THE DAILY EXAMINER.

FEBRUARY 14, 1896.

THE PATRIOT'S MISTAKE.

The Patriot takes issue upon one point raised by THE EXAMINER in respect to the Manitoba School Question. We infer that all the other points are admitted.

As to the point at issue, the Patriot says: "The British America Act guaranteed Separate Schools to Ontario and Quebec, because they existed there at the time of the Union." But "in Manitoba there were no denominational schools established *by law at the time of the union*." It is nevertheless true that denominational schools existed in Manitoba by *practice*; and the Manitoba Act expressly sets forth that nothing in any act which the Legislature of the Province of Manitoba may pass, "shall prejudicially affect any right or privilege with respect to denominational schools which any class of persons have by law OR PRACTICE in the Province at the union." This is conclusive. In point of fact, the schools of Manitoba were, in practice, denominational from the beginning. In their judgment the Judicial Committee of the Privy Council note the difference between the readings of the provisions of the British North America Act in respect to education and those of the Manitoba Act, and says:

"It was not doubted that the object of the first sub-section of section 22 (Manitoba Act) was *to afford protection to denominational schools*."

"There is no doubt, either, what the points of difference were, and it is in the light of these that the 22nd section of the Manitoba Act of 1870, which was in truth a *Parliamentary contract*, must be read."

The sole question to be determined is whether a right or privilege which the Roman Catholic minority *previously enjoyed* has been effected by the Legislation of 1890. Their Lordships are unable to see how this question can receive any but *an affirmative answer*."

It is to be hoped that the Patriot will take pains to correct its mistake upon this point. In the discussion of the Remedial Bill now before Parliament we ought to start right.

We dispute the Patriot's statement that "the position of Manitoba by her act of union in regard to education is precisely the same as that of P. E. Island." Separate Schools, according to law, are provided for Ontario, Quebec, Manitoba and the Northwest Territories; but not for P. E. Island. By the way, it was the Hon. David Laird who, if we mistake not, as Minister of the Interior, carried through Parliament the bill providing denominational schools for the great Northwest. After the Legislature of this Province shall have passed a Separate School law, under which separate schools shall have been established, it will be time enough to raise the question whether or not it is possible that the Parliament of Canada can pass a remedial bill for P. E. Island. At present, it is impossible.

NOTES AND COMMENTS.

—Mr. Foster, recommended in his great budget speech, the consideration by British statesmanship of the question, "Whether it is not possible to bring about, between the colonies and Great Britain, a line of action which will be conducive to the commercial interests of both."

—The speech of the Lieutenant-Governor at the opening of the Manitoba Legislature says the revenue of the province is no longer equal to the requirements of the public service. The debt and expenditure of Manitoba have been very largely increased under Mr. Greenway's administration, and the gross debt per head of population is now larger than in any of the other provinces. The natural result is that the revenue should be found insufficient. There has never been in Canada a Liberal Government, provincial or federal, that did not increase the expenditure, and add to the debt and augment the taxes. Manitoba, under Mr. Greenway, is going through the regular experience.

—In reply to a question put by Mr. Tanner of Pictou, in the House of Assembly, Premier Fielding stated that the amount which the provincial government owed the banks on the 31st December, 1895, was $410,000 and upwards. That is, as the Herald points out, the province owed the banks about a whole half year's revenue! Just fancy Mr. Foster going into the House of Commons with the statement that the Government owed the banks $17,000,000! And yet that would be relatively about the same thing as Mr. Fielding's statement. Nova Scotia, under Grit rule, is in about the same position financial as P. E. Island. It has a big debenture debt and a big debt to the banks.

—The announcement of the instant return of Cecil Rhodes to South Africa is variously construed in London. The friends of Mr. Rhodes, naturally, claim that it indicates that the Secretary of State for the Colonies is satisfied with Rhodes' explanations, and that the idea that the charter of the South Africa Company would be revoked may be dismissed. However, it is generally believed that some show of severity must be made, and that the Chartered Company cannot be permitted to escape scatheless. Therefore its charter may be considerably modified and its administrative powers may be withdrawn, through its privileges are not likely to be touched. From Mr. Chamberlain's statement it is informed that the entire Rand embracing the whole mining district is to be erected into a semi-autonomous province, with a Legislature, Supreme Court, police, educational system, mining management and so on of its own. Plenty of safeguards of the Transvaal's supremacy in large matters are suggested, such as the power to vote and the like, but in substance, Mr. Chamberlain proposes to give to the invading Uitlanders on the Rand a freer scheme of home rule.

The announcement that Rhodes on his return will live in Rhodesia instead of Capetown may be taken as signifying that he is to stand on the frontier of the Transval as the representative—not merely as the head of a huge private financial syndicate, but as the more or less official representative—of England's will that the Uitlanders be allowed to manage the Rand in their own way.

BRITISH EMPIRE EXPOSITION.

Special Article Issued by the Department of Publicity and Promotion.

The Dominion of Canada is to have a great international Exposition during the coming summer. The Exposition, which will be officially known as the British Empire Exposition and International Display of all Nations, will be opened on May 25th (the Queen's Birthday) and will be kept open until October 12th. It will be Canada's first great International Exposition, and will include exhibits from all parts of the world. The active spirit in the enterprise is Mr. Joseph H. Stiles, who was the British Commissioner at the California Midwinter Fair. At the close of the Mid-winter Fair, Mr. Stiles paid a visit to Canada and was at once struck by the magnificent possibilities that it afforded for a great Exposition. With the encouragement and support of several public-spirited citizens he set to work, and it was not long before he had obtained the necessary capital. Being thoroughly au fait in Exposition work, he obtained assurances of assistance and good will from many of the largest Exhibitors in the world who had taken part in other Expositions.

Mr. Stiles and his staff of officials have been busy for over a year engaged on the preparatory work in connection with the Exposition and the arrangements are now well advanced. The objects and scope of the Canadian Exposition were explained by Mr. Stiles at a great mass meeting of citizens recently held in Montreal.

Mr. Stiles' plans were enthusiastically received and the Exposition was unanimously endorsed by the citizens in mass meeting assembled, and the Dominion Government and city authorities of Montreal called upon to assist it.

NATIONS THAT WILL TAKE PART.

The idea of the Exposition has been heartily received by foreign countries and advices already received indicate that there will be extensive displays from the United States, the United Kingdom, France, Germany, Austria-Hungary, Italy Sweden, Norway, Denmark, Russia Poland, Turkish Empire, Switzerland, Australasia, Ceylon, Burmah, Cape Colony, Japan and China, Mexico, South and Central American Republics.

SPECIAL ATTRACTIONS.

In addition to extensive exhibits from these countries, many special attractions of a novel and interesting character will be provided, such as: The Avenue of All Nations; Old London Bridge and Street; The Rock of Gibraltar with H. M. S. Victory; The Venetian Canals, with Gondolas and Gondoliers; The Electric Railway and the Alps Scenery; The Haunted Swing; Children's Fairy Land; the Colorado Gold Mine; The Mirror Maze; The Burmese Snake Charmers and Jugglers; East India's Wonderland; The Moorish Palace (in it Eden Musee); The Microscope and Goroscope Top; An Ostrich Farm; Chinese Village and Pagoda with Theatre; Japanese Park with Hooden and Tea Garden.

SCOPE OF THE EXPOSITION.

The objects, character and scope of the Exposition and the advantages it offers for spreading a knowledge of the Products, Resources and Industries of all countries, will be gathered from the following:

GROUP.

1. Architecture and Forestry.
2. Means of Transport.
3. General Industry.
4. Food Industries.
5. River and Sea Fishery.
6. Health.
7. Machinery.
8. Lighting.
9. Industrial Arts.
10. Heating.
11. Geographical Section.
12. Complete Furniture.
13. Means of Safety.
14. Gardening.
15. Insurance.
16. Miscellaneous.

There will also be special departments, such as the Art Department and Historical Collection, the Women and Children's Department etc.

THE EXPOSITION GROUNDS

are situated at the base of Mount Royal, which is one of the most beautiful parks in America, abounding in the most magnificent natural scenery. The Grounds comprise over 60 acres of land. The Exposition Buildings will be of the most unique and beautiful descriptions, illustrative of various forms of architecture; they will include:

Manufacturers and Liberal Art Building; Horticultural and Agricultural Building; Fine Arts Building; The Palace of All Nations and other Structures.

The grounds will be artistically and beautifully laid out, and everything will be done to add to the convenience and comfort of the visitors. There will be flowing fountains and green lawns, and prizes will be offered for the best designs in laying out the ground. Many of the leading bands of music of the world have been engaged to furnish music during the Exposition. Electric Illuminations and Fountains, as also a grand display of Fireworks will enhance the beauties of the grounds at night.

The railways and other public bodies it may be mentioned have taken up the Exposition with enthusiasm and the indications are that it will be a grand success.

LAST NIGHT'S CARNIVAL.

WE hasten to congratulate Messrs. Dawson and Rogers upon the success which attended the Carnival in Hillsborough Rink last evening. They worked hard to make the affair interesting and entertaining, and they were eminently successful. They had a splendid sheet of ice, and the largest attendance of skaters seen at a carnival in Charlottetown in many years. The rink decorations were very tasteful, and the electrical display capital. The large number of spectators present greatly appreciated the entertainment furnished.

Many of the costumes were very handsome, and as the one hundred and eighty skaters glided over the glassy surface to the inspiring music of the Citizens' Band the spectacle was a pretty one indeed. Especially pretty was the scene when the colored lights were turned on. The first tableau represented the Red, White and Blue, the second the Stars and Stripes, and the third the Union Jack and the Stars and Stripes crossed. Appropriate music accompanied each tableau.

The competition for the medal offered by the managers of the Rink was very keen. Whilst it is true that in respect to several of the costumes very little skill or artistic taste was displayed, there were many that were both complete and artistic. The judges—Messrs. Percy Pope and Thos. May—decided that Mr. Herbert Spragu s who represented the Roman Soldier, was the most representative character on the ice, and to him they awarded the medal. Mr. Morley Myers, who represented the New Woman, was a splendid character, and pushed the Roman Soldier for the medal. The Greek was another splendid character; and the Two Tramps, Russian Peasant, Hermione, Sappho, Good Luck, Valkyrie III, the Flying Squadron, were also good personations. There were not a few other costumes of which special mention might be made did space permit. The following list, which is necessarily incomplete, gives the names and characters assumed:—

CARD.

SIR,—I desire to tender my best thanks to the Electors of Charlottetown who favored me with their votes on Wednesday last; and although defeated, the vote recorded for me is one which I have reason to feel proud of. I found myself attacked on the one side by the united Liquor vote, while at the same time a determined house to house canvass was made against me by members of the "Women's Christian Temperance Union," so that the extraordinary combination thus formed was bound to defeat any candidate against whom it was directed.

Yours faithfully,

HORACE HASZARD.

SPECIAL DESPATCHES TO THE EXAMINER

PARLIAMENT OF CANADA.

The Opposition Wasting Time.

Scandalous Obstructive Tactics.

OTTAWA, Feb. 14.

It is becoming painfully evident that Parliament before long must take steps to vindicate its *raison d'etre*. The action of the Opposition this session this session has been scandalous. Day after day frivolous topics have been brought up for the sole object of wasting time. Yesterday the climax was about reached when Dr. McDonald, the Grit member for Huron, talked for four and a half hours on every conceivable subjet under the sun. He was supposed to be discussing the budget, but carefully avoided Mr. Foster's able deliverance.

It is learned on good authority that in the event of the Manitoba Legislature not granting any financial aid to the Catholic minority, the Remedial Bill is so framed as to enable the Dominion to make good the omission of the Manitoba authorities. Clause 75 states that the Catholic schools may participate in any provincial grant or fund. It is understood that if Manitoba fails to grant aid, parliament will be asked next session to amend the Dominion Lands act by providing that the Catholics may be given a share of school lands. It is reported that the government may refer the question as to when the life of the present parliament expires to the Supreme Court for an authoritative opinion.

The contingent committee of the Senate has decided to recommend John Carlton, many years confidential messenger to Sir Mackenzie Bowell, for appointment to the vacant position of house keeper of the Senate.

Senator Angers says that without having examined the provisions of the Remedial Bill closely, he believes the measure to be a good one.

Hon. Dr. Montague left for England yesterday, it having been decided that he should take five or six weeks rest from work.

THE BRITISH PARLIAMENT.

Dillon's AMendment Rejected.

More Agitation for Home Rule.

LONDON, Feb. 14.

In the House of Commons yesterday Mr. Dillon moved an amendment to the address in reply to the speech from the throne, declaring that the absence of a bill providing for the self-government of Ireland had aroused discontent among the Irish and increased the difficulties existing in foreign affairs.

Tim Healy, anti-Parnellite, admitted his disloyalty to England. He had been sent to Parilament to secure the establishment of a native Ireland parliament. His endeavors, therefore, would be to harrass, attack and thwart, in every way, the policy of those who refused to grant Ireland Home Rule. Dillon's amendment was rejected by a vote of 276 to 160.
