

# Seven-step process allows for fast fillet production

CLAIM AIR SPACE VIOLATED

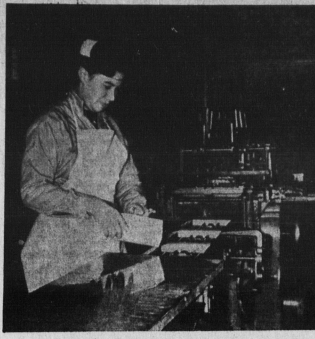

SUFFERS STROKE

KEY WEST, Fla. (AP)—Havana radio made claims Tuesday of new American violations of Cuban air space and territorial waters. Havana radio has made similar air space violation charges almost daily since early July.

BRASILIA (AP)—Former premier Francisco Brossado da Rocha suffered a stroke Tuesday and is in serious condition, a high government source said. The 52-year-old law professor quit as premier of Brazil Sept. 13 during a political crisis.

1—FILLETING A FLOUNDER

5—CELLOPHANE KEEPS PRODUCTS FRESH

2—SKINNING MACHINES ARE FED

6—FILLETS PUT IN TRAYS, FROZEN

(1) Step one in the production of frozen fillets is cutting the fillets from the whole fish. Here Earl Peters of St. Charles is filleting a flounder.

(2) The skins must be removed from the fillet and here James White of Bear River and Lorna MacDonald of Armadale are feeding two skinning machines.

(3) Each fillet must be without blemish. Here Lona Campbell of Mount Stewart is checking a fillet to make sure there is no trace of skin, etc., left on.

(4) Fillets are packed in either one-pound or five-pound packages. Here Mary Richards of Armadale and Harriet MacLennan of Little Harbour are packing fillets in one-pound packages.

(5) Each package is covered with cellophane overwrap to aid in keeping freshness and to show brand name and variety of fillets. Evelyn Laybott feeds a wrapping machine.

(6) After overwrapping fillets are shown coming from machine and being put in trays by Francis Gregory of New Zealand. The next step in the process is freezing.

(7) This is the finished product held by John McCormack of Souris. The fillets are now ready for shipment to points in the United States and Canada. (Photos on this page were taken with permission of Eastern Fisheries Limited and Eastern Packing Company Ltd., at their plants in Souris.)

7—THIS IS THE FINISHED PRODUCT

## Railroad men get higher pay

OTTAWA (CP)—Yearly average wage of Canadian railway workers in 1961 increased to \$4,504 from \$4,219 in 1960, the Dominion Bureau of Statistics reported today.

Canada's railways in 1961 provided work for an average of 156,001 persons—456 less than the year before.

Compensation paid to railway workers in 1961 was \$746,007,831 compared to the \$740,475,804 in 1960.

## OIL DEVELOPMENT

Canadian-Australian Oil Company, a Canadian-owned firm, has entered the intensified search for oil in New South Wales, Australia.

8—FILLET IS CHECKED FOR CLEANLINESS

Your final tribute should be the best. A beautiful monument, visible all year around, is a lasting tribute to your loved ones. In our province, where farming and fishing are our chief industries, our population is settled and closely united. Our history has a great deal of meaning for us. Let us keep the memory of our loved ones alive in the community where they lived with a beautiful memorial.
