Spring

Spring doth ride no charger bold. But comes on tiptoe, lightly tapping.

On the tree-trunks and the sod. Calls the earth to end its napping.

Thin green blades of grass up-shooting. Small brown leaf-buds open slow. Waiting till the golden sun Will beckon to the world below.

Yellow crocus, purple violet. Shyly peeping in the wood. Brooks are babbling, birds are singing. And I know the days are good.

NEW green toothpaste with miracle chlorophyll! Gives you a Clean Fresh Mouth not for minutes... but ALL DAY LONG!

This revolutionary new green chlorophyll toothpaste DESTROYS MOUTH ODOR instantly... makes possible complete all-day protection: Use it after every meal! Fights tooth decay, combats common gum trouble.

AT LAST—chlorophyll in a toothpaste! It's the green substance in all plants with which they convert lifeless chemicals and sunlight into life-giving nourishment. When you brush your teeth with new Chlorodent Toothpaste, this natural agent performs a miracle in your mouth!

Chlorodent doesn't just cover up mouth odor, but destroys it. By using this toothpaste regularly—preferably after meals—you can have a clean, fresh mouth all day long!

At the same time, Chlorodent fights tooth decay and relieves common gum disorders. It cleans teeth beautifully and puts lasting sparkle in your smile by promoting the hygiene which is the foundation of beautiful teeth. And children love its cool, minty flavor.

Get Chlorodent at any drug counter. Ask your dentist or for yourself why it's winning friends faster than any other toothpaste ever offered to the Canadian public!

Destroys MOUTH ODOR

Combats Common GUM TROUBLES

Fights TOOTH DECAY

ITS NATURE'S GREEN CHLOROPHYLL TOOTH PASTE A PEPSODENT PRODUCT

THAT COOL, FRESH GREEN comes from chlorophyll, greatest deodorizing substance ever discovered. It explains Chlorodent's long-lasting clean, fresh feeling.

Science proves Chlorodent stops MOUTH ODOR for hours! The scientific odor-measuring instrument was recently used to test Chlorodent's effectiveness. All of the men and women tested had bad breath. Yet 3 hours after brushing teeth with Chlorodent Toothpaste, the breath was still fresh and clean in 99% of the cases! At the end of the tests—4 hours later—3 out of 4 were still completely free of bad breath.

NOW strike at the very causes of tooth decay!

First, Chlorodent greatly reduces the mouth acids that "eat" into tooth enamel. Second, it helps combat the bacteria which cause these acids. Finally, it keeps your teeth so clean that bacteria find it difficult to multiply on them. No toothpaste has ever offered better protection.

Half of all tooth losses caused by GUM TROUBLES!

It's a fact! An estimated 50% of all tooth loss can be traced to conditions which start with sore, bleeding gums. Chlorodent promotes the growth of firm, healthy pink tissue. If you are troubled with tender gums, you will want to use Chlorodent for its fast relief of this condition alone.

WHAT IS CHLOROPHYLL? Chlorophyll is the magic green substance in all growing things, which transforms the sun's energy into life-giving nourishment. Dentists use chlorophyll preparations as a deodorant, and as an aid in the repair of tender gums. Chlorodent brings you chlorophyll's wonder-working properties in a dentifrice! \*Water-soluble chlorophyllins
