Government are not responsible for this state of affairs. In 1879 they introduced a bill

TO ABOLISH THE LEGISLATIVE COUNCIL, and if it had not been thwarted by the opposition members in that House, we would have had an annual saving of a considerable amount from that time to the present day. The opposition evidently desired to augment our expenditure, so that the Government would be compelled to continue the Davies' Assessment Act that had proved so obnoxious to the people. On several other occasions the Government had endeavored to curtail the expenses of legislation by amalgamating offices and reducing the number of our representatives, but their efforts were thwarted by the opposition so effectually that we yet have 43 legislators for a population of about 110,000. The Opposition now say they are in favor of abolishing the Legislative Council, and perhaps the fact that the Government has taken no taxes from the people for the last four years, has had considerable influence in causing them to abandon the policy they formerly pursued. The Opposition have tried to embarrass the Government in this, as well as in many other questions of importance to the Province. They ridiculed our claim for compensation for piers built since Confederation; they advised persons owing the Land Office to withhold their payments, and the conviction must force itself on every unprejudiced mind that they wished to so curtail the revenue, that the Government will be compelled to reimpose the Assessment Act on the people. In the province of Ontario, with a population of nearly 2,000,000,

and if it had not been thwarted by the opposition members in that House, we would have had an annual saving of a considerable amount from that time to the present day. The opposition evidently desired to augment our expenditure, so that the Government would be compelled to continue the Davies' Assessment Act that had proved so obnoxious to the people. On several other occasions the Government had endeavored to curtail the expenses of legislation by amalgamating offices and reducing the number of our representatives, but their efforts were thwarted by the opposition so effectually that we yet have 43 legislators for a population of about 110,000. The Opposition now say they are in favor of abolishing the Legislative Council, and perhaps the fact that the Government has taken no taxes from the people for the last four years, has had considerable influence in causing them to abandon the policy they formerly pursued. The Opposition have tried to embarrass the Government in this, as well as in many other questions of importance to the Province. They ridiculed our claim for compensation for piers built since Confederation; they advised persons owing the Land Office to withhold their payments, and the conviction must force itself on every unprejudiced mind that they wished to so curtail the revenue, that the Government will be compelled to reimpose the Assessment Act on the people. In the province of Ontario, with a population of nearly 2,000,000,

and if it had not been thwarted by the opposition members in that House, we would have had an annual saving of a considerable amount from that time to the present day. The opposition evidently desired to augment our expenditure, so that the Government would be compelled to continue the Davies' Assessment Act that had proved so obnoxious to the people. On several other occasions the Government had endeavored to curtail the expenses of legislation by amalgamating offices and reducing the number of our representatives, but their efforts were thwarted by the opposition so effectually that we yet have 43 legislators for a population of about 110,000. The Opposition now say they are in favor of abolishing the Legislative Council, and perhaps the fact that the Government has taken no taxes from the people for the last four years, has had considerable influence in causing them to abandon the policy they formerly pursued. The Opposition have tried to embarrass the Government in this, as well as in many other questions of importance to the Province. They ridiculed our claim for compensation for piers built since Confederation; they advised persons owing the Land Office to withhold their payments, and the conviction must force itself on every unprejudiced mind that they wished to so curtail the revenue, that the Government will be compelled to reimpose the Assessment Act on the people. In the province of Ontario, with a population of nearly 2,000,000,

been asked to take his leader's place. He (Mr. Sinclair) refused to do so at the time, and the hon. member for Murray Harbor seconded the motion. After the House adjourned, it is well known that the hon. member for Springfield had his name inserted in the journal in place of the seconder, hoping thereby to make the people believe that the Opposition party were desirous of

PRESSING FOR OUR RIGHTS.

In the same way, when the delegation proceeded to England, what do we find the Opposition press saying? In an article headed "They Do Not Expect Much," it said "unless they took some such steps they would have no chance at the coming election, though they do not expect much," again it said "the success which Sullivan & Co. mainly need, a money compensation for past neglect, we fear they will not obtain. But they do not look for much. Blessed are they who have small expectations!" But then why did they go? He (Mr. M.) quoted other paragraphs from the same paper all of which he said were calculated to bring the claims of this Province into ridicule and contempt. In contrast to the unworthy action of the *Patriot*, he commended the action of the *Toronto News*, a paper published in a different Province of the Dominion, where no great interest would be felt in this question. It said, "the dissatisfaction prevailing in Prince Edward Island over
