MARKETS.
OATS.
The English markets, we regret to learn, are even worse than stated in our last report, and report says it would be better for dealers to be out of the business at present. A cargo is reported to have been sold at Liverpool for nineteen shillings and two pence half-penny, for United Kingdom, and twenty shillings and three pence is the most that can be got for the Continent, even with cargoes off the coast and reported perfect.

POTATOES.
According to Boston Market Reports of the 11th inst., prices continue steady for strictly choice Rose, which in some instances go higher than quotations—85 to 90 cents. Choice Prolifics will command 80 to 85 cents per bushel, but Jacksons and other common white potatoes cannot be sold at over 65 and 70 cents per bushel. Nova Scotia Chenangoes are hard to sell in cargo lots at over 55 to 60 cents. The report says that up to the 11th there has been a large supply at the wharves and the market is dull for all kinds of white stock. They are receiving new potatoes in New York market, and the reports of 11th from there say that most of the receipts are small and the price per barrel is not above \$3.40 or \$4.00.

EGGS:
Boston reports of the 11th state that supplies of eggs in that market have run short for the past few days and prices have advanced. Choice Eastern and Vermont readily command 16½ cents per doz, and Canada and P. E. Island sell at 16 and 16½ cents per dozen. The report says the market closed firm on the 11th, and some extra Eastern go higher than quotations. In New York, Canadian fresh eggs were quoted at 18½ to 19½ cents per dozen on the 11th inst.

FLOUR.
A Galt, Ontario, circular of the 10th inst. states that markets during the past week have been quiet and steady and in grain and flour there is no change of consequence in the report published last week. Owing to favorable ocean freights there is a revival of the trade with Great Britain in barrel flour. The winter wheat crop in the vicinity of Galt will average from ½ to two-thirds, and stocks are unusually light. Influenced by these facts, the feeling generally is that prices cannot be lower until after harvest. The demand for flour in Galt has been steady and prices firm, with an advancing tendency. Offerings are light and holders very firm: Spring Extra is quoted at \$4.95 to \$5.00; Extra, \$5.00 to \$5.05; Superior Extra, \$5.10 to \$5.15, and Strong Bakers, \$5.25 to \$5.30. The Montreal Gazette of the 13th says the local flour market was quiet but steady, and prices were almost as last quoted. Among the sales reported since 'Change were two cars of American strong bakers at \$6.40 and one car do. at \$6.30. The following are the Montreal quotations of the 13th:—
Superior Extra..... \$5 42 @ 5 45
Extra Superfine..... 5 25 @ 5 30
Fancy..... 5 25 @ 5 30
Spring Extra..... 5 25 @ 5 30
Superfine..... 4 80 @ 4 90
Strong Bakers..... 5 50 @ 6 15

Wheat Prospects.
Mr. John C. Harris, of Chicago, writes to the Tribune:—"My recent readings of crop prospects in Great Britain are far from bearing out the rosy-hued accounts given by some parties who telegraph from Europe to papers here. The season is very backward all over northern Europe. The wheat crop in Great Britain is deficient in plant, and the prospect is for a late and not very prolific harvest, while the acreage is 20 per cent less than last year. This fact of itself will cause an import for 1881-82 fully equal to last year's wants. The 'Mark Lane Express' of May 23 states: 'Unless we ignore facts and their obvious bearing, we cannot avoid the conclusion that English grain crops do not, on the 23rd day of May, stand well for harvest. Northern Europe has suffered from excessively cold weather. Hamburg dates of the 24th May state that there are numerous complaints of wheat fields having been seriously damaged by frost. Southern Europe during May has been suffering from protracted drought, especially Southern Italy, Spain and Portugal. South East Russia outlook is very poor; acreage very much reduced for want of seed. French crops scarcely an average. North African crops almost a failure. This refers to Algiers, Tunis and Tripoli. They are large exporters principally to France. This year they will be importers. Egyptian crops are not nearly as good as last year, and on May 16, the letter states samples coming to hand are poor, and are taken up for local consumption at 2s. to 3s. per qr. above English values. One of the most important facts for the trade to keep in mind is that the reserves of all Europe have been consumed. Crops in Australia this year are very poor. They expect to export only 6,000,000 bushels. Last year they exported 15,000,000. South Africa will receive a good portion of this quantity. Chilean crops this year are very poor; they will export only one-half this year which they shipped during 1880. When we come to reflect upon the wants of Europe yearly, and their continued dependence upon the United States, with our own crop prospects, which they evidently will not believe as

poor as represented by the Western press, and which a large proportion of the merchants, traders, and farmers of the West believe, we cannot have more than 50 per cent. of last year's crop of winter wheat, and our spring wheat crop stands thin on the ground, not having stood out well with less acreage in Wisconsin, Illinois, Minnesota, and Iowa. And the fact that our present stocks are growing weekly smaller, being nearly 6,000,000 less than last year at the same time, and that our exports are larger than last year since January 1, and that it is distributed all over Western Europe, there does not exist one single sound reason for depressing our present prices, especially the more distant futures. That is the worst feature in our option trading, the discounting of the future. It enables the foreign merchants to buy heavily at very low prices, and to keep large stocks without any cost or expense of carrying the same, and keep their markets well supplied, as was the case last December. Taking this, together with the very small stocks of wheat at all the importing cities of Great Britain, France, Holland, Belgium, and Germany, compared with last year, and their large wants up to last September, I can see no good reason for lower prices."

Utterances of Famous Men.
"It looks like rain."—Plato.
"Pass the butter."—Horace Greeley.
"Cold day, ain't it?"—Martin Luther.
"My heart aches fit to split."—Geo. Washington.
"You can stop my paper."—Napoleon Bonaparte.
"Is this hot enough for you?"—Cardinal Richelieu.
"Send me up two pounds of steak."—Thomas Jefferson.
"You are fuller than you were before dinner."—Confucius.
"These potatoes ain't more than half done."—Socrates.
"Call around next week and I'll pay it."—Edgar Allan Poe.
"H e's another button off this shirt."—Daniel Webster.
"Can't you keep your cold feet out of my back?"—Brighton Young.
"Can't you lend me five dollars till next Monday?"—John Howard Payne.
"You needn't sit up for me; I shan't be home till late."—Thomas A. Kempis.
"I suppose I've got to go out and shovel off that sidewalk."—Charles Sumner.

Scrutin de-Liste.
Advices from Paris state that the rejection of the *Scotin de liste* bill has led to hopeless divisions in the Cabinet. The Opposition journals intimate that Gambetta will probably resign the presidency of the Chamber of Deputies, and that President Grévy must yield to Gambetta or make a big fight.
SKINNED HIS NEIGHBOR'S HORSE.—Some time ago, two farmers, near Johnson's River, possessed a pair of gray horses of remarkable similarity. Both of these horses strayed from their owners at the same time, and one of them drowned accidentally in a neighboring marsh. One of the owners, missing his horse, came to this marsh seeking him and found what he believed to be his horse lying dead in a marsh hole. He immediately set to work and skinned the animal, wishing to save so much. He took the hide home with him and put it in safe keeping. But on the following night, to his utter amazement, his own old steed came trudging into the barnyard, and it was only after the strictest examination he found to his surprise and satisfaction that he had skinned his neighbor's horse.
O. I. C.—Seeing is believing.—Those who use spectacles, and those who require them should call at the Apothecaries Hall, and see the optician, for fitting the night accurately. It contains 120 different lenses so adjusted that you can be fitted in five minutes without the trouble and annoyance of trying on a number of spectacles. The largest and best assortment of spectacles, eye glasses, &c., on the Island, to select from, in stock.
There is considerable anxiety felt at Montreal, lest the project for establishing a line of steamers between Canada and Brazil has collapsed. It is stated that the stock in the company was not fully subscribed for.
When a man produces a thousand and one vehement arguments to prove that he is innocent, your verdict ought to be "Not guilty; but he must do it again."
Trickett, the Australian oarsman, arrived in New York on the 11th inst.
Remedy for Hard Times.
Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple pure remedies, Hop Bitters that cures always at a trifling cost, and you will see better times and good health. Try it once. Read of it in another column.
Murder Will Out.
A few years ago "August Flower" was discovered to be a certain cure for Dyspepsia and Liver Complaint, a few thin dyspepsics made known to their friends how easily and quickly they had been cured by its use. The great merits of Green's August Flower became heralded through the country by one sufferer to another, until, without advertising, its sale has become immense. Druggists in every town in the United States are selling it. No person suffering with Sour Stomach, Sick Headache, Costiveness, palpitation of the Heart, Indigestion, low spirits, etc., can take three doses without relief. Go to your Drug Store and get a bottle for 75 cents and try it. Sample bottles 10 cents.
